THE SACCO SUPERVISION ANNUAL REPORT, 2021

The Annual Statutory Report on the operations and performance of Regulated SACCO Societies in Kenya

The SACCO Societies Regulatory Authority © 2022
All Rights Reserved

The SACCO Societies Regulatory Authority (SASRA) © 2022

The SACCO Supervision Annual Report is an annual publication of the Sacco Societies Regulatory Authority (SASRA). It documents the performance and operations of SACCO Societies in Kenya in compliance with the requirements of Section 22 of the Sacco Societies Act No. 14 of 2008.

This Report, is however, not an investment prospectus and members of the public are advised to always undertake utmost due diligence and care before making any financial transactions with any individual SACCO Society and/or other entity in respect of which this Report relates

All Rights Reserved

OUR VISION

A distinguished regulator of a financially inclusive and stable SACCO sector

OUR MISSION

To effectively regulate, supervise and develop the SACCO sector by promoting sound business practices in order to enhance stability, growth, access to financial services and member protection

OUR CORE VALUES

Integrity; Accountability; Innovation and Creativity; Professionalism; Teamwork; Equity; and Trust

OUR LEGAL MANDATE

License SACCO Societies to carry out Deposit-Taking Business in Kenya	The Authority licenses qualifying SACCOs to undertake deposit-taking business pursuant to Section 23 of the Sacco Societies Act, as read with the Sacco Societies (Deposit Taking Business) Regulations, 2010 made thereunder
Regulate and Supervise SACCO Societies in Kenya	The Authority regulates and supervises the activities of qualifying SACCOs in accordance with Section 5 of the Sacco Societies Act and the Regulations made thereunder, including the Specified Non-Deposit taking SACCO business as prescribed under Section 3 of the Sacco Societies Act and read with the Sacco Societies (Non-Deposit Taking Business) Regulations, 2020.
Hold, manage and apply the General Fund of the Authority in accordance with the Act	The General Fund is the statutory fund created under Section 16 of the Sacco Societies Act and is managed by the Authority in accordance with Section 5(c) of the Sacco Societies Act
Do all such other things as may be lawfully directed by the Cabinet Secretary	The Cabinet Secretary has powers under Section 5(e) of the Sacco Societies Act and other written legislation to issue directions to the Authority to do any lawful thing with respect to supervision and regulation of SACCOs in Kenya
Perform such other functions as are conferred on it by the Act or by any other written law	The Authority performs any other functions that have been assigned to it under the Act or any other written law as provided in Section 5(f) of the Sacco Societies Act.

MESSAGE FROM THE BOARD

Mr. George Murathe
Chairman, Board of Directors

Introduction

The Board of Directors of the Sacco Societies Regulatory Authority is pleased to present the Sacco Supervision Annual Report, 2021 which documents the performance and operations of regulated SACCOs in Kenya during the year 2021. Despite external shocks that continued to negatively impact the various sectors of the national economy such as the COVID-19 pandemic and erratic weather patterns, it is encouraging to see that the SACCO subsector was able to withstand such shocks to record relatively impressive growth rates in the key performance parameters. During the year 2021, the subsector's total assets grew by 9.93%, the gross loans grew by 9.67%, and the total deposits grew by 9.80%, thereby underscoring the resiliency of the Kenyan SACCO business model even in the wake of external shocks.

Implementation of the Regulations 2020 for specified non-deposit taking SACCO business

The year 2021 witnessed the operationalization of the Regulations 2020 with effect from 1st January 2021 in which the Authority commenced the process of authorization, supervision, and regulation of SACCOs undertaking specified non-deposit taking business in Kenya for the very first time within a six (6) months transition period. The Authority reports that at the end of the transition period and close of the year 2021, a total of 199 applications were received, out of which 185-SACCOs were successfully issued with Authorization Certificates to operate as regulated non-withdrawable deposit taking SACCOs (NWDT-SACCOs) in Kenya.

Authority authorized 185-SACCOs to undertake specified non-deposit taking business as NWDT-SACCOs

However, it is equally worth reporting that the statistical information relating to the 185-NWDT-SACCOs depicts the fact that they are very small in their asset and deposit sizes, relative to the DT-SACCOs. Despite the NWDT-SACCOs being slightly more than 51% of all the regulated SACCOs, their total assets and total deposits market share stood at a paltry 14.37% and 16.05% respectively in 2021; while the proportion of their net loans and advances over the same period was only 14.75%. It is thus evident that the DT-SACCOs are by far and more the dominant segment of the SACCO subsector.

The 175-DT-SACCOs' proportion of subsector's total assets and deposits represented 85.63% and 83.95% respectively.

Non-Remittances to SACCOs

The non-remittance menace was noted to continue undermining the performance and competitiveness of SACCOs during the year ended December 2021. This was evidenced by the fact that a total of Kshs 3.40 billion was reportedly owed by various employer institutions to the 361-Regulated SACCOs in operation in the country. Even though there was a general reduction in the non-remitted amounts which had stood at Kshs 5.05 billion in 2020, the owed sum of Kshs 3.40 billion is still too high in the circumstances given that these are funds which would have improved the liquidity in the SACCO system, loaning to the membership, leave alone the opportunity costs lost. The fact that 63.34% of the non-remitted funds owed is related to loan repayments means that the subject loans have since been classified as non-performing by the SACCOs and provisions made in respect thereof thereby reducing the surpluses and profitability of the SACCOs.

Non-Remittances of deductions due to SACCOs remain high at Kshs 3.40 billion compared to Kshs 5.05 billion.

The statistical analysis shows that the public universities and tertiary colleges continued being the greatest defaulters in terms of non-remitted funds owed to SACCOs, which amounted to Kshs 1.30 billion in 2021 representing 38.03% of the total non-remitted funds. Cognizant that there are 10-Regulated SACCOs whose membership are primarily drawn from the public universities and tertiary colleges, it is clear that a sum of Kshs 1.30 billion being owed to just 10-SACCOs has the potential of greatly undermining their performance. The statistical analysis showed that the County Governments and assemblies owed the third highest amount of the non-remitted funds accounting for 18.81% of the total non-remittances. This is ironically because it would have been expected that since the cooperative sector being a constitutional devolved function of the county government, the County Governments ought to have been at the forefront of promoting the SACCOs by ensuring that the members' deductions from their payrolls are promptly remitted to the respective SACCOs.

Public Universities & Tertiary Colleges and County Governments owed the highest proportion of non-remitted deductions amounting to 38.03% and 18.81% respectively

Over the last two years, the government has been employing a multi-thronged policy, legal and administrative measures aimed at reducing the problem of non-remitted funds owed by government institutions to the SACCO subsector. These initiatives included the presidential directive issued in November 2019 designating such non-remitted SACCO funds as pending bills which government entities are required to budget for and give priority in paying. It is however evident that the measures being taken are bearing fruits but at a very slow pace, not sufficient to spur the growth of the SACCO subsector, thereby calling for a rethink of the measures. It is thus encouraging to note that some of the proposals aimed at addressing the problem were incorporated in the draft Cooperative Bill, which was subjected to a stakeholder consultations process and validation in the course of the year 2021. The Authority thus looks forward towards the final approval of the draft Bill, its legislation into law and implementation, as the measures therein will go a long way in reducing the non-remittance problem in the SACCO subsector.

Long term policy, legal and administrative actions need to be taken against perennial defaulters from the public sector.

Despite the many downturns which continues to negatively impact on the performance of SACCOs, the Authority projects a sustained growth rates in key parameters of growth and stability in 2022, driven by the relaxation of the COVID-19 protocols and restrictions which shall allow the economy to operate at its full potential. The year 2022 will also see the lapse of the *Kenya Vision 2030 Third Medium Term Plan (2018-2022) (MTP III)* in which SACCOs have been a major contributor in the financial sectoral plan through mobilisation of savings, deepening financial access of affordable credit aligned to the Big-Four Agenda. With a contribution to the national GDP of 6.67% in 2021 and 6.85% in 2020, there is no doubt that when the final evaluation of the MTP III is finally written, the overall contribution of the SACCO subsector thereto shall be very well pronounced.

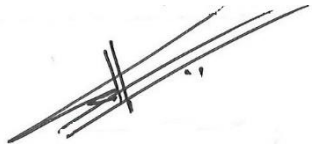

The regulated SACCOs asset to National GDP stood at 6.67% in 2021 compared to 6.85% in 2020.

The year 2022 will also herald the development of the *Kenya Vision 2030 Fourth Medium Term Plan (2023 – 2028)* (MTP IV) in which the Authority shall be fronting the SACCO subsector's financial agenda of consolidating the regulatory and supervisory gains made over the last few years, and releasing the SACCOs potential as stable, effective, efficient and trust-worthy deposit-taking financial service providers. In this agenda, investments by SACCOs in ICT, digital delivery channels and shared services will be the key game changer because members' convenience and ease of access to financial services and products will continue to determine client or customer patronage. SACCOs must therefore move their financial products and services to the digital space, otherwise the ever-growing techno-savvy demographic population will definitely look elsewhere for similar services. The eminent commencement of formal supervision of digital credit providers by the Central Bank of Kenya will add another layer of competition to SACCOs which will not have embraced the usage of ICT in financial services provision.

Electronic and digital financial products and services shall continue to drive success of financial service providers including SACCOs

Consumer protection and fair treatment of customers by SACCOs is equally another key agenda which SACCOs must not only embrace if they hope to maintain the existing clientele, but also if they are to attract new customers. Indeed, consumer protection and fair treatment of customers which is client (member) – focused, has over the last few years gained traction as an important core supervisory process, just like the traditional prudential supervision, which is largely institution focused, and shall therefore form the substratum of activities earmarked by the Authority for the MTP IV. In the meantime, the Authority has not been left behind in the universal supervisory policy shift towards consumer protection and fair treatment of clients, and in that regard has established and operationalised a market conduct functional department in its supervisory structure in 2021.

Supervisory and regulatory focus in the SACCO subsector must henceforth focus on consumer protection and fair treatment of customers

George Murathe
Chairman, Board of Directors

FOREWORD BY THE CHIEF EXECUTIVE OFFICER

CPA (Mr.) Peter Njuguna
Chief Executive Officer

Legal basis of the Report

The ***SACCO Supervision Annual Report*** is a statutory publication of the Authority prepared and published on an annual basis in fulfilment and compliance with the requirements of *Section 22(2) of the Sacco Societies Act No. 14 of 2008*. The Act provides inter alia that "*the Authority shall prepare and submit to the Cabinet Secretary a report on the operations and performance of SACCO Societies to which the Act applies within four (4) months after the close of the government's financial year*". And *Reg. 92 of the Regulations 2020* provides that "*the Authority shall pursuant to section 22 of the Act prepare and submit to the Cabinet Secretary a report on the operations and performance of the specified non-deposit taking Sacco businesses during that year.*" The SACCO Supervision Annual Report 2021 therefore documents the operations and performance of regulated SACCOs during the year ended December, 2021.

Licensing and Authorization status of SACCOs in Kenya

In accordance with its legal mandate of licensing SACCOs to undertake deposit taking business, the Authority commenced the year 2021 with a total of 175-DT-SACCOs being licensed to operate deposit taking business. However, four (4) DT-SACCOs had their licenses withdrawn or failed to have the operating licenses renewed for the ensuing year 2022, leaving a total of 171-DT-SACCOs in operation. At the same time the Authority licensed five (5) SACCOs to undertake deposit-taking businesses during the year 2021 bringing the total number of DT-SACCOs to 176 for the period ended December 2021. The 176-DT-SACCOs had their licenses successfully renewed for continued operation in Kenya for the period commencing January 2022 to December 2022.

Authority licensed a total of 176-DT-SACCOs to undertake deposit taking business in 2021

The year 2021 also saw the commencement of the implementation of the *Regulations 2020* which governs the authorization, supervision and regulations of SACCOs undertaking specified non-deposit taking business. At the close of the year 2021, the Authority had received a total of 199 applications from SACCOs seeking to undertake the specified non-deposit taking business, out of which 185 applications were successful. Consequently, the Authority authorized a total of 185-NWDT-SACCOs to operate in the country during the course of the year 2021, and these NWDT-SACCOs had their authorization successfully renewed to continue operating in Kenya for the period commencing January 2022 to December 2022.

Authority authorised 185-NWDT-SACCOs to undertake specified non-deposit taking business

Membership in the SACCO subsector.

Membership in SACCOs remain an important performance and growth monitoring matrix, because as cooperative enterprises, SACCOs transact and undertake business only with the members. Thus, the more the members, the higher the clientele and customer base. During the year ended December 2021, there was a marginal increase of 3.03% of the membership in SACCOs from 5.82 million members reported in 2020 to 5.99 million members in 2021. A large proportion of the members numbering 1.18 million were however reported as dormant implying that they had not conducted any transactions with their respective SACCOs for more than six (6) months.

Total number of memberships in SACCOs increased by 3.03% to reach 5.99 million members

The 49-Agriculture-based SACCOs had the majority of the members representing 46.79% of the total membership followed by the 117-Government-based SACCOs which had a proportion of 35.39% of the total members. The Government-based SACCOs comprised of 40-Teachers-based; 26-State Corporations based; 10-Universities (public) based; 10-County government based; and 31-Government general services based, whose proportion of membership were 22.61%, 3.40%, 0.37%, 1.64%, and 7.36% respectively.

46.79% of entire membership drawn from 49-Agri-based SACCOs

Financial Performance

The SACCO subsector's total assets grew by 9.93% in 2021 to reach Kshs 807.11 billion from Kshs 734.22 billion recorded in 2020. The 176-DT-SACCO had the highest proportion of the total assets amounting to Kshs 691.01 billion and representing 85.63% of the total assets' portfolio. This means that the 185-NWDT-SACCOs share of the total assets was a paltry 14.37% and thus cementing the dominance of DT-SACCOs as the main movers in the SACCO subsector.

Total assets increased by 9.93% to reach Kshs 807.11 billion in 2021

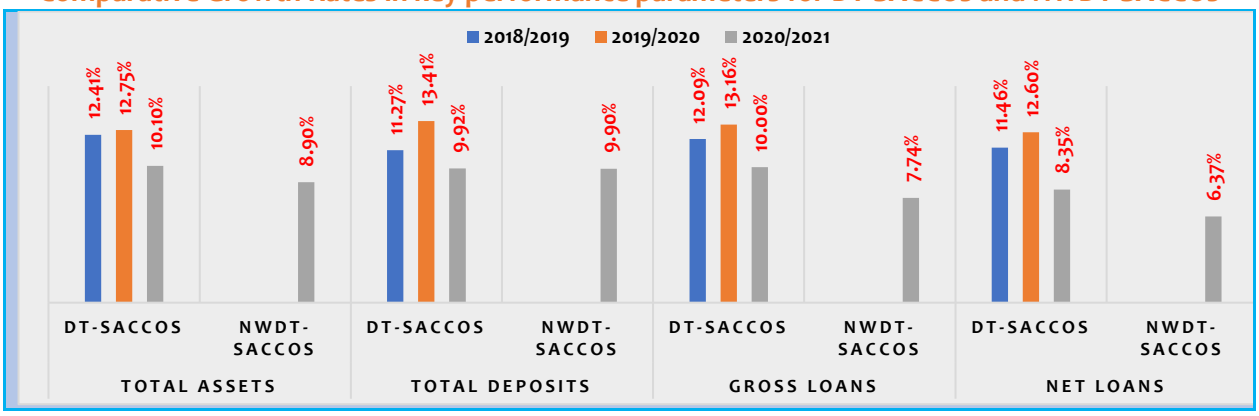

Similar dominance in performance trends was also witnessed with regard to the subsector's total deposits and gross loans. The total deposits in the subsector grew by 9.80% in 2021 to reach Kshs 564.89 billion from the sum of Kshs 514.46 billion recorded in 2020. The 176-DT-SACCOs had the largest proportion of the total deposits' portfolio amounting to Kshs 474.25 billion and representing 83.95% of the subsectors' total deposits. The 185-NWDT-SACCOs therefore shared the remaining 16.05% of the total deposits' portfolio. On the credit front, the subsectors' gross loans increased by 9.67% in 2021 to reach Kshs 608.75 billion from Kshs 555.05 billion reported in 2020. The 176-DT-SACCOs' share of the gross loans issued by SACCOs amounted to Kshs 522.25 billion representing 85.79% of the gross loans issued. The 185-NWDT-SACCOs share of the gross loans amounted to Kshs 86.50 billion and representing 14.21% of the gross loans.

85.63% of the total assets, 83.95% of the total deposits controlled by the 176-DT-SACCOs with the 185-NWDT-SACCOs controlling the balance of 14.37% and 16.05% respectively

At the segmental levels, it is noticeable that there was a decline in the rates of growth of DT-SACCOs in 2021 in respect of the key performance parameters of total assets, total deposits and gross loans. The total assets of DT-SACCOs grew at 10.10% in 2021 compared to a growth rate of 12.75% recorded in 2020; while their total deposits grew by 9.92% in 2021 compared to a growth rate of 13.41% recorded in 2020. The DT-SACCOs gross loans also grew at a slower pace than in 2021 recorded at 10.00% compared to a growth rate of 13.16% reported in 2020. The slower growth rates witnessed in the performance of DT-SACCOs is evidence that the after-effects of COVID-19 pandemic is still being felt in the SACCO subsector and erratic weather patterns. The chart below compares the growth rates of the SACCOs over three years period.

The after-effects of COVID-19 pandemic slowed down the growth rates of the subsector 2021 compared to 2020

Comparative Growth Rates in key performance parameters for DT-SACCOs and NWDT-SACCOs

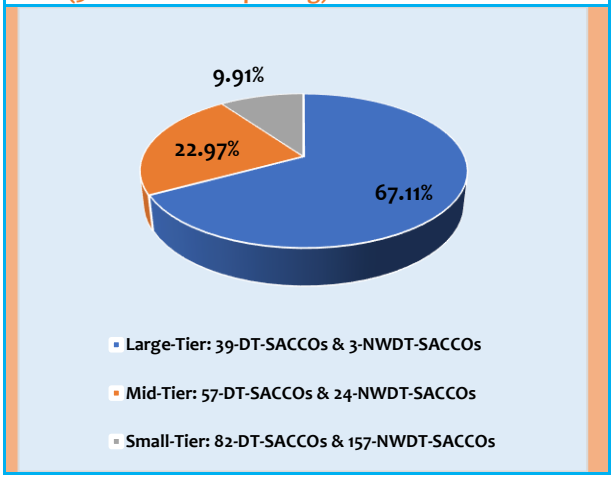

Market share of total assets and total deposits

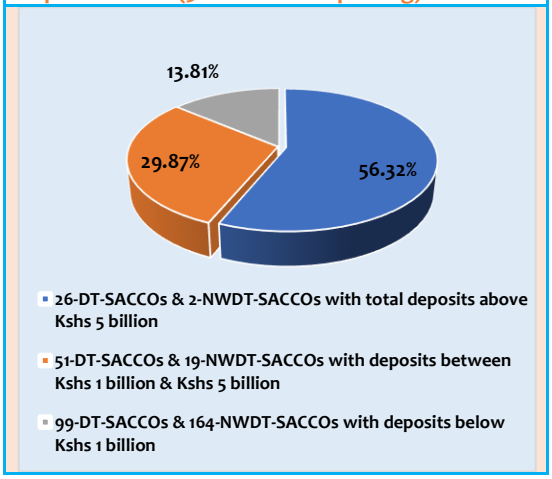

An analysis of the distribution of the total assets and total deposits among the 361-regulated SACCOs depicts a very heavy concentration of the assets and deposits among just a few of the SACCOs. In particular, 42-large-tiered SACCOs composed of 39-DT-SACCOs and 3-NWDT-SACCOs with assets above Kshs 5 billion controlled 67.11% of the subsector's total assets. This means that the remaining 319-regulated SACCOs were left to share the remaining 32.89% of the total assets' portfolio with the implications that on average these SACCOs had relatively small asset bases. Cognizant of the fact that assets are the revenue and income generating resource of SACCOs, such small average proportionate asset portfolios technically implies that the average income generated by these SACCOs was relatively low thus bringing into focus their sustainability particularly in light of sustained competition from the large-tiered SACCOs which enjoys economies of scale as well as other financial services providers.

67.11% of the subsector's assets controlled by just 42-large-tiered SACCOs.

Market share of SACCOs segmented by Total assets - 2021 (361 – SACCOs Reporting)

Market share of SACCOs segmented by total deposits – 2021 (361-SACCOs Reporting)

A similar trend analysis is evidenced on the deposits side with 28-regulated SACCOs composed of 26-DT-SACCOs and 2-NWDT-SACCOs with assets above Kshs 5 billion controlling a market share of 56.32% of the subsector's total deposits. This means that the remaining 333-regulated SACCOs shared the balance of 43.68% of the total deposits market share, further cementing the fact that on average these SACCOs are very small in their sizes.

28-SACCOs controlled 56.32% of the subsector's deposits.

Financial stability

Although growth rates on the key performance parameters of SACCOs during the year 2021 was slower than that recorded in 2021, and principally attributed to the after-effects of the COVID-19 pandemic and erratic weather patterns, the SACCO subsector reported increased capitalization during the year 2021 which was bolstered by the high overall retention of surpluses. The total capitalization of the DT-SACCOs segment increased from Kshs 97.74 billion reported in 2020 to Kshs 109.29 billion in 2021, while the key stability ratios of core capital to total assets increased to 15.81% in 2021 from 15.57% recorded in 2020 against the prescribed minimum of 10%. The core capital to total deposits ratio equally increased to 23.05% in 2021 from 22.65% recorded in 2020 which is above the prescribed minimum of 8%. The institutional capital to total assets ratio however decreased from 11.39% which was recorded in 2020 to 9.15% in 2021, which is explained by the fact that the subsector's total assets grew at a higher rate than the rate at which DT-SACCOs made retentions during the period. However, the

The DT-SACCOs increased in capitalization and met all the capital adequacy ratios in 2021 despite the harsh economic times.

ratio remained well above the prescribed minimum of 8% and thus confirms the continued financial stability of the DT-SACCO segment.

The NWDT-SACCOs segment on the other hand was compliant with the overall total capitalization which was maintained above the prescribed minimum of Kshs 5 million; the core capital to total deposits ratio was maintained at 9.59% in 2021 which is above the prescribed minimum of 5%; while the institutional capital to core capital ratio was maintained at 74.60% which again is above the prescribed minimum threshold of 50%. However, the NWDT-SACCOs segment on average did not meet the core capital to total assets threshold prescribed at a minimum of 8% which was reported at 7.49% in 2021, and explainable by the fact that 2021 was the year when NWDT-SACCOs were first subjected to prudential supervision which prescribed capital adequacy requirements. The NWDT-SACCOs were previously not required to comply with minimum capital adequacy requirements and thus there was never any incentive for them to build their capital, while on the other hand their asset portfolios always grew at a faster rate driven mainly by the growth in loans and other credit advances.

The NWDT-SACCOs segment yet to fully comply with the core capital to total assets ratio in their first year of prudential supervision.

The SACCO subsector's liquidity ratios remained within the prescribed minimum ratios during the year 2021, with the DT-SACCOs' segment's liquidity increasing from 48.50% recorded in 2020 to reach 55.34% in 2021 which is above the prescribed minimum threshold of 15%; while the NWDT-SACCOs segment's liquidity increased from 18.93% recorded in 2020 to 19.87% in 2021 which again is above their prescribed minimum of 10%. Despite the foregoing, the subsector's overall non-performing loans portfolio increased substantially to 8.99% in 2021 from a low of 8.39% registered in 2020. The spike in the NPL ratio was mainly driven by the NWDT-SACCOs which stood at a high of 9.78% in 2021 compared to the NPL ratio of the DT-SACCOs which stood at 8.86% in the same year.

The NPL ratio for the subsector increased to 8.99%, driven by a spike in the NPL ratio for NWDT-SACCOs in the first year of supervision which stood at 9.78%.

Acknowledgements

On behalf of the management team, the Authority extends its appreciation to the Cabinet Secretary, Ministry of Agriculture, Livestock, Fisheries and Co-operatives; the Principal Secretary for State Department for Co-operatives; and the office of the Commissioner for Co-operative Development for the unwavering support which has enabled the Authority and the entire SACCO subsector to achieve the great milestones reported herein. The Authority also wishes to sincerely thank the Board of Directors of the Authority for their cooperation, provision of resources, and general policy guidance and oversight provided to the management in the execution of the Authority's mandate.

Special appreciation also goes to the management and staff of the Authority who have been instrumental in implementing the legal and regulatory framework thereby resulting in these great achievements for the SACCO industry. The unwavering support and cooperation received during the year 2021 from the leadership of the regulated SACCOs, as well as the entire co-operative movement also deserves a mention, even as the Authority looks forward to a fruitful year 2022.

Peter Njuguna
Chief Executive Officer

CHAPTER I

THE GLOBAL PERSPECTIVES OF COOPERATIVES

1.0. THE CO-OPERATIVE MODEL

1.1. THE STATEMENT ON THE CO-OPERATIVE IDENTITY

The Co-operative Identity is comprised of the universal definition of Co-operatives; the seven (7) operational International Co-operative Principles; and the ten (10) Co-operative values and ethical beliefs. These three (3) cornerstones of the Co-operative identity serve to distinguish co-operative enterprises from non-cooperative enterprises such as Companies. They were developed and adopted by the International Co-operative Alliance (ICA) which is the world-wide apex body representing the co-operative movement. The ICA was established in 1895 as an international non-governmental organization. The ICA is therefore the guardian of the statement on the Co-operative Identity and also provides the global voice and forum for knowledge, expertise and coordinated action for and about co-operative enterprises.

1.2. THE CO-OPERATIVE DEFINITION

The ICA defines a co-operative enterprise as an autonomous association of persons united voluntarily to meet their common economic, social, and cultural needs and aspirations through a jointly owned and democratically controlled enterprise. The Co-operative definition is therefore universally acknowledged and form the hallmarks of their unique identities, and which distinguishes them from other conventional business enterprises. Unlike other corporate legal entities or other unincorporated bodies, Co-operatives are not for profit but for service; they are people-centered enterprises owned and run by, and for their members to realize their common dreams. They bring people together in a democratic and equal way, managed by the '*one-member, one-vote rule*', which is another key distinguishing trait that separates Co-operatives from other corporate legal entities.

1.3. THE INTERNATIONAL CO-OPERATIVE PRINCIPLES

The co-operative principles are guidelines by which cooperatives put their values and ethical beliefs into practice. There are seven (7) international Co-operative Principles which were set by the International Co-operative Alliance namely, voluntary and open membership; democratic member control; economic participation by members; autonomy and independence; education, training and information; co-operation among co-operatives, and concern for the community in general. These principles have been incorporated in *Section 4 of the Co-operative Societies Act* which is the registration and incorporation legal provision for all cooperative societies in Kenya. It reads inter alia that, a Co-operative society "*which has incorporated in its by-laws the following co-operative principles; (i) voluntary and open membership; (ii) democratic member control; (iii) economic participation by members; (iv) autonomy and independence; (v) education, training and information; (vi) co-*

operation among co-operatives, and; (vii) concern for the community in general, may be registered by the Commissioner as a co-operative society"

Consequently, all co-operative societies, including SACCOs may be registered and incorporated under the Co-operative Societies Act only upon the confirmation that these seven (7) principles have been enshrined in their respective governing By-laws. In 2016, the International Co-operative Alliance released the Guidance Notes on the Co-operative Principles, giving detailed guidance and advice on the practical application of the principles to cooperative enterprises aimed at understanding of the application of the principles in contemporary terms for the 21st century. The International Co-operative Alliance Guidance Note may be obtained from the Authority's website www.sasra.go.ke.

1.4. THE CO-OPERATIVE ETHICAL BELIEFS AND CORE VALUES

Other than the International Co-operative Principles, the Co-operative identity is also defined by the Co-operative ethical beliefs and core values. The Co-operatives core values include self-help, self-responsibility, self-reliance, democracy, equality, equity, and solidarity; while the ethical beliefs include honesty, openness, social responsibility and caring for others as summarized in **Figure 1** and **Figure 2**.

Figure 1: Co-operative Core Values

Source: International Cooperative Alliance (ICA)

Figure 2: Co-operative Ethical Belief

Source: International Cooperative Alliance (ICA)

Savings and Credit Co-operative Societies accronymed as SACCOs are a typology of Co-operatives in Kenya whose key object and purpose is the mobilization of savings from members and advancement of credit or other loan facilities to the said members, mostly on the security of the savings and guarantors. Thus, as Co-operatives, SACCOs are bound by the universality of the Co-operative Identity comprising the international definition, principles, values and ethical beliefs.

2.0. THE ORGANIZATION OF THE CO-OPERATIVE SECTOR IN KENYA

2.1. INTRODUCTION

The co-operative sector in Kenya is clustered in three (3) key models namely their structural organization; their general business purposes; and their legal and regulatory frameworks. These models lead to the micro-typology of co-operative enterprises that operate in the country. The clustering of the various types of co-operative Societies is important as it eases and simplifies the identification of challenges affecting each cluster. This in turn informs the development of appropriate policy and legal interventions since each of the clusters has similarities in the unique identifying factor particularly regarding their governance or the nature of business activities they are engaged in or undertake.

2.2. STRUCTURAL (VERTICAL) ORGANIZATION OF CO-OPERATIVES

Traditionally, the vertical organization of Co-operatives in Kenya, as it is elsewhere in the world, is premised on the principle of co-operation among co-operative enterprises and is uniquely defined with the symbiotic relationship amongst each co-operative enterprise at every level or point of the vertex. The main distinctions that define the co-operatives at these levels is qualification for membership and service provision to such membership. The co-operative enterprises players under the vertical organization are the Primary; the Secondary; the Tertiary and the Apex Cooperative enterprises. This vertical organization has been embedded in the definitions and incorporation requirements of the Co-operative Societies Act. Table 1 provides a summary of the structural clustering of Co-operative in Kenya together with their unique characteristics.

Table 1: Structural (vertical) organization of Co-operatives in Kenya

PRIMARY CO-OPERATIVES	Their membership is restricted to individual persons, and they serve the individual members. They are defined in *Section 2 and 5 of the CSA*. Both DT-SACCOs and Specified Non-DT-SACCOs are principally primary cooperatives. Section 16 of the CSA however allows corporate and unincorporated entities to join membership of Primary Cooperatives, subject to resolution of the general meeting.
SECONDARY CO-OPERATIVES	The membership is restricted to two or more primary Co-operatives. They are supposed to strictly serve their affiliate primary Co-operatives only and should not serve individual person membership. They are also called Co-operative Unions and defined in *Section 2 and 5 of the CSA*.
TERTIARY CO-OPERATIVE	The membership may comprise both primary and secondary Co-operatives, and not individual persons. They serve those affiliate members and not individual persons.
THE APEX CO-OPERATIVE	It is the national co-operative society formed at the national level by the Co-operative movement to promote co-operative development and represents the interests of co-operative societies locally and internationally. Currently, the Apex Co-operative Society in Kenya is the Co-operative Alliance of Kenya (CAK)

SACCOs supervised and regulated pursuant to the provisions of the *Sacco Societies Act* and the Regulations made thereunder are generally the Primary Co-operatives. A majority of their membership is composed of individual persons and their principal object is to provide financial

services to these individual members, but some of these regulated SACCOs have invoked Section 16 of the CSA to have corporate and unincorporated entities. It is however important to underscore the fact that there is no legal impediment for a secondary or tertiary cooperative to resolve to undertake Sacco business within the meaning of the *Sacco Societies Act* and the Regulations made thereunder, in which case such a secondary or tertiary cooperative would have to comply with the Act and the Regulations made thereunder to be licensed and regulated by the Authority.

2.3. FINANCIAL INTERMEDIATION ORGANIZATION OF CO-OPERATIVES

The Kenyan Cooperative sector, as it is elsewhere in the world is equally organized into Financial Cooperatives on the one hand, and the Non-Financial Co-operatives on the other hand. As already indicated hereinabove, co-operative enterprises are generally incorporated for very specific purposes and objectives, which may include financial intermediation or non-financial intermediation. Cooperative enterprises which are incorporated with the object and purpose of mobilization of savings and deposits from their members with a view to intermediate the same on behalf of the member in one way or the other are the Financial Cooperatives. Such intermediation may include investments, saving solutions, provision of credit among other financial services solutions. The most visible types of Financial Co-operatives are the SACCOs, Housing Cooperatives and the Investment Cooperatives.

On the other hand, cooperative enterprises which do not engage in financial intermediation on behalf of their members are the Non-Financial Co-operatives and mobilizations of deposits or funds is not their main objective or purposes. Instead, the Non-Financial Co-operatives engage in activities geared towards addressing members economic and social interest such are marketing, transport, production, consumption among others. **Table 2** below provides a summary of the characteristics of the two (2) clusters with examples for each cluster. The most common types of Non-Financial Cooperatives are the Transport Cooperatives; Consumer Cooperatives; Marketing Cooperatives etc.

Table 2: Financial Intermediation organization of Co-operatives

FINANCIAL COOPERATIVES	NON–FINANCIAL COOPERATIVES
These are the cooperatives which are registered with the objectives of financial intermediation on behalf of their members in one way or the other. The membership may be individuals; or primary, secondary or tertiary cooperative societies	These are cooperatives registered with the key objectives of furthering the socio-economic interest of their members, without the cooperative intermediating financial services between the counterparties as a financial institution. The membership may be individuals; or primary, secondary or tertiary cooperative societies
EXAMPLES	**EXAMPLES**
DT-SACCOs Non-WDT-SACCOs Land/Housing Cooperatives Investment Cooperatives.	*Production/Marketing Cooperatives* *Consumer Cooperatives* *Transport Cooperatives,* *Multi-purpose Cooperatives*

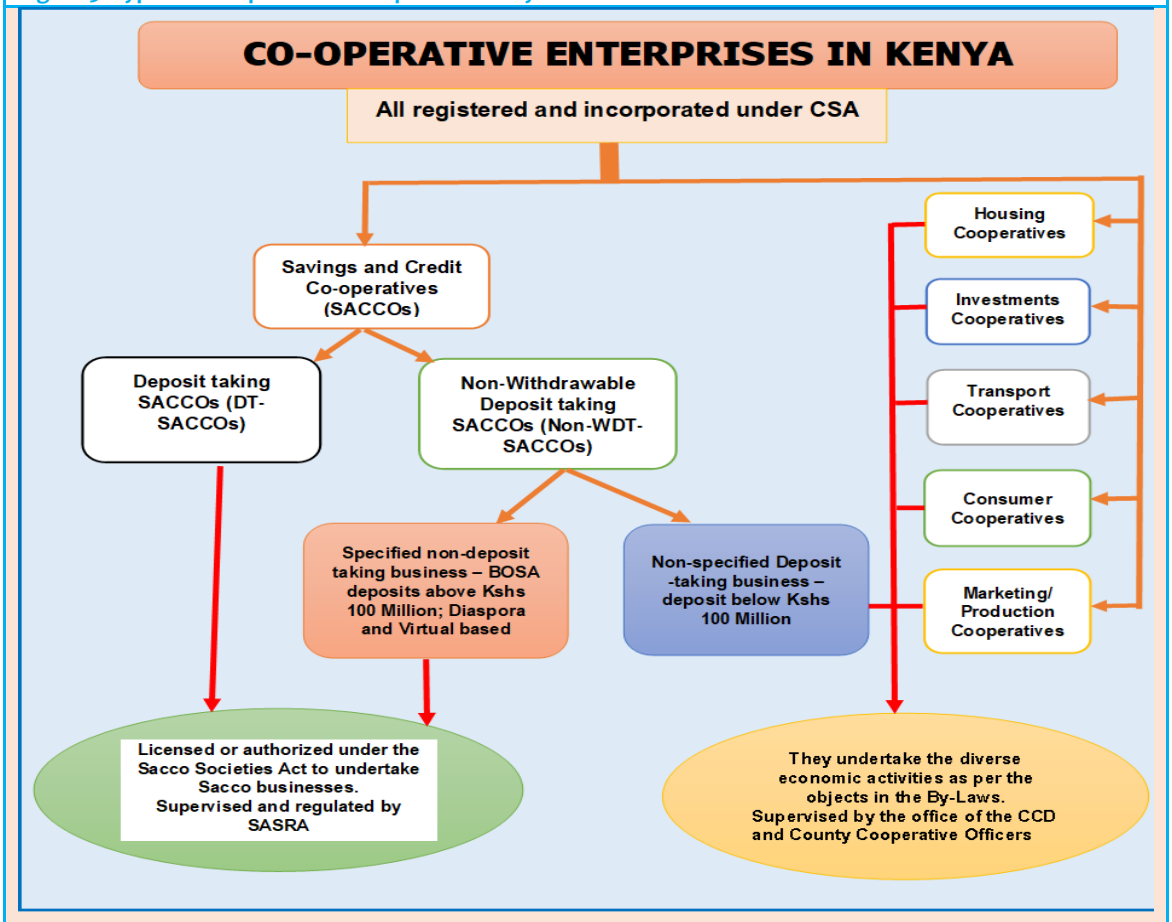

2.4. LEGAL AND REGULATORY FRAMEWORK ORGANIZATION OF COOPERATIVES

This clustering is principally informed by the applicable legal framework that governs the supervision of the co-operative enterprises. There are two legal and regulatory frameworks governing cooperative enterprises in Kenya, namely the *Cooperative Societies Act* and the *Sacco Societies Act*. Apart from DT-SACCOs, and the specified Non-WDT-SACCOs which are subject to the dual regulatory framework of both the *Cooperative Societies Act* and the *Sacco Societies Act*; all other co-operatives are subject only to the supervisory regime of the *Co-operative Societies Act*. The key difference between the two legal regimes is that the *Sacco Societies Act* is a specialized legislation dealing mainly with prudential regulation of the SACCOs, and addresses issues concerning the financial soundness, stability, and safety of the SACCOs; as well as market conduct of business issues to protect consumers of SACCO financial services. The *Sacco Societies Act* is thus designed as a business regulation statute, concerned with the risks inherent or associated with SACCO business as defined therein. On the other hand, the *Co-operative Societies Act* is a general registration, incorporation and supervisory statute applicable to governance and general operations of all co-operative enterprises. It does not acknowledge or address the unique businesses that co-operative enterprises may engage in or the risks that those businesses may portend to consumers. Its main concern is the incorporation of a co-operative enterprise as a legal entity.

2.5. TYPES OF CO-OPERATIVES IN KENYA

The *Cooperative Societies Act* as the registration and incorporation statute for co-operatives (in its many forms since independence) does not enumerate the types of co-operatives which may be formed or incorporated under it. Therefore, the types and forms of co-operatives that have evolved over time, have been a matter which has been left for determination by the original members of the proposed co-operative through the "*objects and purposes*" for which each is incorporated or formed to undertake. Consequently, several types of Co-operatives have emerged in Kenya over the years as a matter of practice with the most visible being the savings and credit co-operative societies (SACCOs); the housing or investment co-operatives; the consumer co-operatives; the marketing and production co-operatives; and the transport co-operatives (*popularly but erroneously referred to as PSV or Matatu SACCOs*). **Figure 3** provides an illustration of the types of the co-operative societies in Kenya, together with the legal and regulatory frameworks for their regulations and supervision.

Figure 3: Types of co-operative enterprises in Kenya

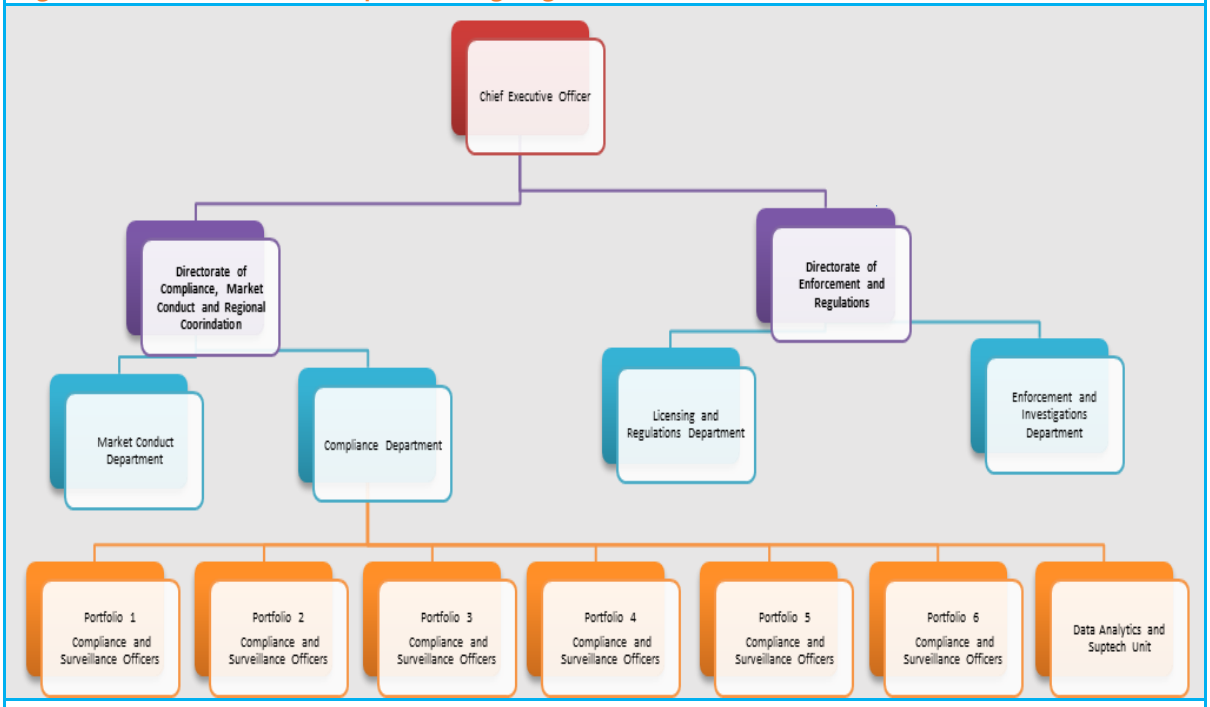

Source: SASRA Database

2.6. ORGANIZATION OF THE AUTHORITY'S SUPERVISION MANDATE

The Sacco Societies Regulatory Authority (SASRA) was established as the government's principal agency for supervision and regulation of SACCO Societies in Kenya pursuant to the provisions of the *Sacco Societies Act No. 14 of 2008*. The Authority is therefore charged with the responsibility of overseeing the implementation of the provisions of the *Sacco Societies Act* and the Regulations made thereunder, with the main functions being the licensing of SACCO Societies to undertake deposit taking SACCO business, and the regulation and supervision of all SACCO Societies in Kenya.

The two main regulations which have been made pursuant to the Act and which the Authority implements are the *Sacco Societies (Deposit-Taking business) Regulations, 2010* which applies to the licensing regulation and supervision of DT-SACCOs; and the *Sacco Societies (Non-Deposit Taking Business) Regulations 2020* which applies to the authorization, regulation, and supervision of NWDT-SACCOs. In addition, the Authority is responsible for overseeing the compliance of regulated SACCO Societies with the provisions of the *Proceeds of Crimes and Anti-Money Laundering Act, 2009 (POCAMLA)* pursuant to the provisions of *Section 36A* thereof as read with the *First Schedule* thereto which lists the Authority as one of the supervisory bodies for purposes of the POCAMLA. In order to the achieve its supervisory mandate the Authority has organised the execution of its legal mandate as summarised in **Figure 4**.

3.0. THE KENYA FINANCIAL SECTOR AND SACCO SOCIETIES

3.1. OVERVIEW OF THE FINANCIAL SECTOR

The Kenya's financial sector consists of the Deposit-taking institutions, the non-deposit-taking institutions, the financial market infrastructure, the informal financial service providers and the financial sector regulatory agencies and bodies. Table 3 provides an overview of the financial sector players in Kenya, with the SACCO subsector being represented at the deposit-taking institutions by the DT-SACCOs and the NWDT-SACCOs, and at the Financial Regulators level by the Authority.

Table 3: Overview of Kenya's Financial Sector

Deposit-taking institutions	Non-Deposit taking institutions	Financial market Infrastructure Providers	Informal providers	Financial Regulators
Deposit-taking institutions consist of Commercial Banks, Mortgage Finance Company, Microfinance Banks and DT-SACCOs; Regulated Non-Withdrawable Deposit Taking SACCOs	Non-deposit taking institutions consists of insurance, pensions, capital markets, Development Finance Institutions, and Digital Credit Providers.	Financial Market Infrastructure providers facilitate the clearing, settlement, and recording of monetary and other financial transactions.	Informal finance providers offer financial services through different forms but are not subject to regulation. They have a relatively well-defined organizational structure and include rotational savings groups Financial Cooperatives including SACCOs not undertaking specified non-deposit taking Sacco business etc.	The financial sector is regulated by the Central Bank of Kenya; the Sacco Societies Regulatory Authority (SASRA); Retirement Benefits Authority (RBA); Insurance Regulatory Authority (IRA); Capital Market Authority (CMA) & other Government Ministries.

The deposit-taking financial institutions segment consists of the Commercial Banks, the Mortgage Refinance Companies, and the Microfinance Banks which are all regulated by the CBK; and the deposit-taking SACCOs (DT-SACCOs) and the Regulated NWDT-SACCOs which are regulated by the Authority. The other key non-deposit taking financial institutions include the Digital Credit Providers; Insurance; the Pensions; and the Capital Markets sectors which are supervised and regulated by the Central Bank of Kenya; the Insurance Regulatory Authority (IRA), the Retirement Benefits Authority (RBA) and the Capital Markets Authority (CMA) respectively. The financial sector is supported by a robust financial markets infrastructure that facilitates payments, settlement and custodial services and it is highly interconnected, diversified and segmented with increased cross border operations.

3.2. THE PERFORMANCE OF THE SACCO SUBSECTOR WITHIN THE FINANCIAL SECTOR

As discussed herein above, the deposit taking institutions in the country is composed of the Commercial banks, the Microfinance banks, the DT-SACCOs and the regulated NWDT-SACCOs. These entities are prudentially regulated to mobilise savings and deposits and to mediate the same as credit. Consequently, an analysis of the performance of SACCOs against their counterparts in the commercial and microfinance banking sector is always apt for growth comparison as well as contribution to financial inclusion and deepening. Table 4 shows the trend performance in some key parameters of the DT-SACCOs, NWDT-SACCOs in comparison to the commercial and microfinance banking financial institutions.

In terms of the NPLs, SACCOs have consistently been able to register lower ratios than their counterparts and the year 2021 was not different. The DT-SACCOs recorded an NPL ratio of 8.86% while the NWDT-SACCOs recorded an NPL ratio of 9.78%, compared to the NPL ratio recorded by commercial banks and Microfinance banks of 14.13% and 25.58% respectively. While the number of branches for commercial banks and Microfinance banks recorded marginal declines, the SACCOs recorded an increase in their branches with DT-SACCOs branches increasing from 537 branches in 2020 to 559 branches recorded in 2021. SACCOs should borrow a leaf from their banking counterparts and manage investments in physical branch networks which are capital intensive, and instead adopt the usage of ICT in provision of services and reaching of their members.

Table 4: Selected comparative performance parameters of SACCOs in comparison to banking institutions

PARAMETERS	DT-SACCOs			NWDT-SACCOs		COMMERCIAL BANKS			MICROFINANCE BANKS		
	2019	2020	2021	2020	2021	2019	2020	2021	2019	2020	2021

Source: Data in respect of Commercial Banks and Microfinance Banks from the Bank Supervision Annual Report, 2021.

In terms of the SACCO subsector's contribution to the national Gross Domestic Product (GDP), Table 5 shows that the DT-SACCOs assets accounted for 5.71% of the national GDP while the NWDT-SACCOs assets accounted for 0.96% of the national GDP. The cumulative contribution of the regulated SACCOs total assets to the national GDP for the period ended December 2021 was thus 6.67%. In comparison to the period ended December 2020 however, it is observable that there was a decline in the proportion of the DT-SACCOs and NWDT-SACCOs total assets to the national GDP which was then recorded at 5.86% and 0.99% respectively with a cumulative subsector's contribution of 6.85%. Consequently, it can be stated that the SACCO subsector grew at a slower pace than the country's national GDP during the year, which is evidenced by the slower growth rates recorded in 2021 compared to the period ended December 2020 discussed in Chapter II of this report.

Table 5: Share of Financial Sector Total Assets to national GDP

YEAR	2018		2019		2020		2021

3.3. THE SACCO SUBSECTOR AND THE FINANCIAL SECTOR INTEREST RATES

The greatest comparative advantage that the Kenyan SACCO lending model have over other financial institutions, is the fact that a substantial proportion of their lending is usually based on the collateral of non-withdrawable savings of the members. These non-withdrawable savings are legally not available to the member for withdrawal, except when the member is exiting the SACCO Society's membership. Even though the non-withdrawable savings are usually collaterized as security for loans granted, these deposits usually attract interest whenever a SACCO declares surpluses and is used as the basis of prorated distribution of the surpluses in accordance with the Cooperative principles. Figure 5 provides a comparison of the interests and dividends paid by the SACCO subsector against those paid by the banking institutions.

Figure 5: Comparative Interest rates in the SACCO subsector and the banking sector

Source: SASRA Database. The data on the Commercial banking system are obtained from the CBK database.

The analysis shows that indeed SACCOs shall continue to have a competitive edge in the returns earned by the members with the average rate of interests paid by DT-SACCOs on members' deposits increasing from 6.01% in 2020 to 6.88% in 2021; while the NWDT-SACCOs paid an average interest rate of 6.83% in 2021 compared to an interest rate on the deposits of 5.63% in 2020. These rates by far exceeded the interest rates paid by banks over the same period which stood at 4.02%. Besides interests on deposits, members of SACCOs also earned returns on their shares in the form of dividends which was paid at a high of 9.44% by DT-SACCOs in 2021 compared to a rate of 8.26% paid in 2020. The NWDT-SACCOs on the other hand paid dividends at the rate of 10.55% in 2021 compared to a dividend rate of 8.16% paid in 2020.

Despite giving their membership comparatively good returns, it is important to emphasis the fact that returns to members is dependent of the individual performance of each SACCO, and whether any surplus was declared or not, and

Appendix III and **Appendix IV** shows the net incomes of DT-SACCOs and NWDT-SACCOs respectively during the period ended December 2021.

CHAPTER II

THE PERFORMANCE AND OPERATIONS OF SACCO SOCIETIES IN 2021

4.0. LICENSING, AUTHORIZATION, AND MEMBERSHIP OF SACCOs

4.1. GENERAL OVERVIEW

The *Sacco Societies Act* applies to DT-SACCOs vide the *Regulations 2010* and to the NWDT-SACCOs vide the *Regulations 2020*. By virtue of the *Regulations 2010*, the Authority licenses SACCOs to undertake deposit-taking SACCO business, while the *Regulations 2020* mandates the Authority to authorizes the NWDT-SACCOs to undertake the specified non-deposit taking business in accordance with the *Sacco Societies Act*. Licensing and authorization processes are very critical components of the Authority's supervision and regulatory activities, as they determine the entry points of SACCOs into the supervisory sphere of the *Sacco Societies Act* and Regulations made thereunder. They also mark the point of exit of SACCOs from the supervisory oversight of the Authority upon revocation of the license or authorization in case a SACCO fails to maintain the stipulated minimum prudential standards.

4.2. LICENSING STATUS

There were 175-DT-SACCOs which were licensed to undertake deposit-taking business for the period ended December 2021. However, four (4) DT-SACCOs failed to maintain the minimum standards required for a SACCO to undertake deposit-taking business and consequently, their respective licenses were withdrawn and/or not renewed in the year 2021, leaving a total of 171-DT-SACCOs with valid licenses. **Table 6** shows the SACCOs whose deposit taking licenses were withdrawn and/or not renewed in the year 2021.

Table 6: List of SACCOs with licenses to undertake deposit-taking business withdrawn and/or withdrawn in 2021

	Name of the SACCO	Postal Address	County Location
1.	Nyamira Tea SACCO Society Ltd	P.O Box 633 – 40500, Nyamira	Nyamira
2.	Uchongaji SACCO Society Ltd	P.O Box 92503–80102, Mombasa	Mombasa
3.	Nanyuki Equator SACCO Society Ltd	P.O Box 1098, Nanyuki	Laikipia
4.	Comoco SACCO Society Ltd	P.O. Box 30135-00100, Nairobi	Nairobi

Source: SASRA Database

At the same time, the Authority issued new deposit-taking licenses to five (5) SACCOs in the year 2021 thereby bringing the total number of DT-SACCOs operating in the country to 176-DT-SACCOs. In accordance with the provisions of *Section 25 of the Sacco Societies Act* as read with *Reg. 5(1) of the Regulations, 2010* the Authority renewed the deposit-taking licenses of all the DT-SACCOs which were in operation in 2021 except the four (4) SACCOs listed in **Table 6** above. **Table 7** shows the five (5) SACCOs which were issued with deposit-taking licenses in the year 2021 while **Appendix IV** of the report provides a full list and directory of all the 176-DT-SACCOs with valid licenses to operate in Kenya during the year commencing January 2022 to December 2022.

Table 7: List of SACCOs newly licensed to undertake deposit-taking business in 2021				
	Name of the SACCO	Postal Address	County Location	Physical Location of Business
1.	Kabiyet SACCO Society Ltd	P.O Box 195 – 30303, Kabiyet	Nandi	Kabiyet Market Centre, Kabiyet

Source: SASRA Database				

4.3. AUTHORIZATION STATUS

As already observed hereinabove, authorization is the process by which SACCOs undertaking the specified non-deposit taking business as defined in the *Regulations 2020* are onboarded onto the supervisory and regulatory oversight of the *Sacco Societies Act*. The *Regulations 2020* designates three (3) types of specified non-deposit taking business for purposes of the Act as including –

(a) non-deposit taking business in which the total non-withdrawable deposits from members is equal to or exceeds the sum of one hundred million shillings;
(b) non-deposit taking business in which the SACCOs mobilizes membership and subscription to its share capital through digital or other electronic payment platforms (popularly known as virtual SACCOs); or
(c) non-deposit taking business in which the SACCOs mobilizes membership and subscription to its share capital from persons who are ordinarily resident outside the country (popularly known as diaspora SACCOs).

The *Regulations, 2020* took effect from 1st January 2021 and SACCOs previously carrying out the specified non-deposit taking businesses had a six (6) months period to make an application to the Authority for authorization. The authorization certificate issued by the Authority is technically valid, unless otherwise revoked as provided in *Reg. 9(1) of the Regulations 2020*; and upon authorization the SACCO adopts the name Regulated NWDT-SACCOs as part of their names to distinguish them from other NWDT-SACCOs. During the transition period ended 30th June, 2021, and at the close of the year 2021, the Authority issued Authorization Certificates to 185-NWDT-SACCOs out of 199 applications which were received. In addition, the Authority renewed all the 185-Authorization Certificates to operate for the ensuing year 2022 in accordance with the requirements of *Reg. 9(2) of the Regulations 2020*.

4.4. MEMBERSHIP IN THE SACCO SUBSECTOR

SACCOs are first and foremost registered and incorporated as co-operative enterprises pursuant to the provisions of the *Cooperative Societies Act*. As Cooperatives, SACCOs are essentially member-based institutions which operate on the model of member-owned, member-managed and member-customer (user) co-operative trichotomy. The law therefore prohibits SACCOs from dealing or undertaking SACCO business with non-members. Membership in Cooperatives including SACCOs is attained through subscription to the minimum shareholding of the SACCO as prescribed in the By-Laws, and such membership may be composed of both natural person membership, as well as legal person membership (corporate or

unincorporated entities which may be admitted in accordance with the provisions of *Section 16 of the Co-operative Societies Act*). It is for this reason that a lot of supervision and regulatory premium is normally placed on the membership of SACCOs and underscore the place of SACCOs as the principal providers of financial services to household economies.

During the year ended December 2021 there were a total of 5.99 million members in the SACCO subsector comprised of 5.54 million members from the 176-DT-SACCOs and 460,785 members from the 185-NWDT-SACCOs as tabulated in **Table 8**. However, a total of 1.18 million members were reported to be dormant among the total membership, implying that these members had not conducted any transactions with their SACCOs for a period exceeding six (6) months to the close of the financial period ended December 2021. The majority of the dormant members were drawn from the DT-SACCOs which had over 1.07 million members being classified as dormant which is a decline from 1.37 million members who were classified as dormant for the period ended December 2020. Unlike the DT-SACCOs segment in respect of which the dormant members declined substantially, the dormant members reported by NWDT-SACCOs substantially increased from 75,272 members reported in 2020 to 114,930 members reported in 2021. It is however observable that despite the NWDT-SACCOs being the majority in number and accounting for over 51.25% of all the SACCOs in the subsector, their proportionate membership accounted for a paltry 7.68% of the sub-sector's total membership while the DT-SACCOs which accounted for 48.75% of all the SACCOs had a combined proportionate membership of 92.32% of the total membership in the subsector. Consequently, it can be concluded that the average membership in NWDT-SACCOs is quite low compared to the average membership in DT-SACCOs. SACCOs being member-based socio-economic enterprises which thrives better on economies of scale, such low average membership in individual SACCOs brings to fore the question of their sustainability particularly in view of stiff competition within the financial sector space from other financial service providers.

Table 8: Total membership in the SACCO subsector (DT-SACCOs and NWDT-SACCOs)

SACCO CLUSTER	TOTAL NO. OF SACCOs REPORTING	CLUSTER	2019	Y-TO-Y CHANGE (2019/20)	2020	2021	Y-TO-Y CHANGE (2020/21)
DT-SACCOs	176	Active	3,774,844	8.56%	4,097,917	4,471,756	9.12%
		Dormant	764,472	79.55%	1,372,575	1,067,033	-22.26%
		Sub-Total	**4,539,316**	**20.51%**	**5,470,492**	**5,538,789**	**1.25%**
NWDT-SACCOs	185	Active	-		277,409	345,855	24.67%
		Dormant			75,272	114,930	52.69%
		Sub-Total	**-**		**352,681**	**460,785**	**30.65%**

4.5. DISTRIBUTION OF MEMBERSHIP BY FIELD OF MEMBERSHIP CLUSTERS

Co-operatives are traditionally formed and founded along certain forms of unique common bond linkages, which then becomes their field of membership. SACCOs as co-operative enterprises have thus been formed or founded along these unique common bond characteristics such as occupations, profession, industry, geographical area of operations among others field of membership. These diverse ranges of fields of membership or common bond characteristics can be classified into four (4) main clusters, with some of the main clusters having sub-clusters. Table 9 provides a summary of the clusters and subclusters of the fields of membership of SACCOs in Kenya.

Table 9: Summary of Field of Membership (common bond) clusters of SACCOs in Kenya

	Main Cluster	Key Characteristic	Sub-Cluster		Main Field of Membership
1.	**Government Based SACCOs**	The original membership drawn from Government ministries and departments, State Corporations, Public Universities etc. Some have however opened their field of membership.	(a)	Teachers – Basic & Tertiary Education	The teaching profession
			(b)	State Corporations	Employees of state corporations and agencies
			(c)	Universities	Employees of public universities
			(d)	County Government	Employees of County Governments & County institutions
			(e)	General Services & Administration	Employees of the government from Ministries and state departments
2.	**Agriculture Based SACCOs**	These SACCOs were founded upon the foundations of certain agricultural activities of the would-be members.	(a)	Crop Production	Farmers focussed on crop production mainly tea, coffee and sugarcane
			(b)	Dairy Production	Farmers focussed on dairy production and farming
3.	**Private Sector Based SACCOs**	The original memberships were principally drawn from privately owned companies, institutions or entities. The common-bond would then be that the members are employed by one private entity or group of similar private entities			
4.	**Community Based SACCOs**	The original memberships were defined on the basis of some social association or membership of the potential members within the community such as churches, non-governmental organizations and similar community initiative groupings			

Source: SASRA Database

Table 10 provides the distribution of the total membership among the 361 SACCOs based on the field of membership clustering and shows that the majority of members of SACCOs are domiciled within the 49-Agriculture-based SACCOs which accounted for a total 46.79% of the total membership. In this regard, it is also important to point out that all the 49-Agriculture-based SACCOs fell within the DT-SACCOs segment with none being a NWDT-SACCO. In addition, it is observable that among the 49-Agriculture-based SACCOs, seven (7) of them are in the dairy production subsector with a proportion of 4.80% of the total membership while the remaining 42 are in the crop production sector with a proportion of 41.99% of the total membership. The Government-based SACCOs which is composed of 82-DT-SACCOs and 35-NWDT-SACCOs accounted for the second highest cluster of total membership with a proportion of 35.39%. It is also important to observe that the Government based SACCOs is further composed of 10-County Government based SACCOs with a proportionate membership of 1.64%; 26-State Corporations-based SACCOs with a proportionate membership of 3.40%; the 40-Teachers-based SACCOs with a proportionate membership of 22.61%; the 31-General Government Services based SACCOs with a proportionate membership of 7.36%; and the 10-Universities-based SACCOs with a proportionate membership of 0.37% of the total membership.

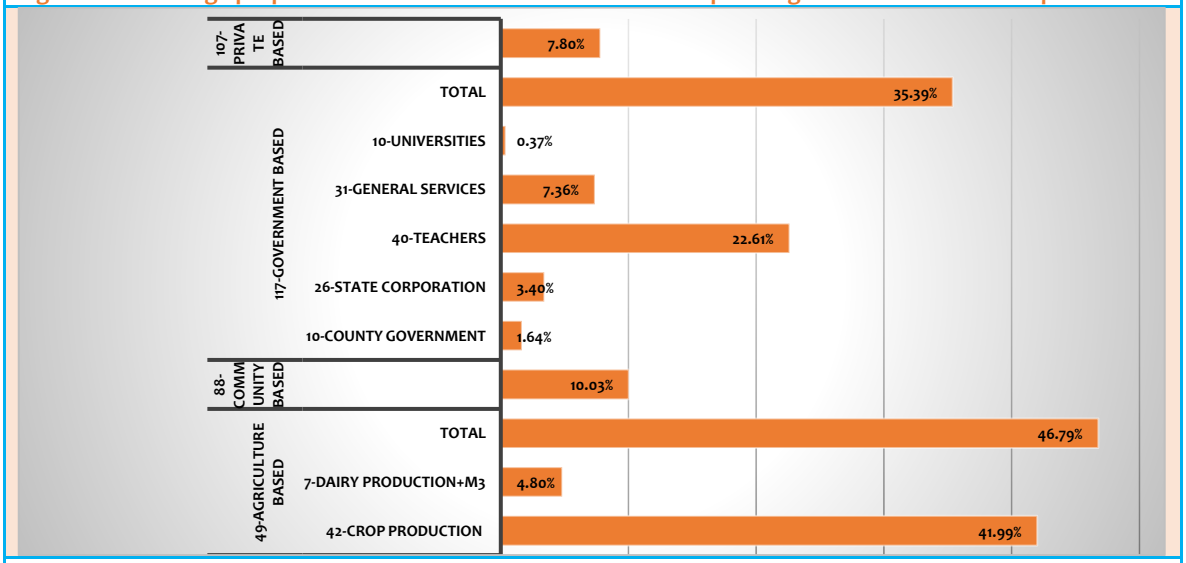

Table 10: Distribution of total membership among the Field of Membership clusters of SACCOs in Kenya

Field Of Membership of SACCOs	Sector/Industry	DT-SACCOs		NWDT-SACCOs		Total No. SACCOs	Total SACCOs Membership	% To Total Membership
		No. of SACCOs	No. of Members	No. of SACCOs	No. of Members			
Agriculture Based - SACCOs	Crop Production	42	2,325,717	-	-	42	2,325,717	41.99%
	Dairy Production	7	265,627	-	-	7	265,627	4.80%
	Total	**49**	**2,591,344**	**-**	**-**	**49**	**2,591,344**	**46.79%**
Community Based - SACCOs	-	25	555,299	63	296,988	88	852,287	10.03%
Government Based - SACCOs	County Government	7	91,005	3	3,644	10	94,649	1.64%
	State Corporation	9	188,295	17	19,232	26	207,527	3.40%
	Teachers	40	1,252,376	-	-	40	1,252,376	22.61%
	General Services	20	407,626	11	24,595	31	432,221	7.36%
	Universities	6	20,754	4	1,590	10	22,344	0.37%
	Total	**82**	**1,960,056**	**35**	**49,061**	**117**	**2,009,117**	**35.39%**
Private Based - SACCOs	-	**20**	**432,090**	**87**	**114,736**	**107**	**546,826**	**7.80%**
Total		**176**	**5,538,789**	**185**	**460,785**		**5,999,574**	

Source: SASRA Database

As further summarized in Figure 6, the 88-Community-based SACCOs comprised of 25-DT-SACCOs and 63-NWDT-SACCOs had a proportion of 10.03% of the entire membership; while the 107-Private sector based SACCOs, despite being the second highest in number had the fewest number of memberships at 7.80% of all the members. Unlike the Community-based SACCOs which largely have open field of membership, the majority of Private sector based SACCOs have closed fields of membership (bond) mainly derived from the private company or entity in respect of which they draw their membership. This largely explains the low proportion of their membership, despite their individual numbers being the second highest, only after the Government-based SACCOs.

Figure 6: Percentage proportionate distribution of total membership among the field of membership.

5.0. THE FINANCIAL PERFORMANCE OF SACCO SOCIETIES

5.1. GENERAL OVERVIEW OF THE GROWTH AND PERFORMANCE

Growth in the total assets, deposits and gross loans are some of the metrics for measuring the performance of financial institutions engaged mobilization of deposits and issuance of credit facilities, such as SACCOs. **Table 11** and **Figure 7** provides a summary of the comparative trends in the performance of the SACCOs during the period ended December 2021 and shows that the SACCOs total assets increased from Kshs 734.22 billion in 2020 to reach Kshs 807.11 billion in 2021 representing a cumulative average growth of 9.93% which can be directly attributed to the increase in loans and credit facilities issued SACCOs over the same period. The 176 - DT-SACCOs controlled the largest share of the total assets within the SACCO subsector which stood at Kshs 691.09 billion in 2021 representing 85.25% of the total subsector assets. The 185 – NWDT-SACCOs total assets market share stood at Kshs 116.02 billion representing 14.75% of the total subsector assets.

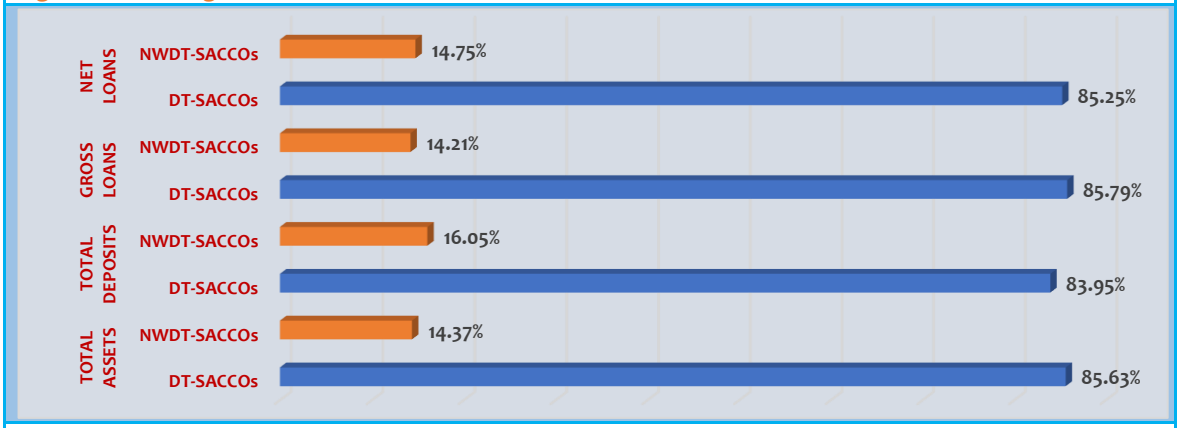

Table 11: Comparative performance and growth in the SACCO subsector (2019 – 2021)

FINANCIALS	CLUSTER OF THE SACCOs	2019	Y-TO-Y CHANGE (2019/20)	2020	Y-TO-Y CHANGE (2020/21)	2021

Source: SASRA Database. *The statistics for NWDT-SACCOs for 2019 are not reported as the SACCOs were not under SASRA by then.

The total deposits held by the SACCO subsector during the year 2021 also increased from Kshs 514.46 billion in 2020 to Kshs 564.89 billion in 2021 representing an average growth rate of 9.80%; while the gross loans increased from Kshs 555.05 billion reported in 2020 to Kshs 608.75 billion recorded in 2021 and representing a 9.67% growth rate. The DT-SACCOs segment controlled the largest proportion of both the deposits and the gross loans advanced in the SACCO subsector during the year 2021 which stood at 83.95% and 85.79% of the subsector's total deposits and gross loans respectively.

Figure 7: Percentage market share of DT-SACCOs and NWDT-SACCOs in 2021

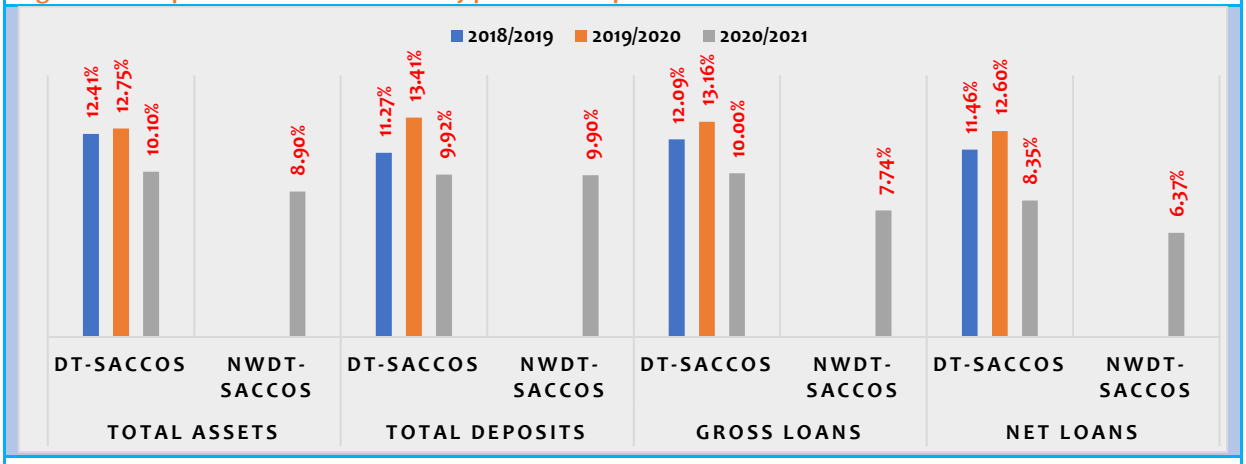

Source: SASRA Database

The net loans and advances within the SACCO subsector on the other hand increased from Kshs 530 billion in 2020 to Kshs 572.68 billion in 2021 and represented 8.05% growth rate. The bulk of the net loans and advances were issued by DT-SACCOs which amounted to Kshs 488.20 billion in 2021 compared to Kshs 84.48 billion which was issued by the NWDT-SACCOs over the same period. Figure 8 shows the comparative growth rates in the key performance parameters and depicts the fact that the DT-SACCOs reported a slower growth rate in all the parameters of performances in 2021 compared to the year 2020.

The total assets for DT-SACCOs grew at 10.08% in 2021 compared to 12.75% recorded in 2020. The total assets for the NWDT-SACCOs in the other hand grew at 8.90% in 2021 and shows that the DT-SACCOs grew at a faster rate than the NWDT-SACCOs. The total deposits for DT-SACCOs on the other hand grew at 9.92% in 2021 which is much lower when compared to a growth rate of 13.41% recorded in 2020. The total deposits for the NWDT-SACCOs on the other hand grew by 9.90% over the same period which is almost the same as the growth rate for the DT-SACCOs.

Figure xx: Comparative Growth Rates in key performance parameters for DT-SACCOs and NWDT-SACCOs

Source: SASRA Database

The gross and net loans for DT-SACCOs on the other hand grew at 10% and 8.35% respectively in 2021, both of which reflected lower growth rates when compared to the growth rates of 13.16% and 12.60% respectively recorded in 2020. The sharp decrease in the growth rate of net loans and advances for DT-SACCOs in 2021 is largely informed by a sharp rise in the allowance for loan

losses which increased by 40.77% to reach Kshs 34.05 billion in 2021 from Kshs 24.19 billion recorded in 2020. Conversely, the gross loans and net advances for the NWDT-SACCOs grew at 7.74% and 6.37% respectively in 2021 which again was much lower than the growth rates for NWDT-SACCOs.

5.2. SACCOs BY TOTAL ASSETS

5.2.1. General Overview

SACCOs have been traditionally segmented into three (3) broad categories based on the size of their asset portfolio to assess and monitor the risks associated with each category. The segmentation includes the SACCOs whose total assets are in excess of Kshs 5 billion; SACCOs whose total assets are between Kshs 1 billion and Kshs 5 billion; and SACCOs whose total assets are below the Kshs 1 billion threshold. Based on the foregoing segmentation Table 12 shows the distribution of the total assets of Kshs 807.11 billion among the 361-SACCOs during the year ended December 2021 and depicts the fact that there were 42 SACCOs with assets above the Kshs 5 billion comprised of 39-DT-SACCOs and three (3) NWDT-SACCOs, and they controlled a proportionate market share of 67.11% of the total assets' portfolio of the SACCO subsector in 2021.

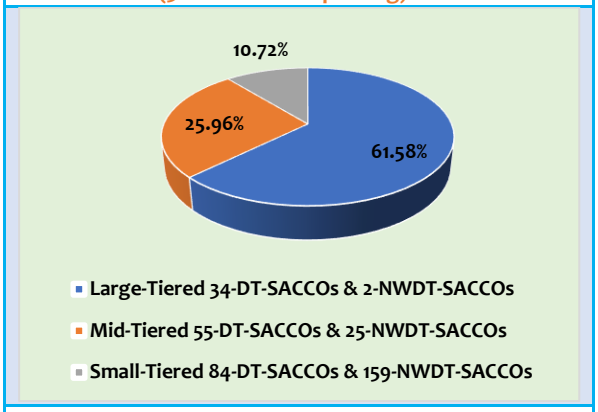

Table 12: Distribution of SACCOs in accordance with the Total Assets

CATEGORY OF SACCOS BY TOTAL ASSETS SIZE	CLUSTER OF SACCOs	NUMBER OF SACCOs			TOTAL ASSETS (KSHS BILLIONS)			PROPORTION TO TOTAL ASSETS	
		2019	2020	2021	2019	2020	2021	2020	2021
Total Assets above Kshs. 5 billion	DT-SACCOs	31	34	39	390.29	452.13	522.57	61.58%	64.75%
	NWDT-SACCOs	-	2	3	-	12.76	19.11	1.74%	2.37%
	TOTALS	**31**	**36**	**42**	**390.29**	**464.89**	**541.68**	**63.32%**	**67.11%**
Total Assets between Kshs. 1 billion above Kshs. 5 billion	DT-SACCOs	58	57	55	135.70	142.86	135.21	19.46%	16.75%
	NWDT-SACCOs	-	24	25	-	47.79	50.20	6.51%	6.22%
	TOTALS	**58**	**81**	**80**	**135.70**	**190.64**	**185.41**	**25.96%**	**22.97%**
Total Assets below Kshs. 1 billion	DT-SACCOs	83	84	82	30.72	32.70	33.32	4.45%	4.13%
	NWDT-SACCOs	-	159	157		46.00	46.70	6.26%	5.79%
	TOTALS	**83**	**243**	**239**	**30.72**	**78.70**	**79.85**	**10.72%**	**9.91%**
	GRAND TOTALS	**172**	**360**	**361**	**556.71**	**734.23**	**807.11**		

Source: SASRA Database

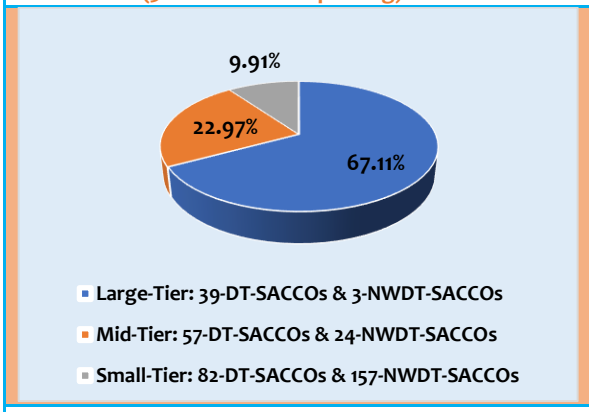

In the mid-tiered segment category of SACCOs with assets of between Kshs 1 billion and Kshs 5 billion, there were a total 80-SACCOs composed of 55-DT-SACCOs and 25-NWDT-SACCOs, and their respective proportionate market share stood at 22.97% in 2021. The small-tiered SACCOs with assets of below Kshs 1 billion constituted the majority of all SACCOs in Kenya totaling 239-SACCOs, made up of 82-DT-SACCOs and 157-NWDT-SACCOs. Their proportionate market share for the period ended December 2021 however stood at a paltry 9.91% of the total assets in the SACCO subsector. Figure 9 and Figure 10 presents the proportionate distribution of the SACCO subsector's total assets among the three (3) tiers and segmentations. In conclusion therefore, the analysis shows that there are very many SACCOs within the SACCO subsector with very small asset portfolios even though they are playing critical roles in the financial inclusion space in the country and thus may not be wished away. In addition, the large-tiered SACCOs seems to grow at faster rates than the mid-tiered and small-tiered SACCOs, resulting into the increase in their market share and the decrease in the market share of the latter segments.

Figure 9 Market share of SACCOs segmented by total assets – 2020 (360-SACCOs Reporting)

Source: SASRA Database

Figure 10: Market share of SACCOs segmented by Total assets -2021 (361 – SACCOs Reporting)

Source: SASRA Database

5.2.2. DT-SACCOs by assets size

With specific reference to the DT-SACCOs segment of the SACCO subsector, the total asset base of the 176-DT-SACCOs for the period ended December 2021 stood at Kshs 691.09 billion as summarized in **Table 13** which provides the distribution of the total assets among the three (3) levels of segmentation of the DT-SACCOs. The analysis shows that there were 39-DT-SACCOs with assets above Kshs 5 billion with a market share of 75.63% of the total subsector's assets for the year ended December 2021. This represented an increase in the market share by the DT-SACCOs within the segment from a market share of 72.03% reported by 34-DT-SACCOs during the year 2020 as more particularly depicted in **Figure 11** and **Figure 12**. The increase in the number of DT-SACCOs in this category was informed by five (5) DT-SACCOs which graduated from the mid-tier level to the large-tier level in 2021 as discussed herein below.

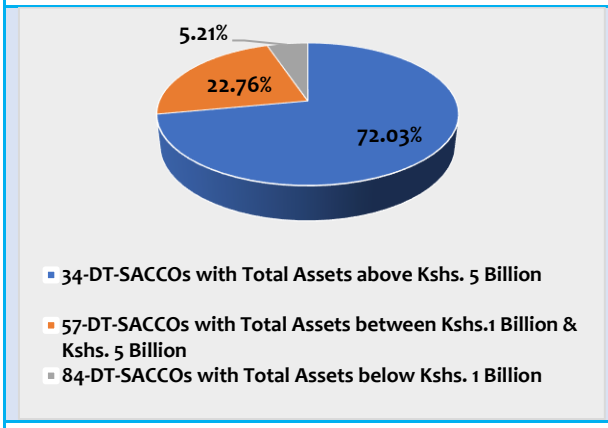

Table 13: Distribution of total assets of DT-SACCOs within the three (3) tier segments (2019 – 2021)

CATEGORY OF DT-SACCOS BY TOTAL ASSETS SIZE	NUMBER OF DT-SACCOs			TOTAL ASSETS (KSHS BILLIONS)			PROPORTION TO TOTAL ASSETS		
	2019	2020	2021	2019	2020	2021	2019	2020	2021
Total Assets above Kshs. 5 billion	31	34	39	390.29	452.13	522.57	70.11%	72.03%	75.61%
Total Assets between Kshs. 1 billion & Kshs. 5 billion	58	57	55	135.70	142.86	135.21	24.38%	22.76%	19.56%
Total Assets below Kshs. 1 billion	83	84	81	30.72	32.70	33.32	5.52%	5.21%	4.82%
Totals	**172**	**175**	**175**	**556.71**	**627.69**	**691.09**			

Source: SASRA Database

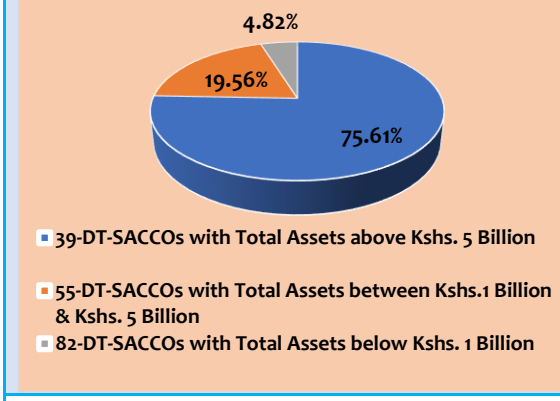

The total number of DT-SACCOs with assets of between Kshs 1 billion and Kshs 5 billion however decreased from 57-DT-SACCOs reported in 2020 to 55-DT-SACCOs in 2021; and their proportionate market share equally shrunk from 22.76% in 2020 to 19.57% in 2021. The decrease is informed by the five (5) DT-SACCOs previously in this tier, but which moved to the large-tier level, namely *USHURU SACCO Society Ltd, AMICA SACCO Society Ltd, JAMII SACCO Society Ltd, K-UNITY SACCO Society Ltd* and *UNISON SACCO Society Ltd*, while at the same time one of the newly licensed DT-SACCO namely the *M/S DEFENCE SACCO Society Ltd* directly joined this segment upon licensing. Two (2) other DT-SACCOs previously under the small-tier level, namely *MUKI SACCO Society Ltd* and *MAFANIKIO SACCO Society Ltd* also joined the mid-tier in 2021.

Figure 11: Market share of DT-SACCOs segmented by total assets – 2020

Source: SASRA Database

Figure 12: Market share of DT-SACCOs segmented by total assets – 2021

Source: SASRA Database

On the other hand, the DT-SACCOs with assets of below Kshs 1 billion decreased from 84-DT-SACCOs with a market share of 5.21% in 2020 to 82-DT-SACCOs with a market share of 4.82% in 2021. The reduction in the number of the small-tiered DT-SACCOs from 84-DT-SACCOs was informed by the fact that four (4) small-tiered DT-SACCOs had their deposit-taking licenses withdrawn or not renewed in the year 2021 leaving 80-DT-SACCOs. But at the same time four (4) newly licensed DT-SACCOs with total assets of below Kshs 1 billion were brought onboard in the year 2021 namely *M/S CHUKA UNIVERSITY SACCO Society Ltd*, *M/S STRATEGIC DT-SACCO Society Ltd*, *M/S HOME BUSINESS SACCO Society Ltd*, and *M/S KABIYET SACCO Society Ltd*. However, two (2) other previously small-tiered DT-SACCOs graduated to the mid-tiered category as already indicated above.

5.2.3. NWDT-SACCOs by asset size

Table 14 provides a comparative market share of the 185-NWDT-SACCOs within the three (3) segmentation categories and shows that three (3) NWDT-SACCOs had a total asset portfolio of Kshs 5 billion and above controlling a share of 16.48% of the total assets' market share within the NWDT-SACCOs segment. This is contrasted with two (2) NWDT-SACCOs in the same segmentation category in 2020 but which had a market share of 11.97%. The NWDT-SACCOs with asset portfolio of between Kshs 1 billion and Kshs 5 billion were 25-SACCOs with a market share of 43.27% within the NWDT-SACCOs segment, compared to 24-NWDT-SACCOs within the category but which controlled a market share of 44.85% within the segment.

Table 14: Distribution of total assets of NWDT-SACCOs within the three (3) tier segments (2020 – 2021)

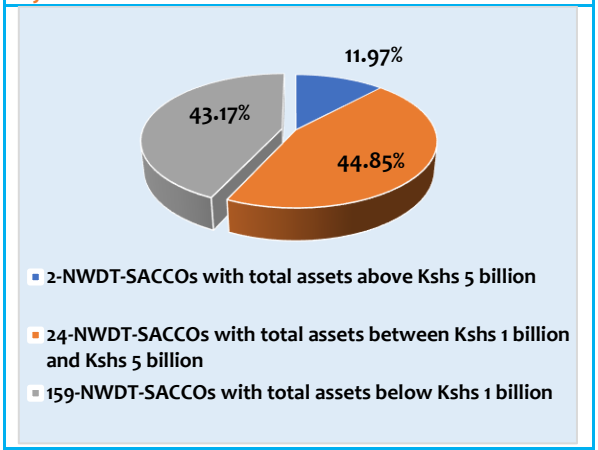

CATEGORY OF NWDT-SACCOs BY TOTAL ASSETS SIZE	NUMBER OF NWDT-SACCOs		TOTAL ASSETS (KSHS BILLIONS)		PROPORTION TO TOTAL ASSETS	
	2020	2021	2020	2021	2020	2021
Total Assets above Kshs. 5 billion	2	3	12.76	19.11	11.97%	16.48%
Total Assets between Kshs.1 billion and Kshs. 5 billion	24	25	47.79	50.20	44.85%	43.27%
Total Assets below Kshs. 1 billion	159	157	46.00	46.70	43.17%	40.25%
TOTALS	**185**	**185**	**106.54**	**116.02**		

Source: SASRA Database

Similar to the scenario obtaining with regard to DT-SACCOs, the largest majority of NWDT-SACCOs fall within the small-tier categorization with total assets below Kshs 1 billion. There were 157 NWDT-SACCOs in this category and had a market share of 40.25% for the period ended December 2021 compared to 159 – NWDT-SACCOs in the category in 2020 but with a market share of 43.17% as summarized in Figure 13 and Figure 14.

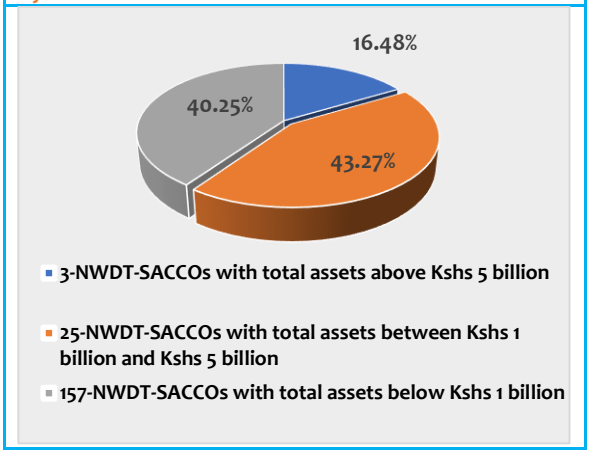

Apparently, the market shares of NWDT-SACCOs in both the mid-tier and small-tier NWDT-SACCOs has decreased between 2020 and 2021, while the large-tier NWDT-SACCOs market share substantially increased over the period. This generally shows SACCOs with larger asset base will continue to grow at a faster pace than those with smaller asset base.

5.3. SACCOs BY TOTAL DEPOSITS

5.3.1. General Overview

The Authority's supervisory policy framework places a lot of emphasis on the safety of deposits (savings) held by SACCOs, to guarantee safety and prompt access to these savings by members, whenever they want the same back. In addition, deposits within the SACCO subsector form the most significant proportion of the sources of funds to finance loans and other credit facilities issued by the SACCOs. The deposits are thus critical in ensuring that the SACCOs can meet the credit obligations to their membership. Indeed, the entire legal framework of supervision and regulation SACCOs contained in the Act, the *Regulations 2010* for DT-SACCOs and the *Regulations 2020* for NWDT-SACCOs are aimed at securing the deposits held in the SACCOs. Just like with the total assets, the Authority has classified the 361-SACCOs under its supervisory mandate into three (3) segments based on their deposit sizes namely the SACCOs with deposits above Kshs 5 billion; SACCOs with deposits between Kshs 1 billion and Kshs 5 billion; and SACCOs with deposits below Kshs 1 billion.

Table 15 and Figures 15 and 16 provide a snapshot presentation of the distribution of the 361–SACCOs within the three (3) segments and shows that there were 28-SACCOs with total deposits above Kshs 5 billion composed of 26-DT-SACCOs and 2-NWDT-SACCOs with a cumulative market share of 56.32% of the total deposits within the SACCO subsector. The SACCOs with deposit liabilities of between Kshs 1 billion and Kshs 5 billion were 70 entities composed of 51-DT-SACCOs and 19-NWDT-SACCOs which had a combined total deposits' market share of 29.87% of the SACCO subsector's total deposits.

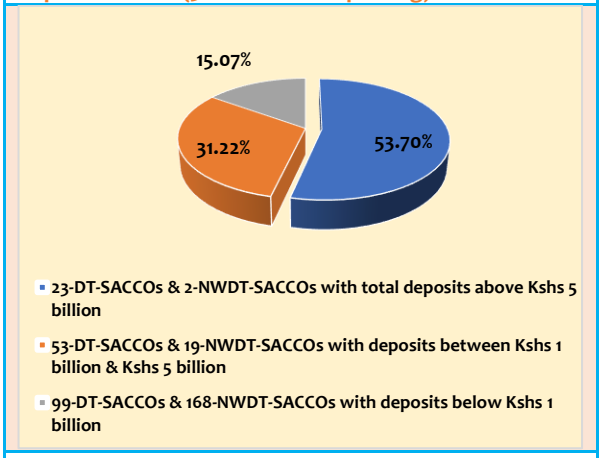

Table 15: Distribution of total deposit liabilities with the SACCO subsector (2019 – 2021)

CATEGORY OF SACCOs BY TOTAL DEPOSIT SIZE	CLUSTER	NUMBER OF SACCOs			TOTAL DEPOSITS (BILLIONS)			PROPORTION TO TOTAL DEPOSITS

Similar to the distribution of the total assets, the majority of SACCOs within the subsector had their total deposits below the Kshs 1 billion mark with a total of 263-SACCOs being represented in this category for the period ended December 2021. They were composed of 99-DT-SACCOs and 164-NWDT-SACCOs with a combined total deposit's market share of 13.81% of the total subsector's deposits. The foregoing further strengthens the conclusions that there are very many small SACCOs within the subsector.

Figure 15 Market share of SACCOs segmented by total deposits – 2020 (360-SACCOs Reporting)

5.3.2. DT-SACCOs by deposit sizes

As already indicated hereinabove, the 176-DT-SACCOs which were in operation in the year ended of December 2021 had cumulated total deposits of Kshs 474.25 billion which constituted 83.95% of the total subsector's deposits. Table 16 provides the distribution of the said deposit liabilities among the three (3) segment categories with the number of DT-SACCOs with deposits above Kshs 5 billion increasing from 23-DT-SACCOs in 2020 to 26-DT-SACCOs in 2021 while their respective market share of the deposits held increased from 61.64% in 2020 to 64.74% in 2021. The increase in the number of DT-SACCOs under this category is informed by the fact that three (3) DT-SACCOs previously with deposits of between Kshs 1 billion and Kshs 5 billion moved to the next

categorization. As further read with Figure 17 and Figure 18, the number of DT-SACCOs with deposits of between Kshs 1 billion and Kshs 5 billion dropped from 53-DT-SACCOs in 2020 to 51-DT-SACCOs in 2021 while their respective total deposits' market share within the DT-SACCOs segment also dropped from 30.61% in 2020 to 27.74% in 2021.

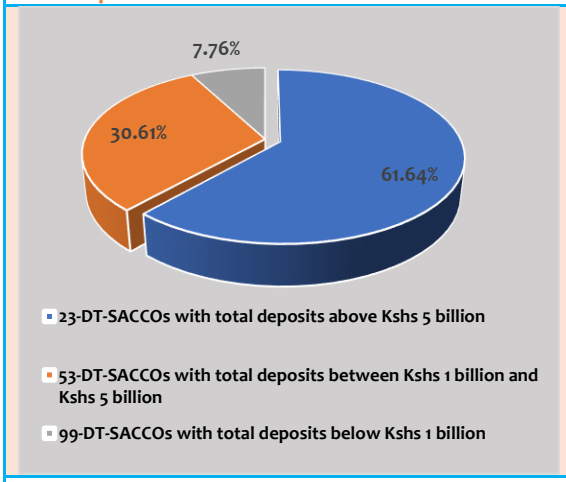

Table 16: Distribution of total deposit liabilities within the DT-SACCO segment (2019 – 2021)

CATEGORY OF DT-SACCOs BY TOTAL DEPOSIT SIZE	NUMBER OF DT-SACCOs			TOTAL DEPOSITS (BILLIONS)			PROPORTION TO TOTAL DEPOSITS		
	2019	2020	2021	2019	2020	2021	2019	2020	2021
Total Deposits above Kshs. 5 billion	20	23	26	224.75	265.94	307.04	59.07%	61.64%	64.74%
Total Deposits between Kshs. 1 billion & Kshs. 5 billion	53	53	51	123.75	132.06	131.54	32.53%	30.61%	27.74%
Total Deposits below Kshs. 1 billion	99	99	99	31.96	33.46	35.67	8.40%	7.76%	7.52%
TOTALS	**172**	**175**	**176**	**380.46**	**431.46**	**474.25**			

Source: SASRA Database

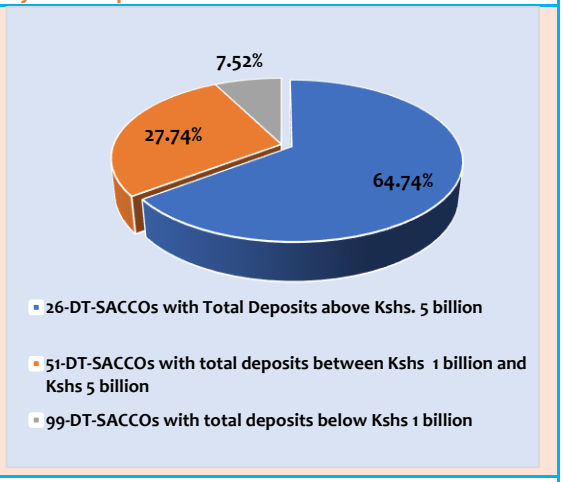

DT-SACCOs with deposits below Kshs 1 billion remained the same at 99-DT-SACCOs in 2021 as they were in 2020. This is because whereas four (4) of the SACCOs previously in this category had their licensed not renewed or revoked leaving 95-DT-SACCOs, one (1) of them graduated into the mid-tier category while all the five (5) newly licensed DT-SACCOs in 2021 had their deposits below the Kshs 1 billion threshold. Their aggregate total deposits' market share however marginally shrunk from 7.76% in 2020 to 7.52% in 2021, which was mainly due to the fact that the large-tiered SACCOs grew at a faster rate thereby reducing the segments proportion of total deposits.

Figure 17: Market share of DT-SACCOs segmented by total deposits – 2020

Source: SASRA Database

Figure 18: Market share of DT-SACCOs segmented by total deposits – 2021

Source: SASRA Database

5.3.3. NWDT-SACCOs by deposit sizes

The 185-NWDT-SACCOs had cumulated total deposits of Kshs 90.64 billion representing 16.05% of the total deposit liabilities within the SACCO subsector. Table 17 provides the distribution of the said deposit liabilities with the NWDT-SACCOs system and shows that for two consecutive years the number of NWDT-SACCOs with deposits above Kshs 5 billion remained at only 2-NWDT-SACCOs.

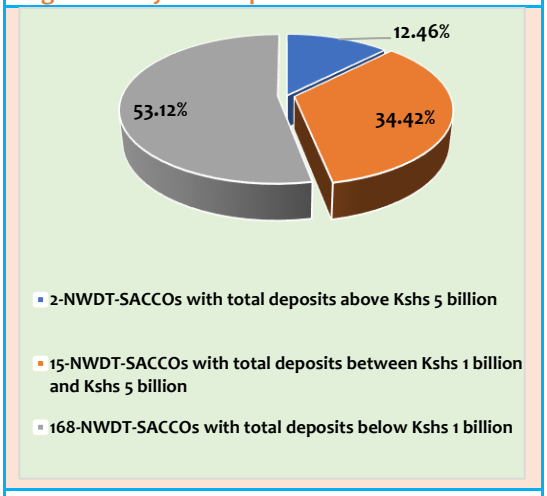

Table 17: Distribution of NWDT-SACCOs in accordance with the deposit size

CATEGORY OF NWDT-SACCOS BY TOTAL DEPOSIT SIZE	NUMBER OF NWDT-SACCOs		TOTAL DEPOSITS (KSHS BILLIONS)		PROPORTION TO TOTAL DEPOSITS	
	2020	2021	2020	2021	2020	2021
Total Deposits above Kshs. 5 billion	2	2	10.34	11.09	12.46%	12.24%
Total Deposits between Kshs.1 billion & Kshs. 5 billion	15	19	28.57	37.16	34.42%	41.00%
Total Deposits below Kshs. 1 billion	168	164	44.09	42.38	53.12%	46.76%
TOTALS	185	185	83.00	90.64		

Source: SASRA Database

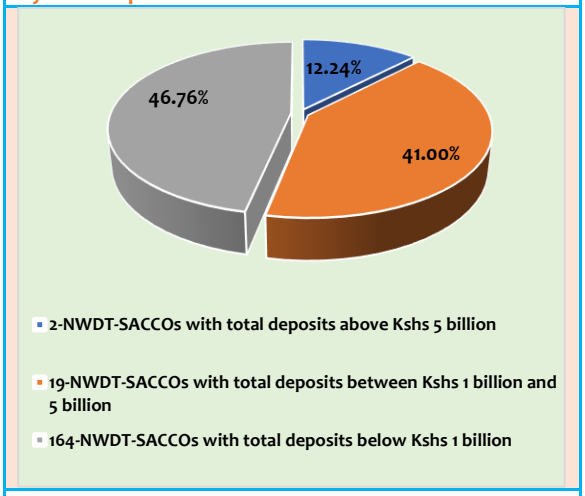

The number of NWDT-SACCOs with deposits of between Kshs 1 billion and Kshs 5 billion increased from 15-NWDT-SACCOs in 2020 to 19-NWDT-SACCOs in 2021. They controlled a total deposits' market share of 41% of the total deposits within the NWDT-SACCOs' segment in 2021 compared to a total deposits' market share of 34.42% which was controlled by the 15-NWDT-SACCOs in 2020. Indeed, this is the only segmentation of NWDT-SACCOs which recorded a positive change in the respective market share, as those NWDT-SACCOs with total deposits below Kshs 1 billion though reduced from 168-NWDT-SACCOs in 2020 to 164 - NWDT-SACCOs in 2021 had their respective total deposits' market share reduce from 53.12% in 2020 to total deposits' market share of 46.76% in 2021 as shown in Figure 19 and Figure 20 respectively.

5.3.4. Distribution of Deposit Liabilities in the SACCO Subsector

The analysis of deposit liabilities within the SACCO subsector and their distribution is a very important supervisory activity because deposit liabilities are a representation of the savings made by the members in SACCOs. There are three (3) types of deposit liabilities within the SACCO subsector. Firstly, are the withdraw-able deposits (savings) which are withdrawable by a member-depositor at any time, such as through teller withdrawal transactions, or mobile money withdrawals, or ATM withdrawal platforms, or internet among others. These deposits (savings) are transacted through the member's Savings Account (sometimes referred to as FOSA Account) maintained by DT-SACCOs only in accordance with *Reg. 23 of the Regulations 2010*. Another characteristic of these deposits is that the member of the SACCO Society does not lose membership by withdrawing the same, and the member may withdraw a portion or all these

deposits at any time and at will, and still remains a member.

Secondly, are the fixed-term deposit liabilities – which are deposits for a fixed period depending on the contractual agreement between the SACCO and the member. The accessibility of fixed-term deposits is governed by the contractual agreement between the SACCO and the depositors. Likewise, their withdrawal does not lead or result in the loss of membership. Thirdly, are the non-withdraw-able deposits (savings), which are not withdraw-able or payable to a member, except upon withdrawal from membership of the SACCO Society. The non-withdraw-able deposit liabilities may however be used by a member as collateral for any credit or loan facility that may be issued or granted to a member and are maintained in the non-withdrawable deposits account established for the member in accordance with *Reg. 22 of the Regulations 2010* for DT-SACCOs and *Reg. 23 of the Regulations 2020* for the NWDT-SACCOs. The distinguishing characteristic between deposit-taking business and non-deposit taking business undertaken by SACCOs in Kenya as defined in *Section 2 of the Sacco Societies Act* is that in the former, the SACCOs are legally allowed to maintain and operate accounts in respect of the three (3) clusters of deposit liabilities; while in the latter the SACCOs maintain and operates accounts for non-withdrawable deposits only.

Table 18 and **Figure 21** shows the distribution of the three (3) types of deposit liabilities within the SACCO subsector for the period ended December 2021 and shows that the largest proportion of deposit liabilities within the SACCO subsector is composed on the non-withdrawable deposits which constituted 75.76% of the subsector's total deposit liabilities. The non-withdrawable deposits within the SACCO subsector amounted to Kshs 427.97 billion, out of which 78.82% was made up of non-withdrawable deposits (BOSA) of DT-SACCOs while the non-withdrawable deposits (BOSA) for NWDT-SACCOs accounted for 21.18% as shown in **Figure 22**.

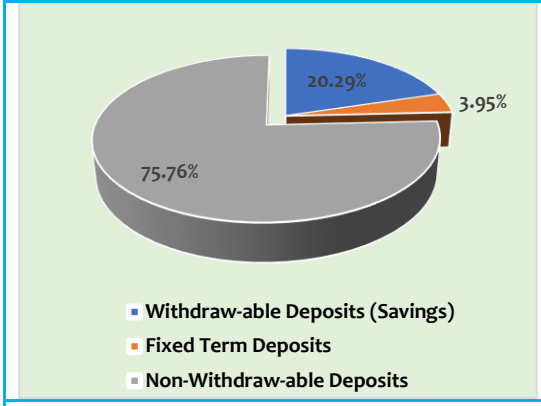

Table 18: Distribution of Deposit Liabilities in the SACCO subsector.

Distribution Of Deposit Liabilities	Cluster	Total Deposit Liabilities			Y-to-Y Change (2020/21)	Proportion to Total Deposits		
		2019	2020	2021		2019	2020	2021
Withdraw-able Deposits (savings)	DT-SACCOs	67,499,571,893	125,048,152,403	114,588,284,257	-8.36%	17.74%	24.31%	20.29%

Source: SASRA Database

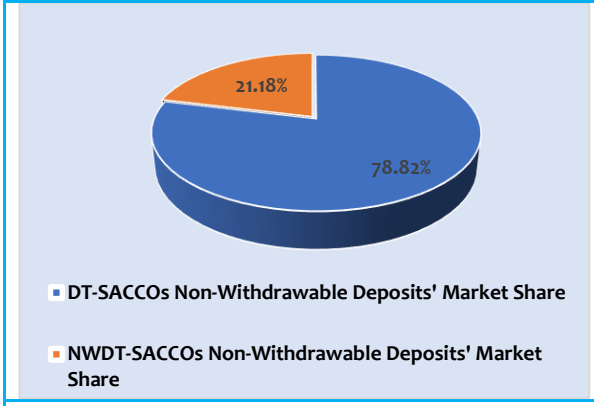

The withdrawable deposits (savings) and the fixed-term deposits liabilities which are principally held by DT-SACCOs formed the lowest proportion of deposits liabilities with the SACCO subsector at a proportion of 20.29% and 3.95% respectively. These deposit liabilities are largely held by DT-SACCOs and majorly determines the liquidity requirements of DT-SACCOs at any given time, since the same are payable on demand.

5.4. FINANCIAL PERFORMANCE OF SACCOs BASED ON THE COMMON BOND

5.4.1. General Overview

As discussed in Table 9 hereinabove, SACCOs are classified into four main clusters depending on the main or original field of membership from where they draw their membership namely the *Agriculture-based*; the *Government-based*; the *Private sector based*; and the *Community-based SACCOs*. The clustering and sub-clustering of SACCOs based on their respective field of membership is a critical tool for measuring performance and monitoring risks associated with each of the cluster.

5.4.2. Total Assets of SACCOs by common bond cluster

Table 19 provides a summary of the distribution of the total assets portfolio of the SACCO subsector amounting to Kshs 807.11 billion among the 361-SACCOs as distributed within the main clusters and sub-clusters and shows that the 117-Government-based SACCOs controlled the highest proportion of the total assets at 65.66% for the period ended December 2021.

Despite having the highest proportion of total membership at 46.79%, the 49-Agriculture-based SACCOs had the lowest total assets' market share proportion amounting to only 10.96% of the total assets, and cognizant of the fact that a SACCOs assets portfolio is its main source of income, the low asset proportion of Agriculture-based SACCOs implies that their respective incomes or revenue generated from these assets is equally low thereby bringing into fore the issue about their stability and sustainability. The 88-Community-based SACCOs and the 107-Private Sector based SACCOs on the other hand controlled 10.96% and 11.54% of the total subsector's asset base. The foregoing means that the public service sector represented by the Government-based SACCOs which controlled 65.66% of the total assets remains the backbone of the SACCO subsector's total asset base and by implication income and revenue. It is however interesting to note that even among the Government-based SACCOs, the largest proportion of the total assets are controlled by the 40-Teachers-based SACCOs with a relative proportion of 30.12% and the 31-Government general services based SACCOs which controlled 22.73% of the total assets respectively.

Table 19: Distribution of the Total Assets within the Fields of Membership Clusters (2020 – 2021)								
Field of Membership Cluster	Sector/Industry	SACCO Segment	No. Of SACCOs		Total Assets		% To Total Assets

5.4.3. Total Deposits of SACCOs by common bond cluster

Regarding distribution of the subsector's total deposits of Kshs 564.89 billion, the distribution among the fields of membership equally showed that the highest proportion of deposits are held by the 117-Government-based SACCOs which controlled 65.18% of the subsector's total deposits for the period ended December 2021 which is a marginal gain from a proportion of 65.06% total deposits' market share by the cluster for the period ended December 2020. Just like with respect to the market share of total deposits, the 40-Teachers-based SACCOs had the highest proportion of total deposits accounting for 29.98% of the total deposits, followed by the 31-Government general services – based SACCOs which had a proportional representation of 21.88% of the total deposits within the subsector.

Table 20 (a): Distribution of the Total Assets within the Fields of Membership Clusters (2020 – 2021)								
Common Bond	Sector/ Industry	SACCO Segment	No. Of SACCOs		Total Deposits		% To Total Deposits	
			2020	2021	2020	2021	2020	2021

Source: SASRA Database

As summarized in Table 20, the 49-Agriculture-based SACCOs' combined share of the total deposits was 9.83% which represents a decline from a proportionate total deposits' market share of 9.65% recorded for the period ended December 2020. Consequently, it can be said that on average the *Agriculture-based SACCOs* witnessed a much slower growth in 2021 than in 2020 resulting into them ceding a portion of their market share to the Government-based SACCOs which is the only cluster that recorded a positive market share deviation from the period ended December 2020. The private sector based SACCOs and the Community-based SACCOs recorded the lowest proportionate representation of the subsector's total deposits at 12.13% and 12.8% respectively for the period ended December 2021; both of which represented declines from the proportionate representations of 12.33% and 12.97% respectively recorded for the period ended December 2020 as summarized in Figure 23(a).

Figure 23(a): Proportionate Distribution of Total Deposits within the Fields of Membership.

5.5. THE SECTORAL LENDING REPORT 2021

The Authority has been piloting the collection of quarterly sectoral lending reports from SACCOs to determine the sectors in respect of which loans and other credit facilities advanced by SACCOs are aimed at financing. The report shows that the highest proportion of loans advanced by SACCOs in 2021 went toward the land and housing sectors of the economy which accounted for 26.98% of

the total credit facilities advanced by SACCOs as summarized in **Figure 23(b)**. Education sector accounted for the second highest proportion of the credit facilities at 20.83% of all the credit advanced in 2021 with the agricultural sector coming third with a proportion of credit advanced in 2021 accounting for 17.47%. The analysis shows a majority of SACCO members borrow principally to buy or purchase land or housing, fund educational needs, and lastly for agricultural purposes.

Figure 23(b): Proportion of sectors funded by credit facilities of SACCOs in 2021.

Source: SASRA Database

The amounts of credit advanced towards the trade sector; and the manufacturing and service industry sectors accounted for 12.16% and 7.88% respectively thereby showing low activity of members of SACCOs in these sectors. It is however interesting to note that some members of SACCOs took credit for purposes of repaying other credit facilities in the commercial or microfinance or mortgage finance institutions, or to pay for insurance premiums and make financial investments. Consistent with being socio-economic enterprises, the amount of credit advanced by the SACCOs for the period ended December 2021 for consumption and social services accounted for 8.36% of the total credit and loan facilities advanced in the year.

6.0. FINANCIAL STABILITY OF THE SACCO SUBSECTOR

6.1. INTRODUCTION

The SACCO subsector in Kenya consists of the DT-SACCO segment on the one hand which is principally governed by the *Regulations 2010*, and the NWDT-SACCO segment on the other hand which is principally governed by the *Regulations 2020*. The financial tools for monitoring and reporting the stability and safety of deposit-taking financial institutions such as SACCOs generally include the capital adequacy, quality of the assets, earnings and liquidity. Some of these parameters are enshrined in the *Regulations 2010* for DT-SACCOs and the *Regulations 2020* for the NWDT-SACCOs while others are drawn from internationally recognized standards and best practices. Consequently, the financial stability of the SACCO subsector is considered for each segment.

6.1.1. Overview of Financial Stability of DT-SACCOs

Table 21 provides a snapshot of the aggregated financial stability indicators for the DT-SACCOs during the year 2021 in comparison to the previous years and shows that in the aggregate DT-SACCOs remained stable in the key measurement parameters of capital adequacy and liquidity ratio.

Table 21: Comparative aggregate Financial Stability indicators for DT-SACCOs

6.1.2. Overview of Financial Stability of NWDT-SACCOs

Cognizant of the fact that formal prudential supervision of NWDT-SACCOs commenced in June 2021 **Table 22** provides a snapshot of the aggregated financial stability indicators for the NWDT-SACCOs during the year ended December 2021. Just like the DT-SACCOs the key stability indicators include the capital adequacy, the quality of assets and earnings of NWDT-SACCOs and their liquidity ratios.

Table 22: Comparative aggregate Financial Stability indicators for NWDT-SACCOs

6.2. CAPITAL ADEQUACY IN THE SACCO SUBSECTOR

6.2.1. Introduction

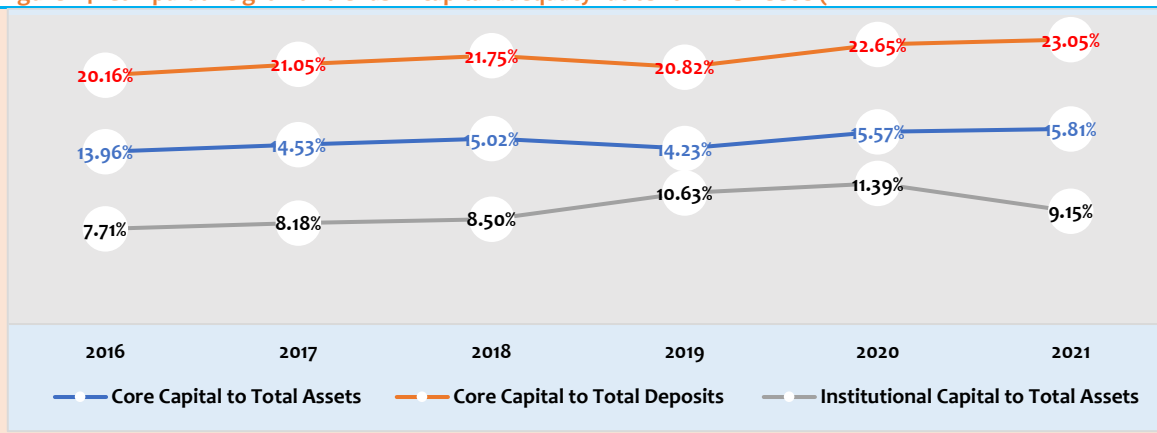

The core capital is defined in the Act to be composed of the "*fully paid-up members' shares, capital issued, disclosed reserves, retained earnings, grants and donations all of which are not meant to be expended unless on liquidation of the SACCO society*". There are however different compliance requirements for the DT-SACCOs on the one hand as prescribed in *Reg. 9 of the Regulations 2010*, and the NWDT-SACCOs on the other hand as prescribed in *Reg. 11 of the Regulations 2020*.

6.2.2. Capital Adequacy for DT-SACCOs

As shown in **Table 21**, the aggregate core capital held by the DT-SACCOs increased to Kshs 109.29 billion in 2021 from Kshs 97.74 billion in 2020, against the prescribed minimum of Kshs 10 million. The provisions of the Reg. 9 of the Regulations, 2010 on the other hand prescribes that all DT-SACCOs shall always maintain a minimum of capital adequacy ratios of core capital to total assets; core capital to total deposits; and institutional capital to total assets of 10%, 8% and 8% respectively. As shown in **Table 21** the core capital to total assets ratio increased to 15.81% in 2021 from a ratio of 15.57% recorded in 2020 against the prescribed minimum ratio of 10%. The core capital to total assets ratio equally increased to 23.05% in 2021 from a ratio of 22.65% reported in 2020 against the prescribed minimum standard of 8%. The institutional capital to total assets ratio

however reduced in the aggregate to 9.15% in 2021 from 11.39% recorded in 2020, but was still above the minimum prescribed ratio of 8%. Figure 24 shows the comparative growth trends in the three (3) critical capital adequacy ratios prescribed in the Regulations 2010 and thus a confirmation of the continued stability of the DT-SACCO financial system in Kenya.

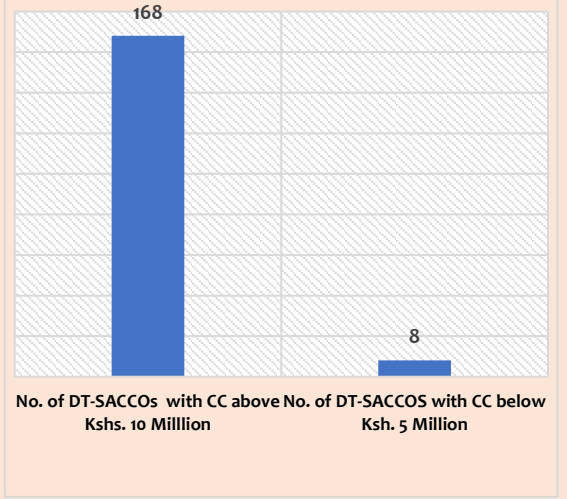

Figure 24: Comparative growth trends in capital adequacy ratios for DT-SACCOs (2016 - 2021

Source: SASRA Database

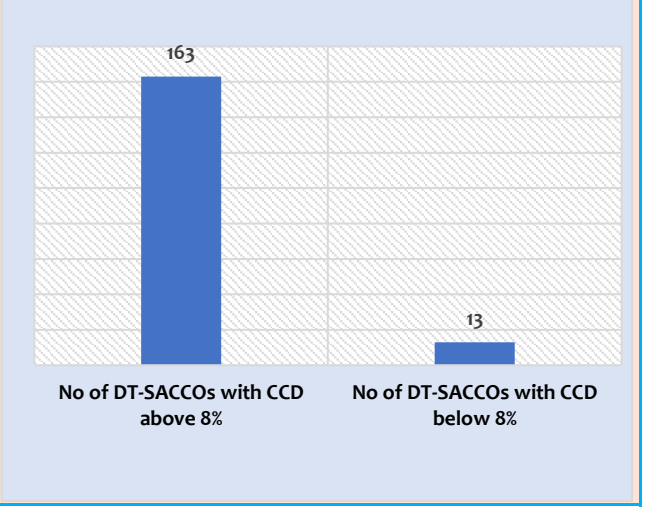

The individual levels of compliance by DT-SACCOs with the prescribed capital adequacy ratios are summarized in Figure 25 for core capital (CC), Figure 26 for core capital to total deposits (CCD), Figure 27 for core capital to total assets (CCA), and Figure 28 for institutional capital to total assets (ICA). The individual analysis shows that except for a few DT-SACCOs, nearly all DT-SACCOs had met the prescribed minimum capital adequacy ratios.

Source: SASRA Database

Figure 27: No. of DT-SACCOs complying with CCA ratio

Source: SASRA Database

Figure 28: No. of DT-SACCOs complying with ICA ratio

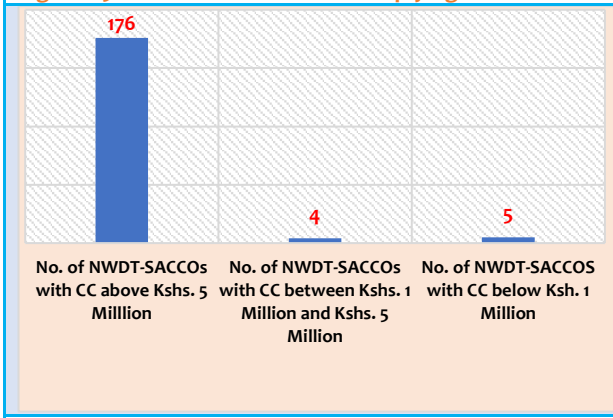

Source: SASRA Database

6.2.3. Capital Adequacy of NWDT-SACCOs

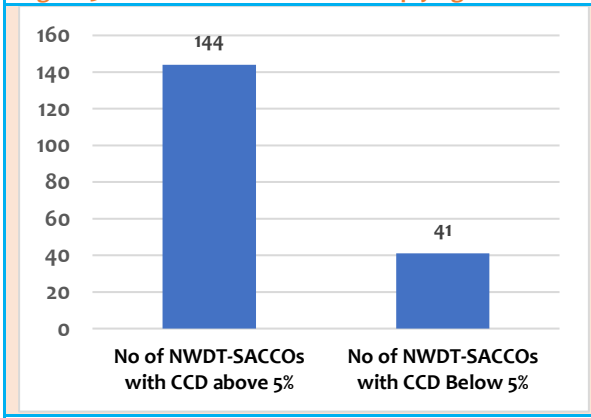

In terms of the absolute minimum core capital of not less than Kshs 5 million which all NWDT-SACCOs are required by the *Regulations 2020* to always maintain, the aggregate core capital for the year ended December 2021 was Kshs 8.69 billion. The core capital to total assets ratio on the other hand for the NWDT-SACCOs increased from 6.72% recorded in 2020 to 7.49% in 2021 which is lower than the prescribed minimum threshold of 8%. The failure to meet the prescribed core capital to total assets ratio for NWDT-SACCOs can be explained by the fact that prior to the year 2021, NWDT-SACCOs did not have any prescribed capital adequacy requirements and compliance was required of them for the first time in 2021. It is however encouraging to note that the requirement of the Regulations 2020 that more than fifty (50) percent of the core capital should be composed of retained earnings and disclosed reserves was duly met by the NWDT-SACCOs as the same increased from 73.28% recorded in 2020 to 74.60% recorded in 2021. This is an indication that many NWDT-SACCOs were able to sufficiently retain their surpluses in the first year of supervision as institutional capital may only be built using retained earnings and statutory reserves. In terms of individual level of compliance of NWDT-SACCOs with the prescribed minimum core capital and capital adequacy ratios, the same is summarized in **Figure 29** for core capital (CC); **Figure 30** for core capital to total deposits (CCD); **Figure 31** for core capital to total assets (CCA); and **Figure 32** for institutional capital to core capital (ICC).

Figure 29: No. of NWDT-SACCOs complying with CC

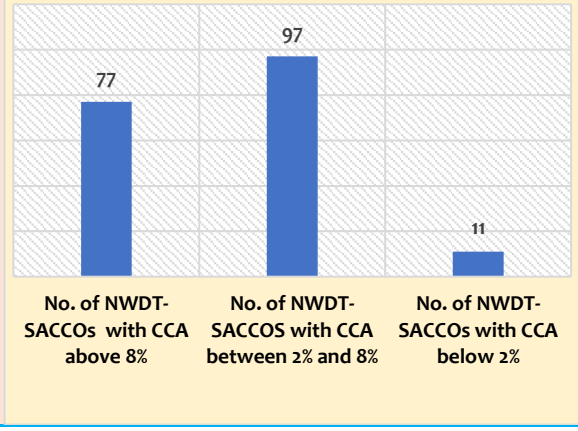

Source: SASRA Database

Figure 30: No. of NWDT-SACCOs complying with CCD

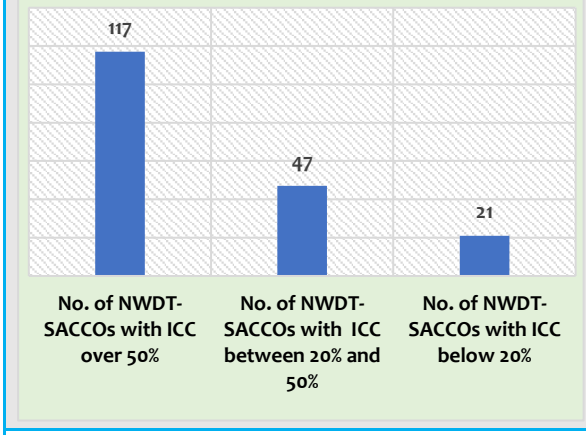

Source: SASRA Database

Figure 31: No. of NWDT-SACCOs complying with CCA

Source: SASRA Database

Figure 32: No. of NWDT-SACCOs complying with ICC

Source: SASRA Database

Despite being in the first year of prudential supervision and regulation, the summary shows that a majority of the NWDT-SACCOs were able to comply with the core capital requirement of Kshs 5 million with only nine (9) NWDT-SACCOs failing to attain the prescribed minimum. The core capital to total assets however had a total of 77-NWDT-SACCOs meeting the prescribed threshold holding at the ratio above the prescribed 8% threshold. The institutional capital to core capital ratio was attained by 117-NWDT-SACCOs in their first year of supervision, which is a comparatively good indicator of stability with a majority of the NWDT-SACCOs and it is expected that the ratio shall be progressively met as this segment of the SACCO subsector matures in supervision and regulation.

6.3. ASSETS AND THE QUALITY OF ASSETS IN THE SACCO SUBSECTOR

6.3.1. Overview of the composition of the total assets in the SACCO subsector

As shown in Table 11 hereinabove, the total assets of the SACCO subsector in 2021 amounted to Kshs 807.11 billion compared to Kshs 734.22 billion in 2020. The DT-SACCOs controlled the highest proportion of the total assets amounting to Kshs 691.09 billion, while the NWDT-SACCOs controlled Kshs 116.02 billion. In terms of the composition, the total assets portfolio of SACCOs is primarily composed of the net loans and advances; cash and cash equivalents; financial investments; prepayments & sundry receivables; and property & equipment. Table 23 provides a summary of the composition of the total assets' portfolio within the SACCO subsector for the period ended December 2021 and shows that the largest proportion of the assets' portfolio consisted of net loans and advances which amounted to Kshs 572.68 billion of the total assets portfolio in 2021 which is a marked increase for a sum of Kshs 530.00 billion recorded in 2020. The cash and cash equivalent constituted the second highest proportion of total assets with a cumulative sum of Kshs 92.36 billion, which is an increase from a cash and cash equivalent cumulative sum of Kshs 61.25 billion reported in 2020, while the financial investments registered a drop from Kshs 66.99 billion recorded in 2020 to Kshs 50.29 billion recorded in 2021.

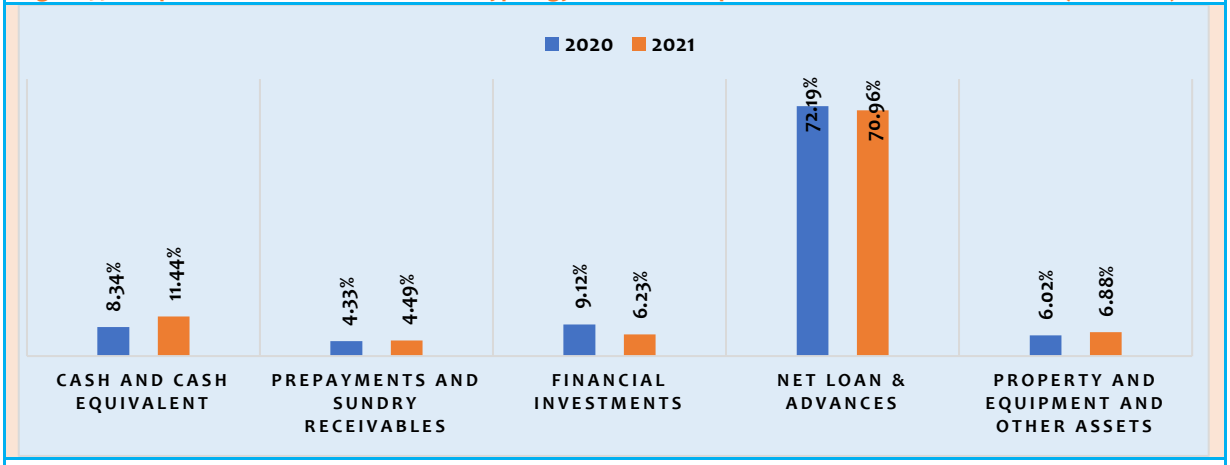

Table 23: The Composition of the total assets in the SACCO subsector (2019 to 2021)

		2019		2020		2021	
TYPE OF ASSET		Amount in Ksh. billions	% To Total Assets	Amount in Ksh. Billions	% To Total Assets	Amount in Ksh. Billions	% To Total Assets
Cash and Cash Equivalent	DT-SACCOs	46.22	8.30%	51.23	8.16%	79.96	11.57%
	NWDT-SACCOs			10.02	5.07%	12.41	10.70%
	TOTALS			**61.25**		**92.36**	
Prepayments and Sundry Receivables	DT-SACCOs	26.28	4.72%	28.04	4.47%	31.89	4.61%
	NWDT-SACCOs			3.77	1.91%	4.31	3.71%
	TOTAL			**31.81**		**36.20**	
Financial Investments	DT-SACCOs	36.82	6.61%	56.86	9.06%	39.61	5.73%
	NWDT-SACCOs			10.12	51.22%	10.69	9.21%
	TOTAL			**66.99**		**50.29**	
Net Loan Portfolio	DT-SACCOs	400.16	71.88%	450.58	71.79%	488.20	70.64%
	NWDT-SACCOs			79.42	40.18%	84.48	72.82%
	TOTAL			**530.00**		**572.68**	
Property and Equipment and Other Assets	DT-SACCOs	47.24	8.49%	40.97	6.53%	51.44	7.44%
	NWDT-SACCOs			3.20	1.62%	4.13	3.56%
	TOTAL			**44.18**		**55.57**	

Source: SASRA Database

Figure 33 provides the proportionate distribution of each typology of the assets' portfolio in the SACCO subsector between 2020 and 2021 and shows that although the net loans and advances registered the highest proportion of the assets' portfolio at 70.96% in 2021, this was a drop from a proportion of 72.19% of the total assets' which represented the net loans and advances in 2020. As observed herein above, the decrease in the proportion of the net loans and advances during the year 2021 is largely informed by the increase in the cash and cash equivalents which rose from a proportion of 8.34% of the total assets' portfolio to a proportion of 11.44% in 2021. The proportion of the financial investments component of the total assets are registered a sharp decline from 9.12% recorded in 2020 to a low of 6.23% in 2021 clearly showing that many SACCOs chose to liquidate their financial investments in favour of other assets' portfolios.

Figure 33: Proportionate distribution of each typology of the assets' portfolio in the SACCO subsector (2020-2021)

Source: SASRA Database

6.3.2. Composition of the total assets of DT-SACCOs

As already shown herein above, the total assets portfolio of DT-SACCOs for the period ended December 2021 amounted to Kshs 691.09 billion compared to Kshs 627.68 billion recorded for the period ended December 2020. Table 24 provides a summary of the composition of the total assets'

portfolio of DT-SACCOs and shows the net loans and advances constituted the largest proportion of the asset's portfolio accounting for 70.64% thereof for the period ended December 2021, although this represented a drop in the proportion of net loans and advances which was recorded at 71.79% in 2020.

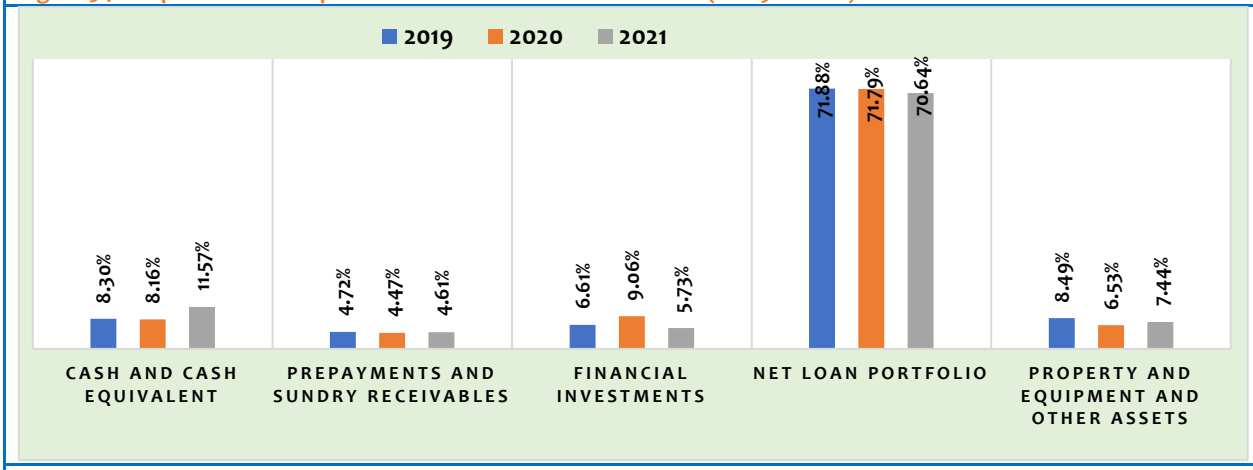

Table 24: The Composition of the Total Assets on DT-SACCOs (2019 to 2021)

	2019		2020		2021	
TYPE OF ASSET	Amount (Kshs billions)	% To Total Assets	Amount (Kshs billions)	% To Total Assets	Amount (Kshs (billions)	% To Total Assets
Cash and Cash Equivalent	46.22	8.30%	51.23	8.16%	79.96	11.57%
Prepayments and Sundry Receivables	26.28	4.72%	28.04	4.47%	31.89	4.61%
Financial Investments	36.82	6.61%	56.86	9.06%	39.61	5.73%
Net Loan Portfolio	400.16	71.88%	450.58	71.79%	488.20	70.64%
Property and Equipment and Other Assets	47.24	8.49%	40.97	6.53%	51.44	7.44%
TOTAL ASSETS	**556.71**		**627.68**		**691.09**	

Source: SASRA Database

Similar to the situation obtaining with the total subsector's assets, the decrease on the proportion of net loans and advances during the year 2021 is substantially informed by the sharp increase on the cash and cash equivalents component of the total assets which increased from Kshs 51.23 billion in 2020 representing 8.16% of the total assets, to Kshs 79.96 billion in 2021 representing 11.57% of the total assets. From the foregoing analysis, it is apparent that a majority of SACCOs kept their assets in more liquid cash and cash equivalent portfolio than in loans, as the proportion of financial investments equally dropped from 9.06% in 2020 to a low of 5.73% in 2021 as summarized in Figure 34.

Figure 34: Proportionate composition of total assets of DT-SACCOs (20219 to 2021)

Source: SASRA Database

6.3.3. Composition of the total assets of NWDT-SACCOs

Regarding the NWDT-SACCOs, there total deposit portfolio amounted to Kshs 116.02 billion for the period ended December 2021 compared to Kshs 106.54 billion recorded for the period ended December 2020. Table 25 provides a summary of the composition of the assets of the NWDT-SACCOs segment while Figure 35 provides the proportional distribution of the assets during the same period. Just like the DT-SACCOs segment, the largest proportion of the assets of NWDT-SACCOs is composed of the net loans and advances amounting to Kshs 84.48 billion representing 72.82% of the segments' assets. It is important to note that this is a decline from a

proportion of the segment's assets of 74.54% reported in 2020. The cash and cash equivalents amounted to a sum of Kshs 12.41 billion representing a proportion of 12.41% of the NWDT-SACCOs segment's assets.

Prepayments and sundry receivables, as well as property and equipment as a proportion of the NWDT-SACCOs segment's assets both registered increases in both absolute volumes and proportion of the segment's assets. While the prepayments and sundry receivables increased from Kshs 3.77 billion recorded in 2020 and representing 3.54% of the segment's assets to Kshs 4.31 billion in 2021 representing 3.71% of the segment's assets; the property and equipment portion increased from Kshs 3.20 billion representing 3.01% in 2020 to Kshs 4.13 billion representing 3.56% of the segment's assets in 2021.

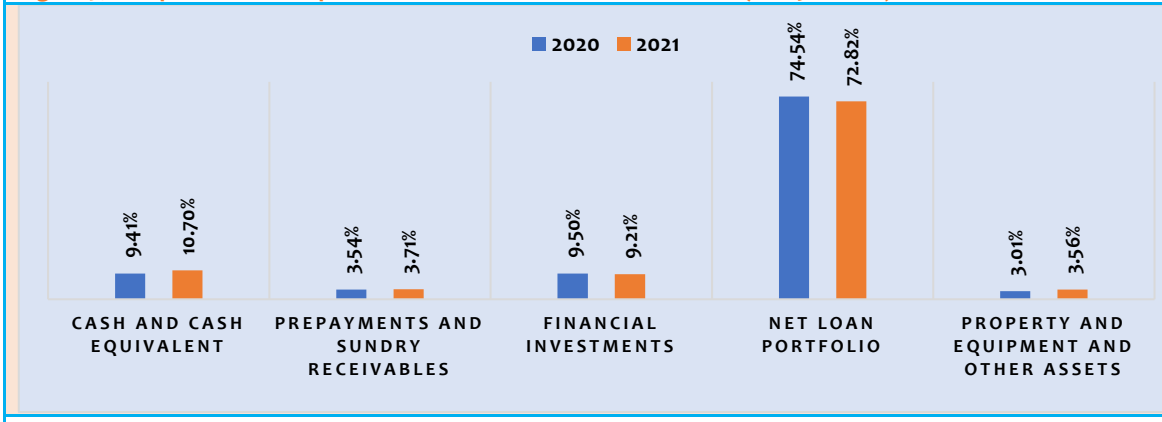

Table 25: The Composition of the total assets on NWDT-SACCOs (2020-21)

	2020		2021	
TYPE OF ASSET	Amount in Kshs. Billions	% To Total Assets	Amount in Kshs. Billions	% To Total Assets
Cash and Cash Equivalent	10.02	9.41%	12.41	10.70%
Prepayments and Sundry Receivables	3.77	3.54%	4.31	3.71%
Financial Investments	10.12	9.50%	10.69	9.21%
Net Loan and Advances	79.42	74.54%	84.48	72.82%
Property and Equipment and Other Assets	3.20	3.01%	4.13	3.56%
TOTAL ASSETS	**106.54**		**116.02**	

Source: SASRA Database

Unlike the DT-SACCO segment which reported a decrease over the reporting period, the financial investments within the NWDT-SACCOs segment increased from Kshs 10.12 billion in 2020 representing 9.50% of the segment's assets to a sum of Kshs 10.69 billion in 2021 representing 9.21% of the segment's assets portfolio. The segment's cash and cash equivalent also increased from Kshs 10.02 billion representing 9.41% of the segment's assets to Kshs 12.41 billion representing 10.70% of the total segment's assets.

Figure 35: Proportionate composition of total assets of NWDT-SACCOs (20219 to 2021)

Source: SASRA Database

6.3.4. The Loans Portfolio within the SACCO subsector

In terms of the loan portfolio during the year 2021, Table 26 provides a summary of the gross loans, allowance for loan loss and the net loans and advances in the sector. The summary shows that the gross loan portfolio within the SACCO subsector was Kshs 608.75 billion in 2021 compared to Kshs 555.05 billion recorded in 2020, while the net loans and advances amounted to Kshs 573.68 billion in 2021.

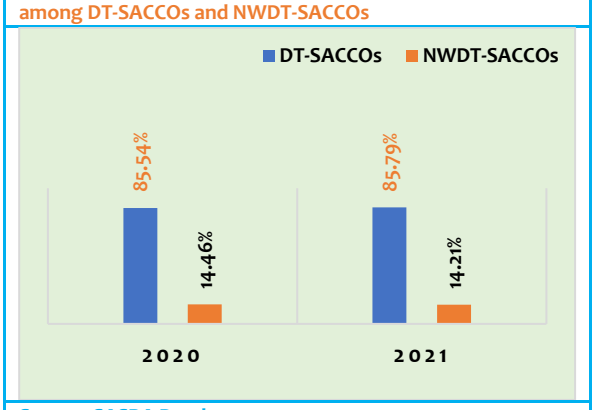

Table 26: Summary of the loan portfolio within the SACCO subsector (2019 to 2021)

LOAN PORTFOLIO	CLUSTER OF SACCOs	2019 Amount in Kshs Billions	Y-to-Y Change (2019/20)	2020 Amount in Kshs Billions	Y-to-Y Change (2020/21)	2021 Amount in Kshs Billions

	NWDT-SACCOs	-	-	79.42	6.37%	84.48
	TOTAL	**400.16**	**-**	**530.00**	**-**	**572.68**

Source: SASRA Database

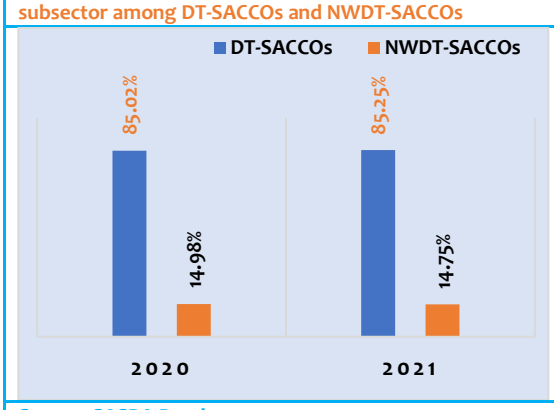

As shown in Figure 36 and Figure 37, the proportion of gross loans held by DT-SACCOs in the subsector constituted 85.79% in 2021, while the gross loans held by NWDT-SACCOs constituted 14.71%. On the other hand, the proportion of net loans and advances held by DT-SACCOs accounted for 85.25% of the total net loans & advances in the SACCO subsector, while the portfolio held by NWDT-SACCOs accounted for 14.75% of the total net loans and advances.

Figure 36: Proportion of gross loans in the SACCO subsector among DT-SACCOs and NWDT-SACCOs

Source: SASRA Database

Figure 37: Proportion of net loans & advances in the SACCO subsector among DT-SACCOs and NWDT-SACCOs

Source: SASRA Database

6.3.5. The quality of the loan assets in the SACCO subsector

Quality of the loan component of assets is measured through the classifications prescribed in *Reg. 41(1) of the Regulations 2010* for the DT-SACCOs and *Reg. 40 of the Regulations 2020* for the NWDT-SACCCOs. In both instances SACCOs are required to submit to the Authority on a quarterly basis a Risk Classification of Assets and Provisioning return which is one of the most important off-site analysis tools used by the Authority in its supervisory processes. This return has been supplemented by the Authority's *Circular and Guidance Note dated 2nd October 2018 on the application of the IFRS- 9 to Outstanding Loans and Credit Advances by SACCOs*.

Table 27 provides the consolidated Risk classification of loans and provisioning return for the period ended December 2021 and shows that on average, the non-performing loan ratio (NPL) which is comprised of the proportion of the loans classified under the substandard, doubtful and loss to the gross loans' portfolio for the entire SACCO subsector stood at 8.99%. Comparatively, DT-SACCOs had the lowest NPL ratio at 8.86% for the period ended December 2021 compared to an NPL ratio of 8.39% recorded by DT-SACCOs for the period ended December 2020. The NWDT-SACCOs on the other hand had their NPL ratio at 9.78% during their first year of regulations, and although their NPL ratio for the year ended December 2020

was not recorded (since they were not under the prudential regulation), it is apparent from the analysis that the NWDT-SACCOs had a poor quality of loans when compared to DT-SACCOs.

In terms of individual classifications of the loans, the analysis shows that cumulatively 87.10% of the total loans were performing in accordance with the contractual terms with the borrowers and only 3.91% of the loan accounts were outstanding for between one (1) day to thirty (30) days thus classified under the watch category. In terms of individual segments performance, the DT-SACCOs had 87.53% of the total loan accounts performing in accordance with the contractual agreements with the borrowers while the NWDT-SACCOs had 84.46% of the loan accounts performing in accordance with the contractual agreements.

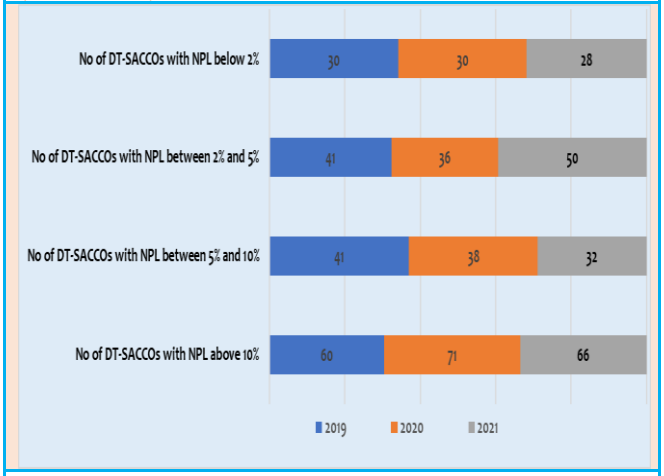

Table 27: Risk Classification of Loans & Assets

Classification Of Loans	Provisioning Rate	GROSS LOANS (KSHS BILLIONS)					% TO TOTAL GROSS LOANS		
		2019	2020	2021					
		DT-SACCOs	DT-SACCOs	DT-SACCOs	NWDT-SACCOs	TOTAL	DT-SACCOs	NWDT-SACCOs	TOTAL
Performing (as per contract)	1%	374.59	416.96	457.13	73.06	530.19	87.53%	84.46%	87.10%
Watch (1-30 days)	5%	19.16	17.96	18.85	4.98	23.83	3.61%	5.75%	3.91%
Substandard (31-180 days)	25%	12.08	15.73	17.76	3.47	21.23	3.40%	4.01%	3.49%
Doubtful (181-360 days)	50%	4.75	8.31	9.61	1.75	11.36	1.84%	2.02%	1.87%
Loss (Over 360 days)	100%	8.96	15.81	18.89	3.25	22.14	3.62%	3.76%	3.64%

Portfolio at Risk (NPL/Gross Loans)		**6.15%**	**8.39%**	**8.86%**	**9.78%**	**8.99%**			

Source: SASRA Database

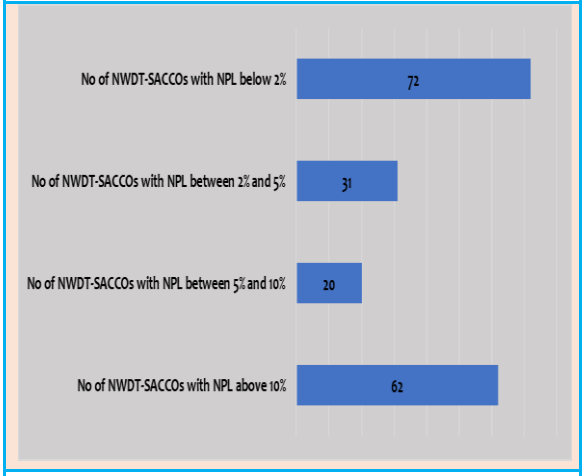

Figure 38 and **Figure 39** provides a summary of the distribution of the NPLs among the DT-SACCOs and the NWDT-SACCOs and shows that 28-DT-SACCOs and 72-NWDT-SACCOs had their respective NPLs below two percent (2%); while another 50-DT-SACCOs and 31-NWDT-SACCOs had their respective NPLs between 2% and 5%. However, a total of 98-DT-SACCOs and 82-NWDT-SACCOs had their NPLs above 5% and thus calls for urgent action to avoid these SACCOs incurring further losses in the form of provisioning.

Figure 39: Distribution of NPLs among the 185-NWDT-SACCOs in 2021

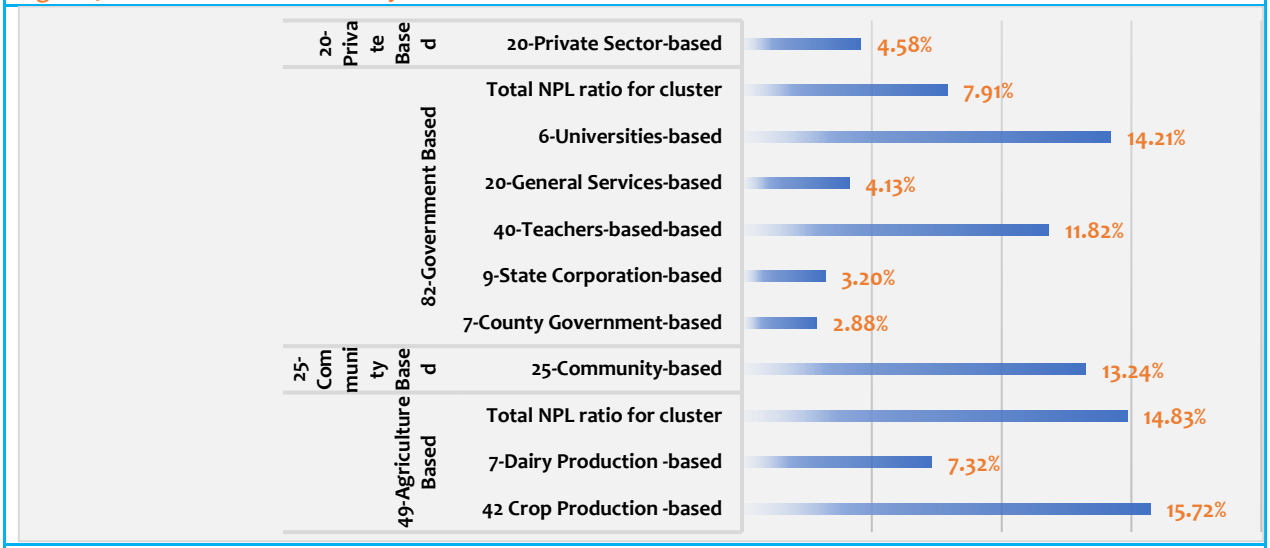

Source: SASRA Database.

6.3.6. Loan asset quality of SACCOs by field of membership (common bond) cluster

In terms of the quality of the loan asset of the DT-SACCOs by their respective field of membership clusters **Figure 40** shows that the 42-Crop Production-based agriculture DT-SACCOs had the worst NPL ratio at 15.72% in 2021 followed by the 40-Teachers-based Government DT-SACCOs whose NPL ratio stood at 14.21%. It is critical to observe that there was a spike in the increase of NPL ratio for Teachers-based DT-SACCOs from an NPL ratio of 4.48% recorded in 2020 to 14.21% in 2021, is explained by the one Teachers-based DT-SACCO whose NPL ratio spiked to over 78% in 2021 thereby increasing the clusters' overall NPL ratio. In the absence of the said DT-SACCO, the NPL ratio for Teachers' based DT-SACCOs drops to under 5% in 2021. On average however, the 20-Private Sector based DT-SACCOs had the lowest NPL ratio at 4.58% in 2021 followed by the 82-Government based DT-SACCOs whose NPL ratio was recorded at 7.91%.

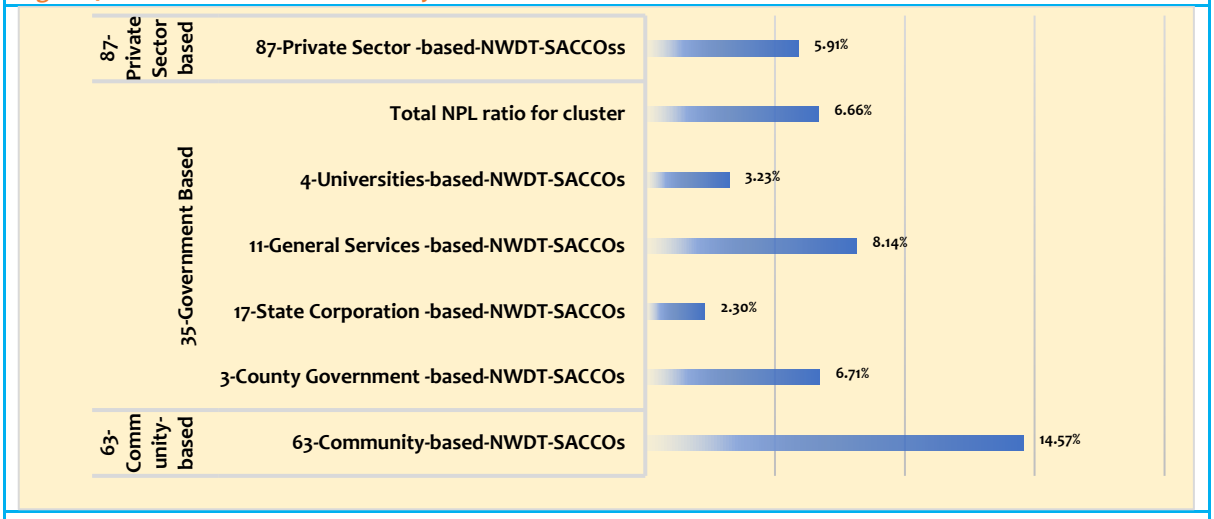

Figure 40: NPL ratio of DT-SACCOs by common bond cluster in 2021

Source: SASRA Database

The common bond clustering of NWDT-SACCOs on the other hand has only three (3) fields of membership as none of the NWDT-SACCOs is Agriculture-based. This leaves the main clustering to be *Government-based*, *Private sector based* and Community based. **Figure 41** provides the NPL ratios of the NWDT-SACCOs when clustered according to their common bond and shows that the 63-Communit-based NWDT-SACCOs had the highest NPL ratio at 14.57% while followed by the 35-Government based NWDT-SACCOs whose NPL ratio for the period ended December 2021 was 6.66%. Just like with their DT-SACCOs counterparts, the Private sector NWDT-SACCOs recorded the lowest NPL ratio in 2021. The low NPL ratio recorded by the Private sector-based DT-SACCOs and NWDT-SACCOs is attributed to the fact that a majority of these SACCOs still operate on closed bond memberships and that the private sector companies and entities from which they draw their membership have been diligent in the remittance of the loan repayment deductions on behalf of their employees. Indeed, as discussed elsewhere in this report, private sector companies and entities had the lowest non-remitted funds owed to the SACCO subsector.

Figure 41: NPL ratio of NWDT-SACCOs by common bond cluster in 2021

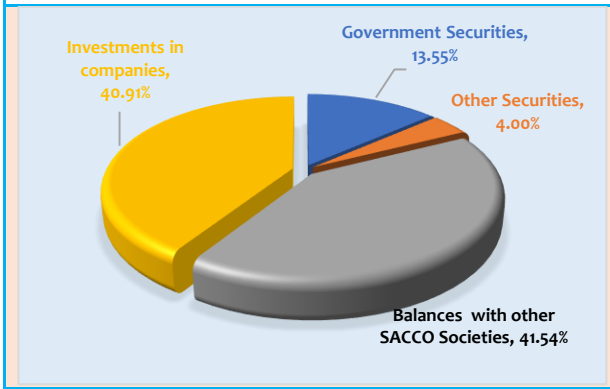

Source: SASRA Database

The distribution of the NPL ratio within the Government-based NWDT-SACCOs showed that NWDT-SACCOs drawing members from the Government general services and administration had the highest NPL ratio at 6.71% and was followed closely by the County Government based NWDT-SACCOs, the latter being attributed to the high proportion of non-remitted funds owed by various county governments to the SACCO subsector. The NWDT-SACCOs which draw their membership from state corporations or parastatals had the lowest NPL ratio in this cluster at just 2.30% cementing the consistency with which state corporations are honouring loan repayment deductions and remittances to SACCOs on behalf of their employees. A similar narrative cannot however be said of the Universities based SACCOs. While the NWDT-SACCOs which draw membership from the public universities had an NPL ratio at a respectful 3.23%, their DT-SACCO counterparts had an NPL ratio of 14.21% which is consistent with the findings elsewhere in the report that Public University and Tertiary Colleges are the greatest defaulters in remittances of deductions made from the salaries and wages of their employees on behalf of SACCOs.

6.3.7. Financial Investments

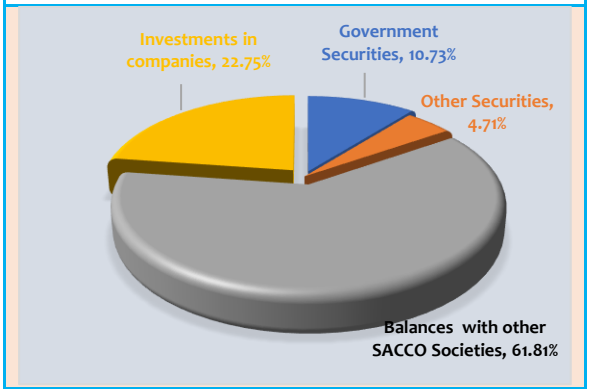

As already discussed hereinabove in **Table 25**, the financial investments of the SACCO subsector for the period ended December 2021 amounted to Kshs 50.29 billion composed of Kshs 39.61 billion being financial investments by DT-SACCOs and Kshs 10.69 billion being financial investments by NWDT-SACCOs. It is observable however that there was a sharp decline in the financial investments by DT-SACCOs which decreased from Kshs 56.86 billion recorded in 2020 to Kshs 39.61 billion recorded in 2021. **Figure 42** and **Figure 43** provides a summary of the composition of the financial investments in DT-SACCOs in comparison to NWDT-SACCOs respectively and shows that the greatest proportion of financial investments for both DT-SACCOs and NWDT-SACCOs was held in balances and placement in other SACCOs. Financial investments in government securities which are considered relatively risk free constituted 13.55% of DT-SACCOs' financial investments and 10.73% of the NWDT-SACCOs financial investments. Interestingly the investments in the shares and stock of companies constituted a very large proportion of DT-SACCOs financial investments when compared to 22.75% of the financial investments of NWDT-SACCOs which constituted investments in stocks and shares of other companies.

Figure 42: Proportional composition of Financial Investments in DT-SACCOs - 2021

Source: SASRA Database

Figure 43: Proportional composition of Financial Investments in NWDT-SACCOs - 2021

Source: SASRA Database

Despite the heavy investments by DT-SACCOs mainly in the shares and stocks of other companies as well as holding balances with other SACCOs, these investments have not translated into commensurate income as discussed in the elsewhere in this report, which showed that the income generated by DT-SACCOs from investments amounted to only 5.56% of their total income while the income generated by NWDT-SACCOs constituted 11.18% of their total income.

6.3.8. Investments in Property, Equipment and Other Assets

The provisions of *Reg. 48(1) of the Regulations 2010* provides that a DT-SACCO "*shall not invest in non-earning assets or property and equipment in excess of ten (10%) percent of the total assets, of which land and buildings shall not exceed five (5%) percent, unless a waiver to that effect has been obtained from the Authority*"; while *Reg. 46(1) of the Regulations 2020* provides that a NWDT-SACCO "*shall not invest in land and buildings; and equipment in excess of ten per cent of total assets, unless a waiver to that effect has been obtained from the Authority, provided that the: (a) investment in land and buildings shall not exceed five percent of the total assets; and (b) donated assets and foreclosed assets are excluded in arriving at this percentage*". The property, equipment and other assets investment portfolios are made up of investments in properties, prepaid lease rentals, intangible assets, property & equipment, and other assets; and they are generally considered as non-earning assets. **Table 28** provides a snapshot view of the composition of the investment in property, equipment and other assets of DT-SACCOs with investments in properties such as land accounting for over 42.89% while the investments in property and equipment constituted 40.31% thereof. **Table 29** on the other hand analyses the snapshot view of the composition of the investment in property, equipment, and other assets of NWDT-SACCOs and shows that the proportion of investments by NWDT-SACCOs in land amounted to a paltry 5.68% of the portfolio investments while the investments in property and equipment accounted for the highest proportion of the portfolio investment at a whopping 62.32%.

Table 28: Composition of investments in Property, Equipment & Other Assets of DT-SACCOs (2019 – 2021)

PARAMETER	Amount in Ksh. Billion		%age of Total PPE in 2020	Amount in Ksh. Billion	%age of Total PPE in 2021
	2019	2020		2021	
Investment Properties (land)	9.47	9.89	24.13%	22.06	42.89%
Property and Equipment	18.28	19.56	47.74%	20.73	40.31%
Prepaid lease rentals	1.58	1.54	3.77%	1.18	2.30%
Intangible Assets	2.05	2.24	5.46%	2.43	4.72%
Other Assets	15.86	7.74	18.89%	5.03	9.78%
TOTALS	**47.24**	**40.97**		**51.44**	

Source: SASRA Database

The low investments by NWDT-SACCOs in land is consistent with the fact that unlike their DT-SACCOs counterparts which have heavily invested in land and buildings, the NWDT-SACCOs generally operate in rented premises and very few have invested in any land or housings. It is however observable that during the year ended December 2021, the NWDT-SACCOs had a very high proportion of their assets classified as "*other assets*" which stood at 27.16% of the portfolio compared to just 9.78% which were classified as "*other assets*" by DT-SACCOs.

Table 29: Composition of investments in Property and Equipment for NWDT-SACCOs (2020 -2021)

PARAMETER	Amount in Ksh. Billion 2020	% age of Total PPE in 2020	Amount in Ksh. Billion 2021	% age of Total PPE in 2021
Investment Properties	0.19	5.88%	0.23	5.68%
Property and Equipment	2.20	68.58%	2.58	62.32%
Prepaid lease rentals	0.02	0.67%	0.07	1.70%
Intangible Assets	0.10	3.08%	0.13	3.13%
Other Assets	0.70	21.79%	1.12	27.16%
TOTALS	**3.20**		**4.13**	

Source: SASRA Database

The Authority thus calls upon the NWDT-SACCOs to take proactive measures aimed at reconciling these "other assets" and reduce the potential of fraudulent activities using these assets, as well as present their true, fair, and accurate financial position of their respective SACCOs. Similar call-up is also made to the DT-SACCOs which continued to classify a portion of their assets as others in their books of accounts.

6.4. THE EARNINGS OF THE SACCO SUBSECTOR

6.4.1. General Overview of Earnings of SACCOs

The Statement of Comprehensive Income is one of the off-site monitoring reporting tools on the performance of both the DT-SACCOs and NWDT-SACCOs. In respect of the DT-SACCOs, *Reg. 52 (1) of the Regulations 2010* provides that a DT-SACCO shall submit to the Authority by the 15th day of each month a return of the Statement of the income and expenditure … showing results of its operations for the preceding month. This return is submitted through the **Form 7** provided in the *Second Schedule* to the *Regulations, 2010*. In respect of NWDT-SACCOs, the provisions of *Reg. 50(1) of the Regulations 2020* provides that a NWDT-SACCOs "*shall submit to the Authority a return of the statement of comprehensive income … showing the results of its operations at the end of every quarter to be received on or before the fifteenth day of the following quarter as set out in format prescribed in the Second Schedule*". This return is submitted through the Form 2F provided in the Second Schedule to the Regulations, 2020.

Table 30 provides a pictorial snapshot of the various aspects of the income statement for the regulated SACCOs for the year 2020 as compared to the year 2021. The analysis shows that total income for the 361 regulated SACCOs grew from Kshs 97.33 billion in 2020 to Kshs 108.59 billion for the period ended December 2021 representing 11.58% growth in total income. The net income grew from Kshs 51.36 billion in 2020 to Kshs 58.38 billion in 2021. The net income in 2021 represented 53.76% compared to a proportion of 52.77% to the total income which constituted net income for the year 2020.

Table 30: Aggregated Statement of Comprehensive Income for DT-SACCOs and NWDT-SACCOs (2020 – 2021)

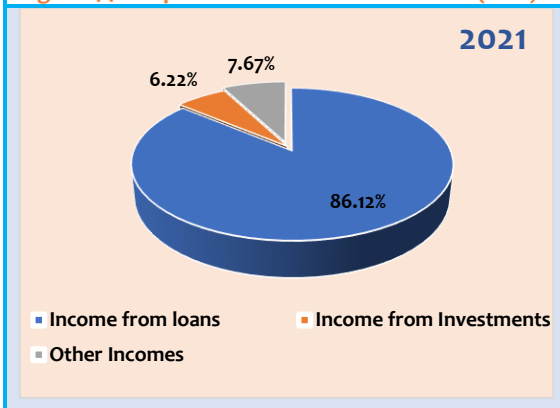

PERFORMANCE ITEM	2020		2021	
	Amount in Kshs. Billions	% To Total Income	Amount in Kshs. Billions	% To Total Income
Income from loans	83.76	86.07%	93.52	86.12%
Income from Investments	5.44	5.59%	6.75	6.22%
Other Incomes	8.12	8.35%	8.33	7.67%
Total Income	**97.33**		**108.59**	
Interest Expense on Deposits	37.28	38.31%	43.61	40.16%
Interest Expenses on External Borrowings	2.68	2.76%	3.24	2.98%
Other Financial Expense	3.27	3.36%	3.30	3.04%
Net Financial Income	**51.36**	**52.77%**	**58.38**	**53.76%**
Provision for Loan Losses	5.08	5.22%	10.60	9.77%
Operating Expenses	30.43	31.26%	34.94	32.17%
Net Income before Tax	**18.42**	**18.93%**	**13.78**	**12.69%**
Taxes and Donations	1.23	1.26%	1.62	1.49%
Net Income after Tax	**17.12**	**17.59%**	**12.16**	**11.20%**

Source: SASRA Database

The provisioning for loan losses substantially increased from Kshs 5.08 billion reported in 2020 to Kshs 10.60 billion in 2021 which shows that there was deterioration on the quality of loans which was mainly because of COVID– 19 pandemic, erratic weather patterns and non-remittance which affected repayment of loans. As already discussed in the prior sections of this report, the NPL ratio increased for the entire regulated SACCOs from 5.22% during the year 2020 to 9.77% in 2021. It is equally important to observe that the low NPL ratio which was reported in 2020 was also informed by the fact that the NWDT-SACCOs hardly made any provisions for the loan losses as they were not subjected to any prudential standards at the time. Following the rolling out of the Regulations 2020 effective January 2021, the NWDT-SACCOs were compelled to make adequate provisioning for their non-performing loan portfolios in accordance with the standards provided in the Regulations 2020.

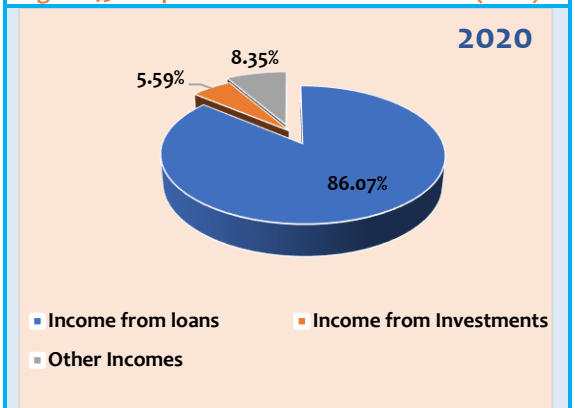

The income from loans constitutes the highest proportion of the total incomes at 86.12% which is a marginal increase from a proportion of 86.07% which constituted income from loans for the period ended December 2020 as summarized in Figure 44 and Figure 45. In this regard, SACCOs must continue taking adequate measures and policies to reduce risks associated with their credit portfolios since the same is the key source of their income. On the other hand, incomes from investment for the period ended December 2021 increased to 6.22% of the total income from 5.59% recorded the period ended December 2020. The proportion of income from other sources to total income however declined to 7.67% for the period ended December 2021 from a proportion of 8.35% reported for the period ended December 2020. Due to high provisions for loan losses in 2021 principally arising from the provisions by NWDT-SACCOs, the total net income before tax to total income declined from a high of 18.93% in 2020 to a low of 12.69% in 2021; while the net income after tax dropped from a high of 17.59% in 2020 to a low of 11.20% in 2021, further pulled down by the increase in taxation and donations which increased from a proportion of 1.26% in 2020 to a proportion of 1.49% to the total income.

Figure 44: Proportion of Income for SACCOs (2021)

Source: SASRA Database

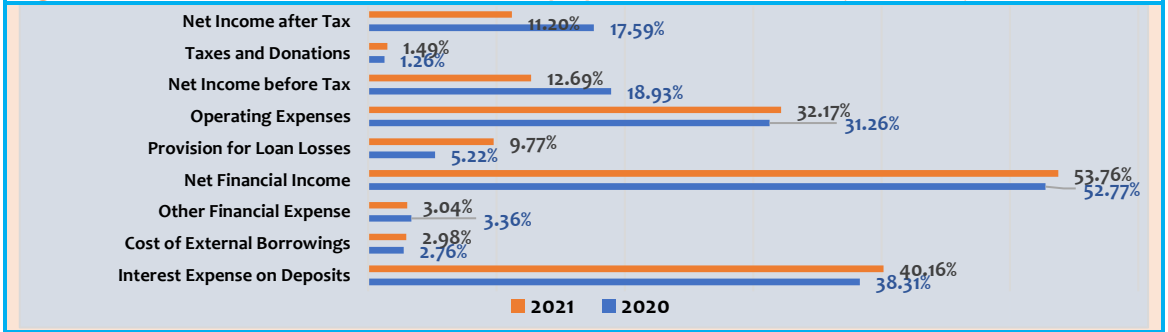

Figure 45: Proportion of Income for SACCOs (2020)

Source: SASRA Database

Figure 46 provides as summary of the proportion of selected items of the income statements and expenses to the total incomes for the period ended December 2020 and December 2021. The interest expenses on deposits to total income increased from 38.31% in 2020 to 40.16% in 2021 and is a demonstration that members of SACCOs across the country earned more on their deposits than in the previous year. Indeed, the interest paid on deposits by SACCOs is one of the comparative advantages which SACCOs have over other commercial deposit taking financial institutions where payment of interest on deposits is not always guaranteed. The interest expense on external borrowing to total income however increased from 2.76% in 2020 to a high of 2.98% in 2021 which shows that the SACCOs either increased their external borrowings or the cost of borrowings increased during the period.

Figure 46: Selected items of Income Statement as a proportion to total incomes (2020 – 2021)

Source: SASRA Database

6.4.2. Comparative view of Earnings of DT-SACCOs and NWDT-SACCOs

Table 31 and Table 32 provides a comparative view and snapshots of the statement of comprehensive incomes for DT-SACCOs on the one side and that of NWDT-SACCOs on the other hand respectively. The comparison shows that for the period ended December 2021 the proportion of income from loans to total incomes for DT-SACCOs was 86.01% while that of NWDT-SACCOs was 86.93% which is a confirmation that the main sources of incomes for both segments of SACCOs remains the loan portfolio. However, the DT-SACCOs had a relatively high proportion of non-funded incomes (other incomes) which stood at 8.43% against 1.89% for the NWDT-SACCOs, which is explainable by the fact that unlike NWDT-SACCOs, the DT-SACCOs also operate savings accounts from which they are able to charge transactional fees and commissions to boost their

sources of revenue. It is however interesting to note that during the same period the NWDT-SACCOs had a relatively high proportion of income from investments to the segment's total income which stood at 11.18% compared to that of DT-SACCOs which stood at 5.56% to the segment's total income.

Table 31: Comparative Statement of Comprehensive Income for DT-SACCOs (2019 to 2021)

PERFORMANCE ITEMS	2019	2020		2021		Y-to-Y Change (2020/21)

Source: SASRA Database

In terms of the proportional distribution of the total income realized for the period ended December 2021 of Kshs 108.59 billion within the two segments of the SACCO subsector, the analysis shows that the incomes generated by DT-SACCOs constituted the highest proportions of income. For instance, income from loans of DT-SACCOs accounted for 75.96% of the total income from the subsector while income from loans accounted for a paltry 10.16% of the total income earned in the sector. Figure 47 provides a summary of the proportionate distribution of the subsector's total income

Figure 47: Proportion of segmental incomes to total incomes (DT-SACCOs vs NWDT-SACCOs)

Source: SASRA Database

6.5. LIQUIDITY OF SACCOs

6.5.1. Overview of Liquidity of SACCOs

The key ratios used to measure, assess, monitor and report on the liquidity performance of SACCOs include the statutory liquidity ratio of liquid assets to saving deposits and other short-

term liabilities; and the external borrowing to total assets ratio (also known as external borrowing ratio); the liquid assets to total assets ratio; and the gross loans portfolio to total deposits ratio. The Sacco Societies Act and the Regulations made thereunder in particular recognizes the statutory liquidity ratio and the external borrowing ratio, while the other ratios are observed as a matter of international prudential standards and practices. In particular *Section 30(1) of the Act* provides inter alia that "*A Sacco society shall maintain such minimum holdings of liquid assets of its members' deposits and borrowings as may be prescribed*" while *Reg. 13 of the Regulations 2010* for DT-SACCOs prescribes that a DT-SACCO "*shall at all times maintain a minimum of fifteen (15%) percent of its savings deposits and short-term liabilities in liquid assets*".

In respect of the NWDT-SACCOs, *Reg. 14(3) of the Regulations 2020* states that a NWDT-SACCO "*shall maintain a liquidity ratio of not less than ten per cent of the Sacco society's non-withdrawable deposits and short-term liabilities in liquid assets*". Liquid assets in both instances are defined to include notes and coins; balances at institutions licensed under the Act or Banking Act after deducting balances owed to those institutions; government securities; deposits held at other Sacco societies of a maturity not exceeding ninety-one days after deducting balances owed to those Sacco societies; value of balances in electronic transfer systems; and such other liquid assets as the Authority may specify. With regard to external borrowing ratio for DT-SACCOs, *Reg. 35(1) of the Regulations, 2010* provides that a DT-SACCO "*shall not acquire external borrowings in excess of twenty-five percent (25%) of its total assets unless the limit has been waived by the Authority*"; while with regard to NWDT-SACCOs, *Reg. 35(1) of Regulations 2020* provides that a NWDT-SACCO "*shall not borrow externally in excess of twenty-five per cent (25%) of its total assets without the written permission of the Authority*."

6.5.2. Statutory Liquidity Ratio

Table 33 and **Table 34** provides the snapshot view of the liquidity position of DT-SACCOs and NWDT-SACCOs respectively for the period ended December 2021. The analysis in the table shows that on average both the DT-SACCOs and the NWDT-SACCOs maintained their liquidity positions above the statutorily prescribed minimum of 15% for DT-SACCOs and 10% for the NWDT-SACCOs. The DT-SACCOs had their liquidity ratio at 55.34% in 2021 which is an improvement from a ratio of 48.50% in 2020 against the prescribed minimum of 15% implying that in the overall, the DT-SACCO segment remained sufficiently liquid to their short-term liabilities and obligations. The NWDT-SACCOs on the other hand maintained their liquidity ratio at 19.87% during the first year of prudential supervision in 2021 which is above the statutory minimum of 10% and thus also affirms their ability to meet their respective short-term obligations and liabilities.

Table 33: Comparative aggregate level of compliance with financial liquidity ratios by DT-SACCOs - 2021

LIQUIDITY RATIO	Prescribed Minimum	2019	2020	2021
Liquid Assets/Savings Deposits and STLs	>=15%	50.92%	48.50%	55.34%
Liquid Assets/Total Deposits		17.00%	20.99%	21.79%
External Borrowings/Total Assets	<=25%	3.88%	3.67%	3.61%
Liquid Assets/Total Assets		11.62%	14.43%	14.96%
Gross loans /Total Assets		75.36%	75.64%	75.57%
Gross Loans/Total Deposits		110.28%	110.04%	110.12%

Table 34: Comparative aggregate level of compliance with financial liquidity ratios by NWDT-SACCOs - 2021

LIQUIDITY RATIO	Prescribed Minimum	2020	2021
Liquid Assets/Short-term Liabilities	>10%	18.93%	19.87%
Liquid Assets/Total Deposits		21.29%	22.24%
External Borrowing/Total Assets	<25%	2.32%	1.64%
Liquid Assets/Total Assets		9.41%	10.70%
Gross loans /Total Assets		75.35%	74.56%
Gross loans/Deposits		96.72%	95.43%

Source: SASRA Database

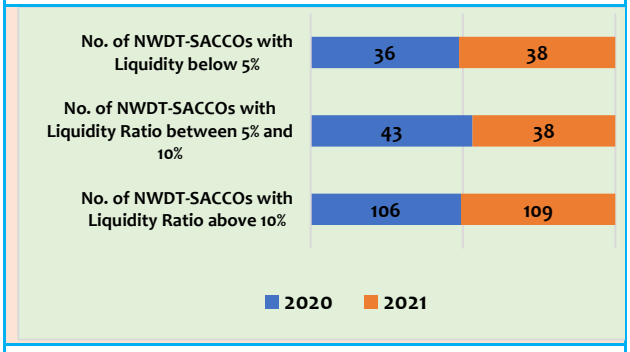

In terms of individual SACCO performance, a majority of the SACCOs operated over and above the statutory minimum ratio as depicted in Figure 48 for DT-SACCOs and Figure 49 for the NWDT-SACCOs. Regarding the DT-SACCOs segment, a total of 169-DT-SACCOs maintained their respective liquidity ratios above the minimum of 15% with the remaining 7-DT-SACCOs having a liquidity ratio of between 5% and 15%, and unlike the year 2020, there was no DT-SACCO with a liquidity ratio below 5% threshold. Regarding the NWDT-SACCOs segment whose first year of prudential supervision was 2021, a total of 109-NWDT-SACCOs had their liquidity ratio above the minimum threshold of 10%, with another 38-NWDT-SACCOs having their liquidity ratio between 5% and 10%. The remaining 38-NWDT-SACCOs had a liquidity ratio of below 5% and thus calls for tightening of their liquidity management in the short to medium term to avoid default in their short-term obligations.

6.5.3. External Borrowing Ratio

The external borrowing ratio measures the level at which a SACCO Society funds its assets from externally borrowed funds and is computed at the ratio of external borrowing to the total assets. The external borrowing ratio is a key financial stability measurement tool given that externally borrowed funds are often quite expensive and subject to the vagaries changes in interest rates. As shown in Table 33 and Table 34 hereinabove, the average external borrowing ratio for DT-SACCOs during the year ended December 2021 stood at 3.61% which is a decline from a ratio of 3.67% recorded in the year 2020, both of which are below the prescribed maximum ratio of 25%. Similarly, the external borrowing ratio for NWDT-SACCOs segment dropped from a high of 2.32% recorded in 2020 to a low of 1.64% recorded in 2021. The foregoing decline analysis of external borrowing ratio in the subsector shows that more and more SACCOs are funding their assets from internally generated funds as opposed to externally sourced funds which are often quite expensive and subject to the external economic shocks.

Figure 50 and Figure 51 provides the individual level of compliance by DT-SACCOs and NWDT-SACCOs to the external borrowing ratio and shows that for the period ended December 2020, a majority of SACCOs were indeed funding their operations from internally generated funds with a total of 92-DT-SACCOs and 148-NWDT-SACCOs having absolutely no external borrowing in their funding sources which is greatly commendable, even though these represented a drop from the 95-DT-SACCOs and 151-NWDT-SACCOs which had no external borrowing during the period ended December 2021. Only five (5) DT-SACCOs and two (2) NWDT-SACCOs had their respective external borrowing ratio above the prescribed maximum threshold of 25% for the period ended December 2021, which is a marginal improvement from the seven (7) DT-SACCOs which exceeded the prescribed borrowing limits in 2020 while the

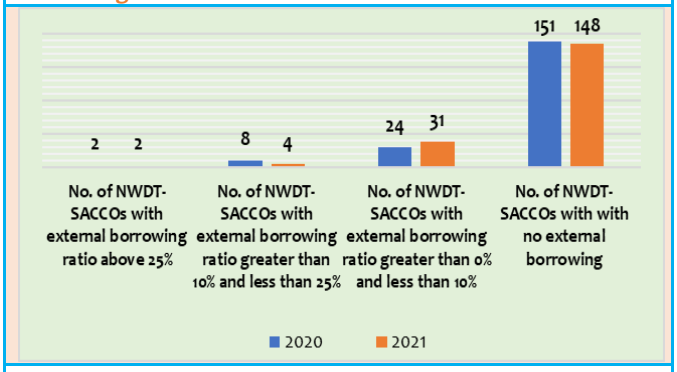

number of NWDT-SACCOs which exceeded the prescribed limits remained at two (2) for the second consecutive year in 2021. It is important to note that appropriate supervisory interventions have been instituted in respect of the SACCOs which are operating in violation of the prescribed maximum borrowing limits with a view to rectifying the situations. At the same time, it is observable that the number of DT-SACCOs with external borrowing ratio of not more than 10% increased to 61-DT-SACCOs in 2021 compared to 48-DT-SACCOs in 2020 which had a similar range of external borrowing ratio thereby implying that more and more DT-SACCOs are shedding-off their external loans in favour of internally generated funds. Similar trend analysis can also be seen among the NWDT-SACCOs segment.

Figure 50: No. of DT-SACCOs complying with the external borrowing ratio

Source: SASRA Database

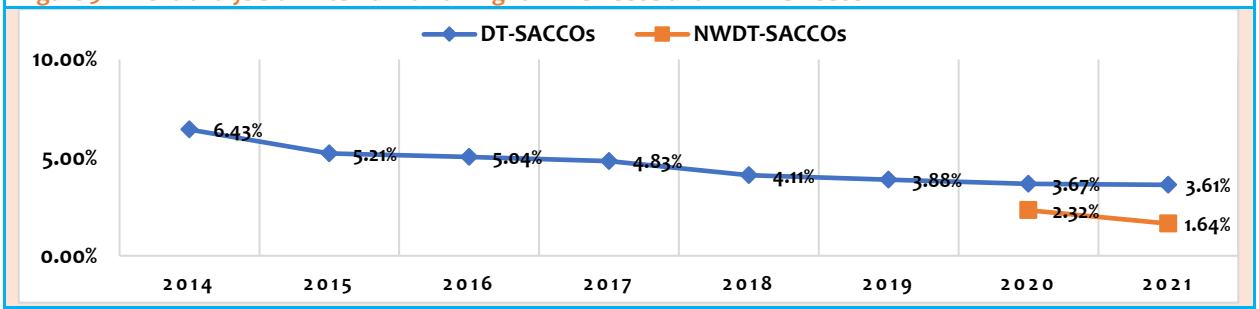

Figure 51: No. of NWDT-SACCOs complying with the external borrowing ratio

Source: SASRA Database

Figure 52 provides a trend analysis of the external borrowing ratio of DT-SACCOs and NWDT-SACCOs over the years particularly for DT-SACCOs. The trend depicts that the external borrowing ratio continues to decline from a high of 6.43% in 2014 to a low of 3.61% in 2021 for the DT-SACCOs; while for the NWDT-SACCOs the trend shows 2.32% recorded in 2020 to 1.64% recorded in 2021 in as much as this segment of SACCOs are only in their first year of prudential supervision.

Figure 52: Trend analysis of External Borrowing for DT-SACCOs and NWDT-SACCOs.

Source: SASRA Database

The statutory liquidity which is defined as the ratio of liquid assets to savings deposits and other short-term liabilities increased to 55.34% in 2021 compared to 48.50% recorded in 2020 against the prescribed minimum ratio of 15%. The asset quality principally measured by the ratio of non-performing loans to the gross loans (NPL ratio) which monitors and reports on the quality of loans marginally increased to 8.86% in 2021 from 8.42% recorded in 2020.

7.0. OTHER OPERATIONS AND ACTIVITIES SACCO SOCIETIES

7.1. THE NON-REMITTANCES QUESTION

Section 35(1) of the Cooperative Societies Act provides inter alia that "*Where an employer of a person who is a member of a co-operative society, has under instructions of the employee, made a deduction from such employee's emoluments for remittance to the co-operative society concerned but fails to remit the deductions within seven days after the date upon which the deduction was made, the employer shall be liable to pay the sum deducted together with compound interest thereon at the rate of not less than five percent per month*." And an employer has been defined in the *Cooperative Societies Act* as including "*any person, firm or organization holding remuneration or payment for produce of a member of a co-operative society and the term "employee*" includes any person who receives remuneration or payment for produce from such persons or firm or organization".

It is on the basis of these provisions of the law that financial cooperatives in Kenya, mainly SACCOs, housing and Investment Cooperatives have operated the concept of remittances of deductions in which the Cooperative, the member and such an employer enters into a tripartite agreement, in which the employer is then contractually obligated to deduct and remit to the Cooperative. In this traditional business model, members of SACCOs must first issue instructions to their respective employer-institutions to directly make the agreed periodic deductions from their salaries or other incomes; and to remit the deducted amount directly to that member's respective SACCO Society or Co-operative.

The deductions and remittances are usually two-fold. Firstly, are the deductions meant to build the members' non-withdraw-able deposits (popularly known as the BOSA deposits). These are the deposits which the member may utilize as collateral to obtain credit facilities from the SACCO, and while the same may earn interest, the BOSA deposits are only refundable upon the members' resignation from the membership of the SACCO. Secondly, are the deductions and remittances meant to periodically repay any loan or credit facilities that the member may have obtained from the SACCO (also known as the loan repayment deductions). Although Section 35(1) of the Co-operative Societies Act requires employers who make any deductions from the employees' emoluments to remit the deductions to the beneficiary Co-operative Society within seven (7) of such deductions, an analysis of the annual operations of SACCOs shows that several employer-institutions have failed or neglected to remit the deductions made within the prescribed time and in some cases for an unreasonably long period of time. The amounts of money owed to SACCOs as non-remitted deductions for the period ended December 2021 is summarized in Table 35.

Table 35: The distribution of the non-remitted deduction among cluster of Employer-Institutions as at September 2021

	CLUSTER OF EMPLOYERS – INSTITUTIONS	2020 (DT-SACCOs ONLY)	2021			% TO TOTALS (2021)

Source: SASRA Database

The analysis in **Table 35** shows that the SACCO subsector was owed a total of Kshs 3.40 billion for the period ended December 2021 composed of Kshs 2.16 billion being non-remitted loan deductions constituting 63.34% of the total non-remitted funds; and Kshs 1.25 billion being non-remitted BOSA deductions constituting 36.76% of the total non-remitted funds. The DT-SACCOs were owed the highest proportion of non-remitted funds amounting to Kshs 3.01 billion; while the NWDT-SACCOs were owed a cumulative sum of Kshs 0.39 billion for the period ended December 2021.

Despite the total non-remitted funds having substantially reduced from Kshs 5.05 billion recorded as not remitted for the year 2020 to Kshs 3.40 billion in 2021, the outstanding amounts of money are still very high and continues to have negative impacts on the financial performance and stability of SACCOs. The reduction of the non-remitted funds is however evidence that the government's efforts to reduce the menace through *Presidential Circular No. OP/CAB 1A dated 11th November 2019* directing that "*all MDAs in the National Government including Universities, Judiciary, Parliament, Independent offices and commissions shall ensure that financial obligations such as PAYE, pensions, SACCO deductions…are budgeted for and paid in compliance with the statutory timelines…*", are bearing fruits albeit at a very slow pace. The Authority on its part had also issued *General Advisory Note on Non-Remitted Deductions Due to SACCOs from Various Employer-Institutions – Circular No. SASRA/800/2/2019 dated 11th June 2019*, providing an in-depth internal administrative measure for SACCOs to adopt and implement, as way and means of reducing incidences of non-remitted funds especially from the perennial defaulters such as the public university institutions.

Table 36 provides a summary of the distribution of the non-remitted funds between the loan repayments and BOSA deductions and shows that the total non-remitted loan repayment deductions amounted to Kshs 2.16 billion, with those owed to DT-SACCOs amounting Kshs 1.84 billion while those owed to the NWDT-SACCOs amounted to 0.31 billion. The total amount of non-remitted funds in respect of the BOSA deductions amounted to Kshs 1.2 billion with the amount owed to DT-SACCOs being Kshs 1.18 billion while the amount owed to NWDT-SACCOs amounted to 0.075 billion during the period ended December 2021.

7.2. MEMBERS' PROTECTIONS AND COMPLAINTS RESOLUTIONS

The provision of financial services in a very dynamic, competitive and digital driven market dictates that SACCOs as financial services providers must quickly adapt to the new ways of service provision and delivery if they are to remain competitive, retain their members or customers, and attract new ones. One of the emergent issues in the financial services provision and delivery is consumer protection and fair treatment of customers (members). There is a bouquet of business-driven principles and practices aimed at ensuring the financial services providers protect the rights of their clients. Some of these principles and practices were embodied in the Regulations 2020 for application by NWDT-SACCOs in **Part XII** thereto, and includes –

(a) Non-discrimination in accessing financial services and products, and accordingly all members equal opportunities for such access.
(b) Adequate disclosures in operating the opening and operating the non-withdrawable deposits accounts including all the terms and conditions applicable thereto.
(c) Confidentiality of members personal accounts and transactions, including prohibition of disclosure of members' personal information and transactions except as provided in law.
(d) Fair and accurate advertisements of financial products and services, which are both accurate and not misleading or misrepresentative in nature.
(e) Fair debt collection practices including prohibition against use of obscene or profane language by debt collectors, as well as limitation of recovery of debt to the amount prescribed in the loan agreement among others; and
(f) Mandatory institution of complaint's handling procedures including dedicated officers to handle members' complaints, maintenance of complaints registers, as well as complaints' resolution mechanisms through alternative dispute mechanisms, referrals among others.

Although meant for NWDT-SACCOs, the DT-SACCOs are encouraged to adopt and apply some of these principles and practices in their transactional relationships with their members, and as part of its supervisory processes, the Authority places emphasis on a prompt, efficient and friendly resolution of complaints and general

inquiries raised by members of SACCOs and the public in general, particularly in respect of the financial services and operational activities. Indeed, complaints trend analysis is one of the most important off-site analysis and monitoring tools used to detect nascent problems in SACCOs. Table 37 provides a summary of the complaints received and resolved by the Authority relating to DT-SACCOs and NWDT-SACCOs.

Table 37: Complaints received and processed relating to SACCOs (2019 – 2021)

	Nature of complaint	2019	2020			% To all Complaints	2021			% To all Complaints

Source: SASRA Database

For the third year running the largest proportion of complaints related to members who were seeking a refund of their savings and deposits or transfer of shares. In particular, the Regulations 2010 for DT-SACCOs as well as the Regulations 2020 for NWDT-SACCOs provides that a SACCO shall refund a member the savings or deposits (less any outstanding dues owed to the SACCO Society) within sixty (60) days after the member has served the SACCO with a notice of withdrawal. The complaints analysis however shows that these legal provisions are never honoured by the SACCOs in respect of which the complaints relate, as evidenced by the fact that out of all the complaints received and processed by the Authority in 2021, a proportion of 55.76% of them related to claims for refunds and savings by members; compared to a proportion of 41.84% of the complaints that related to claims for refunds and savings by members which were received and processed by the Authority in 2020. The main reason for delayed settlement of claims for refund of savings and deposits of members within the prescribed time, is perennial liquidity challenges. SACCOs are thus called upon to ensure that they have adequate liquidity management plans that caters for the unexpected applications by members for refund of their savings and deposits to avoid the backlashes and supervisory enforcement actions associated with failure to make timely refunds of savings and deposits. Indeed, delayed refund of savings and deposits to members exiting SACCOs can trigger a liquidity run-in by other members.

7.3. CREDIT INFORMATION SHARING

Credit information sharing entails providing of both positive and negative credit history for individuals and entities to the licensed Credit Reference Bureaus. The information provided to the Credit Reference Bureaus is synthesized into credit report scores to assess an individuals' or entity's credit worthiness. *Credit Reference Bureau (CRB) Regulations, 2020* provides for the manner in which credit information is shared amongst and between financial service institutions in Kenya. The regulations acknowledge SACCOs licensed under the *Sacco Societies Act* as subscribers to the CRBs without prior approval of the CBK. However, the partnerships and agreements between the regulated SACCOs and the CRBs are on a voluntary basis and the analysis shows that some of the regulated SACCOs are yet to embrace the credit information sharing practice.

Table 38 provides a summary of the number of SACCOs which submits credit information to the licensed CRBs and shows that there was an increase in the number of SACCOs subscribing to CRBs from 159 DT-SACCOs in 2020 to 168-DT SACCOs in 2021. Among the NWDT-SACCOs a total of 93-NWDT-SACCOs had subscribed to submit credit information to at least one or more of the licensed CRBs at the close of 2021. The summary therefore shows that whereas a majority of DT-SACCOs have embraced the use of credit information in managing their credit risks, a large proportion of the NWDT-SACCOs are yet to embrace the usage of credit information.

Table 38: Distribution of DT-SACCOs voluntarily partnering with CRBs 2021

Source: SASRA Database *Data is for DT-SACCOs only. NWDT-SACCOs were on boarded in the year 2021

According to the *Bank Supervision Report 2021*, credit information from DT-SACCOs formed the highest number of third-party data sources to the CRBs in 2021 but there is no data to show the number of credit reports requested by SACCOs from the CRBs. Thus, whereas credit information sharing is slowly taking root within the SACCO subsector, its importance as a credit pricing tool for loan facilities advanced by SACCOs is yet to be fully unpacked. In equal measure, the place of credit information sharing as a tool for controlling over-indebtedness in the SACCO subsector will continue to remain a grey area, unless SACCOs by themselves start requesting for credit reports from CRBs during appraisal of credit worthiness of their members. Thus, it is speculated that SACCOs are usually quick to submit credit information of their members to the CRBs as a debt collection tool as opposed to requesting credit reports to appraise their borrowers.

7.4. AUTOMATED TELLER MACHINE (ATM) CONNECTIVITY OF DT-SACCOs

Automated Teller Machines are alternative delivery channels that are provided by financial institutions for operational efficiency and customer convenience. However, since SACCOs cannot directly access the national payment system, they are unable to provide ATM services without partnering with the commercial banks. In this partnership SACCOs are required to open settlement accounts with commercial banks where their interbank transactions are settled through, on behalf of their members. During the year 2021 the number of DT-SACCOs that were connected to ATMs services remained the same as 2020. One SACCO however acquired its own internal ATM to offer financial services to its members, instead of the physical tellers. However, such internally owned ATMs offered by SACCOs are limited to internal transactions only as they are not connected to local or global payment networks, and thus the SACCOs with own ATM have also partnered with commercial banks for the same services. Table 39 provides a summary of the number of DT-SACCOs that have entered into arrangements with commercial banks to enable their members access ATM services.

Table 39: Number of DT-SACCOs accessing ATM services, 2021

ATM PROVIDER	CO-OP BANK		NOT CONNECTED		ABC BANK		SPIRE BANK		GRAND TOTAL

Cooperative bank through the brand name SACCO link remains the preferred service provider to DT-SACCOs in enabling their members access ATM services. During the year under review, the number of DT-SACCOs providing automated tellers access through SACCO link remained unchanged at 113-DT-SACCOs. This underscores the significant role that the Cooperative Bank plays in this sphere. However, while the number of DT-SACCOs that have not entered arrangements with commercial banks to enable their members access ATM has reduced to 59-DT-SACCOs, this is still a high number given the ease of access and convenience that the use of ATM offers to members.

7.5. AGENCY BANKING ACTIVITIES FOR COMMERCIAL BANKS

During the year 2021 SACCOs continued to provide agency banking services for commercial banking institutions through individual approvals granted by the Authority. The main agency banking services offered by SACCOs as agents of commercial banks include withdrawals, deposits, statements, and other enquiries. The number of approved DT-SACCOs allowed to provide agency banking for commercial banks remained 65-DT-SACCOs in 2021. However, NWDT-SACCOs have equally ventured in the business of providing agency banking services on behalf of commercial banks, principally as a means of generating alternative revenue streams. During the year 2021, the Authority approved a total of 13-NWDT-SACCOs to provide agency banking services on behalf of Equity Bank, Cooperative Bank and KCB Bank Ltd. Table 40 provides a summary of the distribution of SACCOs approved by the Authority to provide agency banking services to various commercial banking institutions.

Table 40: Number of DT-SACCOs providing agency banking services

7.6. CHEQUE PARTNERSHIPS WITH COMMERCIAL BANKS

Usage of cheque as a payment mode is still one of the popular payment methods despite the introduction of digital payment systems such as the *Real Time Gross Settlement (RTGS)* in the financial sector. SACCOs are not legally authorized to issue third-party cheques in their own names since they are not members of the cheque clearance and settlement system in the country which is only done by the commercial banks. DT-SACCO's have over the years partnered with commercial banks to offer the cheques to their members. Table 41 indicates that 82-DT-SACCOs partnered with commercial banks for the provision of cheque services to their members in 2021, which an increase from 79-DT-SACCOs reported in 2020. Co-operative bank has been the most preferred partner for DT-SACCO's with 60 SACCOs comprising of 73% of the total cheque partnership with commercial banks.

CHAPTER III

DEVELOPMENTS IN THE SACCO SUBSECTOR IN 2021

8.0. LEGAL AND REGULATORY DEVELOPMENTS

8.1. DESIGNATION OF THE AUTHORITY AS A SUPERVISORY BODY

Recognizing that SACCOs are reporting institutions for purposes of the *Proceeds of Crime and Anti-Money Laundering Act No. 9 of 2009 (POCAMLA)*, Parliament enacted the *Proceeds of Crime and Anti-Money Laundering (Amendment) Act No. 16 of 2021* which had the effect of inter alia designating the Authority as one of the Supervisory bodies in the *First Schedule* for purposes of the POCAMLA. As a Supervisory body, the Authority and its staff owes an obligation to the Financial Reporting Centre (FRC) in accordance with *Section 36 of the POCAMLA* to report to the FRC any suspicious transaction that the supervisory body or its staff may encounter during the normal course of the Authority's supervision and regulation of SACCOs. It is important to note that it is an offence punishable by criminal prosecution for an employee of a supervisory body (Authority) to deliberately or with intention to deceive, fail to make a report to FRC.

In addition, the Authority as a supervisory body has the responsibilities bestowed upon it by *Section 36A of POCAMLA* including being responsible for supervising and enforcing compliance with POCAMLA or any instruction, direction, guideline, or rule made pursuant to or in terms of POCAMLA by all reporting institutions regulated or supervised by it namely SACCOs. In this regard, it is important that for SACCOs as reporting institutions to familiarize themselves with the provisions and requirements of POCAMLA and the regulations made thereunder, to ensure and maintain full compliance therewith.

8.2. COMMENCEMENT OF REGULATIONS 2020 FOR SPECIFIED NON-DEPOSIT TAKING BUSINESS

The Authority commenced the implementation of the *Regulations 2020* for NWDT-SACCOs which took effect on 1st January 2021 and NWDT-SACCOs had a period of six (6) months to comply therewith. By the close the year 2021, the Authority had received, analyzed and processed a total of 199 applications for SACCOs seeking to undertake the specified non-deposit taking business out of which the 185 applications were successful, and their performance and other trend analysis are reported in Chapter II of this report.

It is important to emphasize that the specified non-deposit taking business is composed of-

(a) non-deposit taking business in which the total non-withdrawable deposits from members is equal to or exceeds the sum of one hundred million shillings;

(b) non-deposit taking business in which the SACCOs mobilizes membership and subscription to its share capital through digital or other electronic payment platforms (popularly known as virtual SACCOs); or

(c) non-deposit taking business in which the SACCOs mobilizes membership and subscription to its share capital from persons who are ordinarily resident outside the country (popularly known as diaspora SACCOs).

8.3. THE BRIBERY REGULATIONS, 2021

The Attorney-General in consultation with the Ethics and Anti-Corruption Commission (EACC) published the *Bribery Regulations 2021 vide Legal Notice No. 237 dated 26th November 2021*. These regulations are meant to facilitate the implementation of the *Bribery Act No. 47 of 2016* which took effect on 13th January 2017 and is a statute designed to provide for the prevention, investigation and punishment of bribery and other corrupt practices both in the public and private sectors.

As reported in the *Annual SACCO Supervision Report, 2016*, the Bribery Act 2016 applies to all Cooperatives including SACCOs, which have been clustered as private entities and their respective officers. In particular, *Part III of the Bribery Act, 2016* requires every private entity, such as SACCOs to put in place procedures for prevention of bribery and corruption. Failure to put in place such procedures, with the consent or connivance of the officers of the entity may result into prosecution. The part equally makes private entities criminally liable for acts of bribery and corruption committed by their associates such as agents, employees, or in any other capacity so long as the bribery or corruption was intended to benefit the private entity, or enable the private entity to obtain advantage in its business.

The *Bribery Regulations, 2021* are thus meant to provide a detailed framework for the implementation of the provisions of the *Bribery Act 2016* and provides for the mechanisms for the private entities including SACCOs to establish their internal procedures for prevention of bribery and corruption. It also provides a framework for private entities including SACCOs to establish the mechanisms for reporting acts of bribery and corruption, including protection of informants, whistle-blowers, and witnesses. SACCOs are thus reminded to take keen note of the provisions of both the *Bribery Act 2016* and the mechanisms provided in the regulations made thereunder to facilitate its implementation.

8.4. THE DATA PROTECTION REGULATIONS, 2021

During the year 2021, the Cabinet Secretary for Information, Communication, Technology, Innovation and Youth Affairs pursuant to *Section 71 of the Data Protection Act* promulgated three (3) critical regulations which are meant to operationalize the Data Protection Act namely – *(a) The Data Protection (General) Regulations, 2021 vide Legal Notice No. 263 of 2021; (b) The Data Protection (Complaints Handling and Enforcement Procedures) Regulations, 2021 vide Legal Notice No. 264 of 2021;* and *(c) The Data Protection (Registration of Data Controllers and Data Processors) Regulations, 2021 vide Legal Notice No. 265 of 2021*.

As reported in the *Annual SACCO Supervision Report, 2019*, Parliament passed the *Data Protection Act No. 24 of 2019* which was assented to by the President on 8th November 2019, with the commencement date being 25th November, 2019. The *Data Protection Act, 2019* is an Act of Parliament to among other things make provision for "*the regulation of the processing of personal data; to provide for the rights of data subjects and obligations of data controllers and processors*." It also gives effect to and is made to fulfil the requirements of *Article 31(c) and (d) of the Constitution of Kenya, 2010* which provides inter alia that "*every person has the right to privacy, which includes the right not to have – (c) information relating to family and private affairs unnecessarily required or revealed; or (d) the privacy of their communications infringed*".

The *Data Protection Act* applies to the processing of personal data by data controllers and data processors; and creates the office of the Data Protection Commissioner as an office in the public

service, whose duty and role shall be the registration of data controllers and data processors, as well as oversee the overall implementation of the *Data Protection Act* on behalf of the Government. The *Data Protection Act* equally sets down the principles and obligations of personal data protection; establishes the rights of data subject; and sets out punitive measures for its violations or breach.

The wide definition of data controllers as any person, public authority, agency, or body which determines the purpose and means of processing personal data; and of data processors as any person, public authority, agency, or body which processes personal data on behalf of a data controller; means that SACCOs which often collect members' personal data for purposes of provision of services and other decision making are potential data controllers or processors or both. Consequently, it is imperative that SACCOs and their officers get acquainted with the provisions of the *Data Protection Act*.

8.5. LEGAL AND REGULATORY FRAMEWORK FOR DIGITAL CREDIT PROVIDERS IN KENYA

During the year 2021, Parliament enacted the *Central Bank of Kenya (Amendment) Act No. 16 of 2021* which provided a comprehensive legal and regulatory framework for Digital Credit Providers in Kenya, which had the effect of bringing all the Digital Credit Providers under the supervisory oversight of the Central Bank of Kenya. The new framework defines a Digital Credit Providers as a person licensed by the CBK to carry out digital credit business, while digital credit business is defined to mean the business of providing credit facilities or loan services through a digital channel. A digital channel on the other hand is defined to mean the internet mobile devices, computer devices, applications and any other digital systems as may be prescribed by the CBK.

Consequently, and by implication, any person who provides credit facilities or loan services using the internet mobile devices, computer devices, applications must be licensed by the CBK. However, SACCOs providing credit facilities and loan services using the said digital channels are not affected by this legislation given that they are already regulated under the Sacco Societies Act.

In this respect *Section 4A (da) of the Central Bank of Kenya Act* as amended is instructive because it empowers CBK to license and supervise digital credit providers "*not regulated under any other written law*". The fact that SACCOs are already regulated under the *Sacco Societies Act* therefore exempts them from the application of the amendment. Indeed *Reg. 4 of the Regulations 2020* made thereunder designates all SACCOs undertaking their businesses using digital or electronic channels as specified non-deposit taking business and are thus mandatorily regulated by the Authority under the Regulations, 2020.

The new framework took effect on 23rd December 2021 and the CBK is required to make regulations to give it effect within three (3) months of the effective date. It is expected that upon full roll out, there shall be no entity or person providing credit facilities and loan services without being subjected to financial supervision and regulatory oversight, especially by the Authority for SACCOs and the CBK for any other person or entity.

9.0. POLICY DEVELOPMENTS

9.1. THE DRAFT COOPERATIVE BILL

As reported in the *Annual SACCO Supervision Report 2020*, the *Cabinet Secretary for Agriculture, Livestock Development, Fisheries and Cooperatives* constituted a *National Co-operative Policy Operationalization Taskforce* to oversee the operationalization of the Policy vide the *Kenya Gazette Notice No. 10699 dated 18th December 2020*. The Taskforce whose membership was drawn from various institutions within the SACCO subsector, had as its terms of reference as initiating and developing a framework for; Implementation of the National Co-operative Policy Interventions; Review of the Co-operative Legislation; Co-operative Institutional Reforms; and Co-operative Capacity Building. As part of its reports the Taskforce developed a *draft Cooperative Bill* which was subjected to regional stakeholders' consultations during the year 2021 culminating to a validation workshop in November 2021.

The *draft Cooperative Bill* is aimed at implementing the National Cooperative Policy, 2019 which was adopted by the National Assembly as a Sessional Paper. The draft Cooperative Bill thus seeks to among others repeal the Cooperative Societies Act which has been in existence since 1997 albeit with various amendments thereto. The *draft Cooperative Bill* equally aligns the promotion, development, supervision, and regulation of the Cooperative sector with the *Constitution of Kenya 2010*, with specific reference to the Fourth Schedule thereto which devolved to the counties the Cooperative functions. It also proposes the functions of the national government, the functions of the county government, the concurrent functions of the two levels of government, the duties, and responsibilities of Cooperative institutions, as well addressing other emergent issues in the Cooperative sector. It is hoped that the *draft Cooperative Bill* shall in the coming years be submitted to the cabinet for approval and onward transmission to Parliament for legislation.

9.2. REPORT ON THE NATIONAL RISK ASSESSMENT (NRA) ON MONEY LAUNDERING (ML) AND TERRORISM FINANCE (TF).

The *Taskforce on the National Risk Assessment (NRA) on Money Laundering (ML) and Terrorism Financing TF)* which was first appointed by the *National Treasury in March 2019* finalised the NRA exercise and published a report in November 2021. The Taskforce was made up of the various law enforcement agencies and the financial sector regulatory agencies (including the Authority) in the Country and was chaired by the National Treasury with the FRC being the national coordinator. The Taskforce, its membership and terms of reference was gazetted in the *Kenya Gazette Notice No. 2577 dated 13th March 2019* as was reported in the *SACCO Supervision Annual Report, 2019*.

Regarding the SACCO subsector, the Taskforce in accordance with its mandate held discussions and meetings with various SACCOs and other key stakeholders within the Financial Co-operatives sector "*to assess and understand the levels and trends of money laundering and terrorist financing risks*" within the Financial Co-operatives space in the course between 2019 and 2021. The Task-Force used the World Bank ML/TF Risks Assessment Tool which defines the ML risk as a combination of national threat and national vulnerability which has twelve (12) modules namely - 1) national money laundering threat; 2) national money laundering vulnerability; 3) banking sector vulnerability; 4) securities sector vulnerability; 5) insurance sector vulnerabilities; 6) other financial institutions vulnerability; 7) designated non-financial businesses and persons (DNFBPs) sectoral vulnerability; 8) national terrorist

financing threat; 9) financial inclusion products; 10) environmental crimes vulnerability; 11) non-profit organizations (NPOs) sector vulnerability; and 12) tax crime vulnerability.

The SACCO subsector was assessed and participated under *Module 6 (other financial institutions vulnerability)* as well as *Module 9 (Financial Inclusion Products)* with the main focus being the DT-SACCOs whose ML vulnerability was assessed as Medium High (0.6) using the twelve assessment variables as indicated in **Table 42**.

Table 42: Extracts of the Assessment of ML Vulnerability of DT-SACCOs in Kenya

	Assessment Variable	Variable Assessment Rating
1.	Comprehensiveness of AML Legal Framework	High (0.7)
2.	Effectiveness of Supervision/Oversight Activities	Medium (0.5)
3.	Availability and Enforcement of Administrative Sanctions	Medium (0.5).
4.	Availability and Enforcement of Criminal Sanctions	Medium (0.5)
5.	Entry Controls	Medium (0.5)
6.	Integrity of Business/Institution Staff	Medium (0.5)
7.	AML Knowledge of Business/Institution Staff	Medium Low (0.4)
8.	Effectiveness of Compliance Function (Organization)	Medium (0.5)
9.	Effectiveness of Suspicious Activity Monitoring and Reporting	Close to Nothing (0.1)
10.	Availability and Access to Beneficial Ownership Information	Medium Low (0.4)
11.	Availability of a Reliable Identification Infrastructure	High (0.7)
12.	Availability of Independent Information Sources	Medium High (0.6)
	OVERALL ML VULNERABILITY	**MEDIUM HIGH (0.6)**

Source: The National Money Laundering and Terrorism Financing Risks Assessment Report 2021

The NWDT-SACCOs and other financial cooperatives such as investment and housing cooperatives were however not assessed due to absence of reliable data and statistics as at the time of undertaking the NRA exercise between 2019 and 2020. It is however noteworthy that by way of Regulations, 2020 which took effect from 1st January 2021, a section of NWDT-SACCOs namely those undertaking specified non-deposit taking business were brought onboard the Authority's supervisory framework as more particularly elaborated in Chapter II of this report. Consequently, the financial performance and statistics for these NWDT-SACCOs with effect from 2021 are henceforth available and thus these NWDT-SACCOs will be able to be included in future assessment. The NRA Report concluded with recommendations requiring improvement namely -

(a) Regulatory framework- there is no specific regulatory framework that is applied to these types of co-operatives and are considered to be normal non-deposit taking Saccos. However, some like investment Saccos have an unclear structure as they are Saccos within a Sacco.

(b) Unsanctioned investments- investment Saccos deal with high value investments, land, housing, motor vehicles, among others, yet there are no guidelines to oversight these investments and requirements for disclosure on sources of money. This makes it easy for these Saccos to be misused for comingling of illicit funds.

(c) Lack of an official transitional strategy – due to inadequate supervision, some Saccos, like transport related Saccos, operate in an amorphous and unstructured way. There is no oversight incase a Sacco decides to transit from this category to the non-deposit taking Sacco category. This raises a challenge, that there might be Saccos operating there, offering financial services and products with no oversight

On the *Financial Inclusion Products (Module 9)* vulnerability assessment, the report noted that the ML vulnerabilities for SACCOs were classified into the following four categories namely (a) customer risks; (b) product risks; (c) geographical risks; and (d) partners risks (associated with agents and third-party service providers.

9.3. THE FINACCESS HOUSEHOLD SURVEY REPORT, 2021

The FinAccess Survey Report in Kenya is an initiative of the financial sector regulators comprised of the IRA, CBK, CMA, RBA and SASRA (Authority) in collaboration with the Kenya National Bureau of Statistics and the Financial Sector Deepening – Kenya (FSD – Kenya. It was launched in 2006 and the *FinAccess Household Survey Report, 2021* was the sixth (6) edition of the survey which measures and analysis the supply-side dataset on access to, usage, quality, and impact/welfare of financial services in Kenya. The survey is equally aimed at supporting policymakers to measure and monitor financial inclusion across the country and benchmark progress against peers. The *FinAccess Household Survey Report, 2021* can be downloaded from the Authority's website www.sasra.go.ke or the websites of any of the financial sectors' regulators.

10.0. THE FUTURE OUTLOOK OF THE SACCO SUBSECTOR

10.1. OVERVIEW

Whereas the Authority shall continue to implement measures towards sustaining the stability, efficiency, and soundness in the individual SACCOs as well as the subsector as a whole to withstand unexpected industry and other macroeconomic shocks; it is also critical that the SACCO subsector players ought to take stock of the emergent issues in financial services delivery that will or may impact on their performance in the short to long term. It is also critical that the subsector players put in place measures aimed at mitigating the adverse effects of such emergent issues.

10.2. MACROECONOMIC FACTORS

At the macroeconomic level, the performance of SACCOs shall continue to be impacted by the macroeconomic conditions or challenges in the national economy, particularly within the savings mobilization and credit provisions sector of the economy. Although the SACCO subsector was able to substantially withstand the adverse effects of the COVID-19 pandemic during the year 2020, it is evident that the subsector's performance is yet to see-off the residual effects of the pandemic. SACCOs with members majorly drawn from economic sectors susceptible to unstable business cycle environment had higher loan delinquency and reduced liquidity, as evidenced by the substantial increase in the NPLs to 8.99% in 2021 from a low of 8.39% recorded for the year ended 2020 at the onset of the pandemic.

The key after-effects of the pandemic which will continue to affect the performance of SACCOs in the short and medium term include increased unemployment and rationalization of the labour force by employers, which will result in reduction of membership in SACCOs, defaulted loans, and demands for refunds of savings and deposits by members. In addition, the closure or cessation of business by some private sector companies especially in the retail, hospitality, manufacturing and aviation sectors due to the after-effects of the pandemic or other economic factors, will inhibit the growth, performance and stability of SACCOs whose membership are drawn from such sectors. The Private Sector based SACCOs, especially the NWDT-SACCOs whose average sizes remain very small and thus do not enjoy economies of scale are thus likely to continue being adversely affected due to job losses, reduced business operations and incomes, as well as a disrupted supply chains.

Climatic changes and erratic weather patterns in the country will continue to adversely affect the performance of Agriculture-based SACCOs. Reliance on rain-fed agriculture means that failure of rains or delayed rains will result in low productivity, and consequently low revenues from agricultural inputs. Members of Agriculture-based SACCOs will thus continue to have a high propensity toward default in their loans as evidenced by the high NPL of 14.83% during the year ended December 2021. These SACCOs must thus consider diversifying their membership services and reduce over-reliance on agricultural produce as their main sources of revenue.

10.3. DEEPENING THE USAGE OF INFORMATION COMMUNICATION TECHNOLOGY

The usage of ICT in the provisional of financial services will continue being the main transformative competitive edge of financial institutions which will be able to weather the storm of a highly competitive financial services sector driven mainly by digital services. SACCOs

must thus embrace digital and online access to their main services including savings mobilizations, application for and access to credit facilities, loan repayments, transactional inquiries among others. Whereas many SACCOs are already in the digital and online space of financial services delivery through mobile money platforms, online and internet platforms, ATMs, and SACCO agencies, a lot more needs to be done, particularly regarding efficiencies and turn-around times for their digital services.

The enactment of the legal framework for licensing, supervision, and regulation of digital credit providers by the Central Bank of Kenya, whose implementation is foreseen to take shape in 2022 will add another layer of competition for SACCOs. Although previously seen as unregulated, the eminent commencement of supervision and regulation of digital credit providers is likely to endear them more to the public as credible credit service providers, especially among the tech-savvy youthful population of the economy. To compete favourably for this demographic market, SACCOs must invest in ICT and be innovative enough in the roll-out of digital credit financial services products that responds to their market niche.

The increased usage of digital and electronic financial services however presents the risks of cyber-attacks and threats to the SACCO subsector. National statistical surveys and reports suggest that SACCOs could be the next frontier for cyber-criminals, following the tightening of cyber-security measures by other financial sector players like commercial and microfinance banking institutions. Whereas SACCOs have been able to maintain a very robust internal Management Information Systems (MIS) capable of withstanding cyber-attacks, the reliance on third-party vendors and integrators for access to mobile money platforms and other national payment platforms, has been observed to present an opportunity for cyber-criminals to access the SACCOs' MIS and thereafter commit fraudulent activities. According to the statistics within the Authority, it is apparent that 98% of the cyber-attacks and threats on the SACCOs' systems over the last three (3) have been perpetrated using platforms owned and operated by third-party vendors and integrators, contracted by SACCOs for the provision of financial services. Consequently, SACCOs are called upon to heighten their procurement and due diligence activities before contracting these third-party vendors and integrators. The Authority shall in consultation with the stakeholders in the industry develop and issue a guidance note on the minimum standards and governance requirements that a third-party vendor or integrator shall be expected to maintain before being allowed to integrate their system with those of any SACCO Society.

10.4. THE NEED FOR AMALGAMATION AND CONSOLIDATION OF THE SACCO SUBSECTOR

Stiff competition in the national financial sector driven by heavy capital expenditures in marketing, competitive pricing, digital financial products, and service, means that only large and well-resourced financial institutions which enjoys economies of scale shall survive in the long run. It is this reality that has seen mergers and acquisition taking place in the commercial and microfinance banking sector, which is the key competitors of SACCOs in the mobilization of savings and credit provision business. A time has therefore come for the SACCO subsector and its players to commence a policy dialogue on voluntary mergers (also called amalgamations) and consolidation of the subsector. Despite being social enterprises in their nature and formation, SACCOs are principally economic businesses which will thrive and be sustainable to meet members' obligations when they enjoy economies of scale.

The statistical information discussed in this report shows that there are too many small SACCOs in the subsector. For instance, there are 49-Agriculture based SACCOs in the country, but which controlled less than 10% of the subsectors' total assets and total deposits. Equally there were over 107-Private sector based SACCOs but whose total assets and total deposits portfolios is less

than 13% of the subsectors' total assets and total deposits. A similar scenario obtains regarding the 88-Community based SACCOs which had a proportion of the subsector's total assets and total deposits at about 11.84% and 12.86% respectively. The analysis therefore shows that 67.59% of all SACCOs controlled a paltry 36% of the subsector's total assets and deposits; while the remaining 32.41% of all SACCOs (being the 117-Government-based SACCOs controlled a whopping 64% of the subsector's total assets and total deposits. Other than Government-based SACCOs, it can be concluded that on average other clusters of SACCOs are relatively small in their respective asset sizes and deposits, and cognizant of the assets being the principal revenue stream for SACCOs, it goes without saying that the respective incomes and revenues generated by these SACCOs was on average quite low thus affecting their stability and sustainability.

Additionally, the commencement of prudential supervision of the NWDT-SACCOs in 2020 revealed that many Private sector based NWDT-SACCOs and Community-based NWDT-SACCOs actually draw their membership from the same fields of membership and common bonds. For instance, it is not uncommon to find two or more NWDT-SACCOs drawing membership from the same employer – company or similar faith and religious based organizations. To enjoy economies of scale, these small SACCOs can amalgamate, merge, or consolidate with each other based on similarities of fields of membership or common bonds, so as to enjoy economies of scale and compete effectively, not just within the SACCO subsector space but also within the national financial sector space.

In the absence of such consolidation and given the opening of common bonds (field of membership) by nearly all the financially endowed and larger SACCOs particularly the Government-based SACCOs, it is clear that the smaller SACCOs shall feel the heat of competition with their larger counterparts eating into their market pie more and more, since the interest of members (notwithstanding the common bond affiliation) will always remain effective and efficient service delivery. And since the larger SACCOs can meet the member demand at competitive prices, the smaller SACCOs will always remain at a disadvantaged position to effectively compete.

APPENDICES

APPENDIX I: SUPERVISORY OPERATING CIRCULARS AND GUIDANCE NOTES

SUPERVISORY OPERATING CIRCULARS AND GUIDELINES			
	NAME OF CIRCULAR/GUIDELINE	**REFERENCE AND ISSUE DATE**	**PURPOSE AND OBJECTIVES**
1	Guidelines on Management Information Systems (MIS) for Deposit-Taking Sacco Societies	SASRA/GG/2/2013 July, 2013	Guide DT-SACCOs on implementation of MIS
2	General Procedures for opening and closing of Branches and other places of business	SASRA/GG/1/2013 May, 2013	Provide a procedure for compliance with Section 32 of the SSA with concerning the opening, closure and relocations of DT-SACCOs branches and other places of business.
3	Circular on submission and approval of audited financial statements	SASRA/GG/1/2015 January, 2015	Provide the procedure and time lines for submission and approval of DT-SACCOs' audited financial statements
4	Circular on Approval of Agency Banking by DT-SACCOs	SASRA/Circular No. 14/2011 May, 2011	Provide the procedure for application and approval of agency banking by DT-SACCOs under Reg. 17 of the Regulations 2010
5	Circular of Application of Cooperative Societies Act to DT-SACCOs.	SASRA/Circular No. 16/2011 June, 2011	Expound on the application of the Co-operative Societies Act to DT-SACCOs pursuant to Section 67 of the SSA
6	Directives on the raising of capital through offers of sale of shares through media and other public advertisement	SASRA/5/V.1 (83) September 2012	Ensure that DT-SACCOs complies with the regulatory frameworks on raising capital from the public
7	Circular on the role of Directors of DT-SACCOs	MCDM/2/32/VOL.1/157 April 2011	Expound on the oversight role and responsibility of Directors of DT-SACCOs to limit conflict of responsibility with management
8	Circular on procurement of goods and services by DT-SACCOs	SASRA/Circular No. 11/2011 April, 2011	Reinforces the duty of DT-SACCOs to comply with Public Procurement and Disposals Act, 2005 and Regulations made thereunder while undertaking all procurements
9	Guidelines on Good Governance Practices for Deposit-Taking Sacco Societies	SASRA/RG/01 June 2015	Aimed at ensuring that the members of Sacco Societies, the Board of Directors, individual directors, management and other stakeholders clearly understand their various roles, duties and obligations within the confines of the law and good practices
10	Guideline on Risk Management Practices for Deposit-Taking Sacco Societies	SASRA/RG/03 June 2015	Provides the Board of Directors and Senior Management Staff of the Sacco societies with minimum standards in terms of policies, procedures and structures for effective risk management practices in the Sacco societies
11	Circular on imposition of levies and financial penalties prescribed in the law	SASRA/GG/2/2015 July, 2015	Provides details of the circumstances under which the Authority may impose a levy or financial penalty for any violations or breaches in accordance with Section 51(p) of the Sacco Societies Act.

SUPERVISORY OPERATING CIRCULARS AND GUIDELINES			
	NAME OF CIRCULAR/GUIDELINE	**REFERENCE AND ISSUE DATE**	**PURPOSE AND OBJECTIVES**
12	Circular authorizing the limited use by DT-SACCOs of the Authority's name and acronyms	**SASRA/GG/1/2016 January, 2016**	To differentiate DT-SACCOs from other Sacco Societies, the Authority allowed DT-SACCOs to use the words "*Regulated and/or Licensed by SASRA*" in their advertisements, correspondences, brochures and other marketing materials.
13	Circular on the application of ISA No. 701 (*Communicating Key Audit Matters in the Auditor's Report*) to DT-SACCOs.	**SASRA/700/721/ VOL. 1 (1310 21st November 2016**	The circular extends the application of ISA No. 701 to DT-SACCOs. Henceforth, external Auditors of DT-SACCOs must communicate all Key Audit Matters (KAM) in their opinions on Financial Statements.
14	Circular and Guidance Note on the Application of the International Financial Reporting Standard (IFRS) 9 to Outstanding Loans and Credit Advances Issued by Deposit-Taking Sacco Societies in Kenya	**SASRA/700/721/VOL. I (134)** **2nd October 2018**	General guidance to DT-SACCOs on the application of *IFRS* - 9 to outstanding loan portfolios with effect from Financial Statements for the period commencing in January, 2018
15	Circular and Guidance Note on the Withdrawal of the Old Generation Kshs 1000 currency note and introduction of new currency notes	**SASRA/800/GG/1/2019** **7th June 2019**	Advisory and sensitization note to SACCOs to comply with the CBK's directive on withdrawal of the old generation Kshs 1,000 note by 1st October 2019; the introduction of new generation currency notes as per the Kenya Gazette Notice No. 4849 dated 31st May 2019; and the need to fully comply with the AML/CTF requirements during the exercise.
16	General Advisory Note on Non-Remitted deduction due to SACCOs from various employer-institutions	**SASRA/800/2/2019 11th June 2019**	An advisory to SACCOs on measures to take and/or put in place to reduce and/or mitigate against the perennial risks of default by various employer-institutions to promptly remit deductions due to SACCOs.
17	Circular on the Sectoral Lending Reporting Framework for SACCO Societies in Kenya	**SASRA/GG/2/2019** **10th December 2019**	Guidance to SACCOs on the quarterly reporting of the economic sectors in respect of which the loans and credit facilities issued by the SACCOs are aimed at financing. The Circular lists the sectoral areas in respect of which the loans and credit advances by SACCOs shall be reported, including the respective codes and sub-codes for each sector and subsector.
